Furey (who died from injuries received at the burn-ing of the sugar refinery, Crown and Race streets), will be duly acknowledged and promptly forwarded to the Treasurer of the Fund for their relief Fund for their relief.

Find for their reflet. Local Chowden.—In the prolongation of weather decidedly warm, retail trade is at a comparative stand-still. The place to witness the most demonstrative cross between ner-vousness and activity is the vicinity of the State House and the stamping ground in the rear of the Post-office. At these points the rear of the Post-onice. At these points the politicians are assiduously engaged in laying pipe. Their satellites surround them. Like the lilies of Solomon, they "toil not, neither do they spin." The candidates clothe them. They also whiky them. —An arrival of blooded animals at Catha-

—An arrival of blooded animals at Catha-rine street wharf, this morning, drew a gather-ing of people to that spot. The bark James-town came in with a deck-load of Alderneys, Southdown rams and aristocratic pigs of the male persuasion. The quadrupeds were ten-derly placed in a tackle, and landed on the dock. The Alderney is especially beautiful. The two bulls among the lot that we saw, to-day, are as beautiful as deers. They are as graceful as ballet-dancers, with pasterns as pretty as the pasterns of a gazelle. The color of the Alderney is peculiar. It varies from that of a salmon to that of a mouse. Tawn and buff color are the general hues. Two ponies, about the size of St. Bernard dogs, were in the lot. By a big stevedore one of them was bodily ta-ken up and carried the entire width of the ken up and carried the entire width of the dock. The Yorkshire pigs were the less docile When lifted they remonstrated with piercing squeals. The entire stock, including many fowls of curious look and elaborate breeding, were consigned to Mr. Herkness, of the San-

were consigned to Mr. Herkless, of the sal-som Street Bazaar. —A ride at night through Kensington and Richmond shows a pleasant prospect. Stock-ing and "Germantown goods" factories are lighted up, and the whirr of the steam engine keeps up its music day and night. The monster Dolan mill, at Hancock and Jefferson streets, looked as if illuminated for a special screets, lower as in minimized for a special occasion. The employees of these large indus-trial establishments are to be counted by thou-sands. The work is all "piece work." The operatives find no occasion either for indo-lence or for strikes. To many people living in lence of for strikes. To many proposition is a regu-lar terra incomita. In the enjoyment of sterl-ing comfort the mill-operatives of Kensington need envy no one .---

THE ARCH STREET OPERA HOUSE.—The new opera house of Messrs. Simmons & Slocum, on the north side of Arch street, above Tenth, is now having the finishing touches put to it and will be open on Monday night next. The building occupies a lot 50 feet front by 175 feet in depth. The front is brick, plastered in junitation of white marble. It is plastered in imitation of white marble. It i two stories in height and is surmounted with an ornamental cornice. In front of the second story there is a balcony. The entrance to the opera house is in the centre, and is fifteen feet wide, with tiled floor and frescoed walls and ceiling. On each side of the doorway there is burners. There are also two lamps on the balcony.

Fronting on Arch street there are two stores, one on each side of the main entrance.

stores, one on each side of the main entrance. These stores are 22 by 50 feet. The interior of the opera house has been fitted up in elegant style. The ceiling and walls are frescoed in the most handsome man-ner, the work having been done by John Gib-son. In the dome there is a patent ventilator, which acts in such a way as to draw the heat from the building. Beneath the dome there are a series of gas-burners arranged in circular-form, which throw out such a brilliant light that the smallest type can be easily read by persons sitting in the parquette. Around the walls there are numerous brackets of entirely new, very neat and handsome designs. The gas fixtures were furnished by Baker, Arnold & Co. (late Cornelius & Baker), from their new manufactory at Twelfth and Brown streets. The stage is 30 feet in depth and 27 feet 6 manufactory at Twelfth and Brown streets. The stage is 30 feet in depth and 27 feet 6 inches between the prosceniums. The front is highly ornamented, and there is a full sup-ply of scenery, &c., painted by Robert Frazier. The auditorium, it is expected, will comfort-ably seat about 1,000 persons. The orchestra seats are of an entirely new kind, known as "the patent opera chair." The principal fea-ture of these chairs is that the occupant can tilt his seat into a recess and make more room for any person who desires to pass him. These chairs were furnished by B. Koechling, of New York. In the rear of the orchestra is the par-quette, with handsome plush seats. There are two galleries, so arranged that a good view of the stage can be seen from any part of them. The front of these galleries has been painted and gilded in a tasteful manner by W.F. Kelley. The upholstering was done by W. H. Carryl& The upholstering was done by W. H. Carryl&

A BOLD ACT-ATTEMPTED ROBBERY AT THE NAVY YARD—THE PAYMASTER'S SAFE REMOVED FROM HIS OFFICE.—This morning about three o'clock the officer of the day at about three o'clock the officer of the day at the Navy Yard noticed a man walking about the yard in the neighborhood of the officers' quarters. The sentinel upon duty was called upon for an explanation. The man was-hailed, but immediately ran to the wall, clam-bered over and escaped. It was then noticed that two stools had been so arranged as to make this act quite easy. Things began to look a little suspicious, and before a further examination could be made two men rushed out of a rear door of the building occupied as the officers' quarters, and attempted to fol-low the man, who was evidently a confederate. So quick were their movements that one got away. The sentinel raised his musket and

The officers' quarters were then examined, and it became evident that these bold thieves who planned a robbery to be committed in a place surrounded by high walls and guarded by United States mayings had concerned them. United States marines, had concealed them-selves yesterday afternoon, before the yard was closed, in a cellar which is only used when whitewashing is being done about the yard. After the offices had been closed they passed After the offices had been closed they passed to the first floor and first fastened the front door with gimblets. They then broke open the door leading to the Paymaster's office. The fire-proof safe was removed from the apartment into the entry and was finally braced against the wall. Operations were then commenced upon the door, and two holes had been hored when the robbers were disturbed. The fellow first seen on the outside was for the The fellow first seen on the outside was on the watch, and he notified his companions of dan-ger by means of a string which passed through ger by means of a string which passed through a window, and had a large white ball on the end. This string was found, as were also a dark lantern, a huge jimmy, a powerful steel brace and several bits. The tools were all of the best workmanship. There was also found a piece of iron which belonged to the cellar. The man who was captured refused to give any name. On his person was found a ticket from Utica to Philadelphia. Detectives Frankhn and Lukens, who visited the yard, this morning, do not know the fellow, but think that he is a New York thief. He had in his pocket a lady's watch, with black

in his, pocket a lady's watch, with black, enameled case, set with pearls and diamonds, and letter "G," on one side. The watch is numbered 28,119; makers, Breitling & Lacderich, Cheaux de Fond, Suisse. Attached to it there is a twisted chain. These are supposed to he the proceeds chain. These are supposed to be the proceeds of another robbery. There were also found on his person three screws, which fitted in one of the tools found. The robbery was well, planned, and came

very near being successfully carried out. The thieves expected to get about \$200,000, which was supposed would be sent from Washington esterday to pay off the employes, to-day ng pay-day.

JUVENILE THIEVES CAPTURED .- The house of William S. Hansell, No. 1410 Arch-street, was broken into about six o'clock this morning by three boys. They got into the yard, and one climbed through the transom into the kitchen. He then smashed a plate glass in the door leading into the dining-room and got through. He opened a window and let for through. He opened a window and let in a companion. A colored girl living oppo-site observed this, and notified Policeman. Davis, of the Sixth District. He got into the bouse and secured two of the boys, who were found hiden under the piano. The one who was in the yard on watch escaped. The prisoners are named James Devine and James Hughes. Both are 15 wars of age. Aldaman Hughes. Both are 15 years of age. Alderman Jones committed them for a further hearing to-morrow.

A SERIES OF ROBBERIES .- The dwelling of H. W. Colesbery, No. 520 North Nineteenth street, was broken into last night and was com-pletely ransacked. The family are absent, and been left in the house were carried off. The residences of Edward Ely and — Mc-

Elroy, Nos. 522 and 524 North Nineteenth street, were entered on Tuesday night and were also robbed of everything which could

be carried off. The occupants of these houses are also absent from the city. WHARF RATS .- The Dela Police about one o'clock this morning made a raid upon the wharf thieves, who have been engaged in stealing or destroying watermelons, peaches and other fruit. Between Market and "The street about fifty of these thieves, comprising men, women and children, black and white, were driven away. Henry Rye, who was caught in the act of stealing watermelons, was arrested and locked up. DiscHARGED.—John Pugh and George Wyman, charged with having committed an outrageous assault and battery upon Susan McCammon, had a further hearing before Ald. Kerr this afternoon, and were discharged, Susan follows to appear and a policeman Susan failing to appear, and a policeman testifying that he believed she had left the State.

Excussion.—The excussion of the Knights Templar, under the auspices of the Cyrene Commandery, No. 7, of Camden, to Atlantic City, which was postponed on account of there not being sufficient accommodations at the hotels at Atlantic City—all being overcrowded .—will take place to-morrow (Friday) after-noon. The first boat will leave Vine street ferry at 3.30 P. M. On Friday evening a com-plimentary hop will be given at each of the hotels. On Saturday morning there will be a parade in full uniform along the beach. In the evening a reception will be given, after which there will be a fine display of fireworks. Sunday morning religious services will be held, Sunday morning religious services will be held, and on Monday afternoon the party will re-turn home. The trip promises to be a very delightful offsic delightful affair.

PROF. CHANDLER, of New York, in a lecture delivered at Gooper Institute, March 19th, said: "It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of unsafe kerosene; you have only to read the weypapers from day to day to see them. It is stated by some that these mercessingerated; that these accidents never occur; and that you and I never had a friend burned to death; still we do, have, an enormous number of terrible accidents from petroleum. In the last seven months of 1859 there were fifty five kerosene accidents in New York, result-ing in twenty-three deaths, eighteen serious finguies and fouriteen slight ones. The total result for the year 1859, for the city of New York, which I myself have cut from newspapers, is fifty two fatal accidents from dangerons kerosene, fifty severe and six slight; in all, 108 persons, to my knowledge, from my own reading, have been in-jured by kerosene in one year." This is not surprising; for, apart from its being found in most of our respectable Drug Stores in this city and country, and its being strongly recommonded by the physicians, the mild and agreeable tasks of this article, contrasted with the strong, pungent and actial sensa-tion produced on the palate by the common deleterious article—which is now the general complaint of nearly all the medical inculty of this country-would, of itself, suffice to give it the decided preference. WORTHY OF IMITATION .- Between Chris-WORTHY OF IMITATION.—Between Chris-tian and Catherine streets, and extending from Twenty-third to Twenty-fourth street, an im-provement in the building line has just been completed which promises to attract attention here and elsewhere. A plot of ground has been laid out with a fifty-feet wide street run-ning from Twenty-third to Twenty-fourth street, called St. Alban's Place. On each side 26 pressed-brick front houses have been erected. They are three stories high, the third being in the form of a mansard room, and al-though the dwellings are of moderate size—16 feet front—they contain all the most complete manner. Walnut doors, plate-glass windows mences, and are finished in the most complete manner. Walnut doors, plate-glass windows and inside shutters add to the attractive ap-pearance of the fronts. But the feature of the improvement is the street on which these houses front. St. Alban's is not to be a public thoroughtare for vehicles, although not closed to pedestrians. The fifty feet from house to house is laid out with a fourteen feet sidewalk on each side, while the space from curb to curb is appropriated to a garden, ex-tending the entire square, and enclosed with a neat iron failing. Three fountains are placed within the garden, and to still further beautify houses front. St. Alban's is not to be a public thoroughtare for vehicles, although not closed to pedestrians. The fifty feet from nouse to house is haid out with a fourteen feet sidewalk on each side, while the space from curb to curb is appropriated to a garden, ex-tending the entire square, and enclosed with a neat iron failing. Three fountains are placed within the garden, and to still further beautify the enclosure, terra cotta vases for flowers and eye to effect. The result of this arrangement is that the flity-two houses, designed for persons of moderate means, face a garden which the prodest and best of our citizens would be glad to possess as an adornment of their premised from a, if the sidewalks there were extended over the roadway to the grass-plot, and the garden there was adorned with fountains, statuary and flowers. In order to compensate for a cartway in front of the grass-plot, and the garden there was adorned with fountains, statuary and flowers. The order to compensate for a cartway in front of the dwellings, Mr. C. M. S. Leslie, the owner, has laid out and dodi-cart d to public use, a twelve feet wide street in the rear of the houses. These two streets will give access to the houses for furniture, coal and all the necessaries of the household, while it and lat the necessaries of the household, while it not a greater success than former ones.
