We may expect to hear of more So, if the Prussians should enter the hard fighting from the same quarter within a and secure the treasures of the Louvre and of very short time. MacMahon must make some other collections, it is likely they would obtain Office, No. 124 SOUTH SECOND STREET movement, either toward Bazaine or back again a good deal of their own property, and much toward Paris 

## HOW IT WORKS.

The public is beginning to see the practical working of the American Press Association in Napoleon, and confiscate not only the fruits of supplying reliable and early news, not only his long series of thefts, but appropriate the from all parts of our own country but from best French works of art. The French ad- NAVIGATION COMPANY Europe. The old New York Associated Press mired very warmly Napoleon's system when it enjoyed the monopoly of furnishing news to produced results so splendid for France. They "OLD COMPANY LEHIGH COAL" the American press so long, that the public was cannot reasonably complain if the same system gradually deluded into the absurd belief that is made to operate to their grievous injury; but that little clique of New York newspapers owned the sole right of receiving and pub-

This grinding monopoly has grown fat on the fruits of this successful delusion, and has domineered over the whole business of journalism in Four weeks ago M. Thiers was one of the this country, forbidding or crushing out news- most unpopular men in Paris. In the frenzy paper enterprises, and doling out news to or withholding it from the public just as its own received the first intimation of the intention of private interests were best served.

Association, in February last, broke up this old monopoly and opened the field of the world's news freely to American jouanalism and, through that channel, to the people. At first the New York Associated Press sneered first the New York Associated Press sneered at it as unworthy of its notice. Then it began sightedness did not prevent the excited people at it as unworthy of its notice. Then it began to lie about it. Finally it has come to steal from it regularly and greedily. From the very outset, the American Press Association entered vigorously upon the business of collecting im-portant news from all parts of the world, and portant news from all parts of the world, and present campaign have again vindicated his portant news from all parts of the world, and again and again distanced its overgrown rival, by anticipating its intelligence. Many notable instances of this success might be cited in proof of this assertion. In some instances the only intelligence received in this country of really important events has come through the Ameri-can Press Association, and in many more cases, it has been received much earlier than cases, it has been received much earlier than call Press Association, and in many more that France was not prepared for prepared for such a war, but that there was miserable in-by the New York Associated Press. Only gesterday, the American Press Association re-ceived the news of the renewal of active hostili-ties near Montmédy, and the papers of the state of affairs than his colleagues and de-New York Association for the papers of the state of affairs than his colleagues and de-New York Associated Press deliberately stole nouncers seem to have done, and he may well it, without taking the trouble to correct a claim, as he has, that all this misery might typographical error in the despatch, and with-bave been spared to France if his counsels had taken, and the war despatches of the American of the justice of his position and of the high Press Association are daily to be found, dove- character of his patriotism has been made

in the same manner.

"left out in the cold." But the American the Empire. Press Association was not to be caught napping, and its Cincinnati agent, a first-rate type THE BULLETIN BUILDING, of Young American enterprise, forwarded over the wires of the Pacific and Atlantic Telegraph 607 Chestnut Street. The EVENING BULLETIN is served by carriers, the full and accurate report of the Archbishop's regist the Prussing to a determination to regist the Prussing to a determination to at Eight Dollars per annum, payable at the Office, speech which we presented to the readers of Nearly every available man in Paris is armed the EVENING BULLETIN on Monday afternoon, while the New York Association, with

Beading Beinsen the vands of XB ad 78 a de 44 de	STOAY. Anc. 23 — While the work of the product of the present past work was for bold were sciences, and while new the rest outside of gold were sciences, and while new the past work was for bold were sciences. It is this singular contrast be- tween the gravity of the situation and the quietness of the street that commands attention. It shows that Wall stretch is the operative. Were it not for the which captains of finance who sweep into and through the treets at intervals the operation of natural laws would be but a prosy unstrer, and speculators of limited capital would seek other fields for the trial of their tick. Hence it is that at a senson when the watering places which is that at a senson when the watering places which is that at a senson when the watering places which of speculation the Wall attreet magreest leading but fittuly, if at all, to the changes in the current of acculative influences. In such a condition of things it is easy to understand that speculative transactions havo of late been gene- rally comsummated in the Gold Boom, the speculative up an amedium of max on thirther to try its fortunes presented in the vicinity of the Stock Exchange. But even in this direction the vorture of and proving the undertaking, the current week exhibiting " a which mas in the nutuation of the solid proving when have been almost counterbalanced by the risk of the undertaking, the current week exhibiting " a which mas in the nutuation of the solid proving wells of gold on Monday were at 1132. From which, de- spite intege contracts on the short side, there ywas at ad- vance on the twentick," and a 'urther rise to 118 was consoned by the leaders in which were so by pure chance. The check to speculation produced by it re- flected in the belief that gold was destined to go maxet and in the dwindling down of the clearances from a hundred to gorte that pools had been formed on the one inage to ad- vance and on the other is dependent to replay the prime rise of the conseq the consend the gold market and in the dwindli	that they knew nothing of them till a days since. Upon their discovery the Sec tary of State simply reported to Governor I
