PHILADELPHIA WATCH COMPANY—DE-FAULTING OFFICERS.—The Philadelphia Watch Company has a place of business in the second story of No. 714 Chestnut street. E. Paulus is President, and, until recently, Celestin Jacot was Secretary and Hector Jacot was Treasurer. The brothers Jacot were in

was Treasurer. The brothers Jacot were in partnership and had a watch-case manufactory in the upper part of the same building. Both have left the city in a mysterious way, leaving various creditors behind, and, it is alleged, taking with them some of the funds of the Philadelphia Watch Company.

Mr. Paulus states that he left the office on Wednesday evening last about five o'clock; at that time Celestin was there; Hector attended to the shop up stairs, and he made it a part of his duty to open the office of the Watch Company in the mornings; on Thursday morning Hector did not open the place as usual, and neither of the brothers put in an appearance; Mr. Paulus made inquiries of the workmen in the shop, and was informed that they had gone away on business; an inquiry at the the shop, and was informed that they had gone away on business; an inquiry at the boarding-house of Celestin brought forth the same reply. Mr. Paulus knew that the brothers had been dealing extensively with some New York concerns, and had got into financial difficulties by paying high discounts (sometimes reaching 25 per cent.) for money, and he thought that they had gone to New York to arrange matters. Celestin frequently went to New York, but it was unusual for both to be absent. Celestin is a single man, and Hector has a family, but they didn't know of his whereabouts. On Friday a Deputy Sheriff appeared and took possession of the Jacot establishment, at the instance of some of the creditors. Mr. Paulus then made of the Jacot establishment, at the instance of some of the creditors. Mr. Paulus then made a hasty examination of the affairs of the Philadelphia Watch Company, and found that various promissory notes, &c., were missing. The notes, it was ascertained, and the money, it is supposed, were carried off by the Jacot brothers. Mr. Paulus went to New York and got aboard the European steamer on Saturday. He made a thorough search, and carefully scanned the faces of all or the passengers, but did not discover the missing men. The loss of the company has not yet been definitely ascertained. It will amount to several thousand dollars, but will not interfere with the affairs of the company. All of the effects left behind by the Jacot brothers are under attachment by the Sheriff.

"THE FAINTING LADY."—All sorts of dodges are resorted to for the purpose of raising money. The latest which has come to light is that of "the fainting lady." A young woman faints in front of one of the large hotels or a store. She is carried into the place and receives proper attention. Every-body sympathizes with her, a small purse is made up to pay expenses, and she is sent home in a carriage. A day or two ago the lady fainted on Market street. She was carried into a store. Restoratives were applied, but they did not seem to have any effect. The clerks became alarmed, and a physician was summoned. He made the necessary examina-tion, gave a significant shake of the head, and remarked, "playing possum." He applied hartshorne to the nostrils, but consciousness hartshorne to the nostrils, but consciousness would not return. Then he said, "Remove her to the station-house, where she can have every attention." The remark acted like magic. The fainting spell was broken. The lady arose quickly and walked off.

This afternoon, before Alderman Kerr, a woman was brought up by Lieut. Thomas, of the Reserve Corps, who said: "This is the lady who faints. Her name is Mary Tilton." Prisoner—Miller.

Alderman—What is your name?

No answer was given.

Several officers were examined, and said that the woman was in the habit of fainting, and

the woman was in the habit of fainting, and then saying that she had lost her money. In this way she would excite sympathy and a collection would be taken up for her. One offi-cer said that she had once been charged with larceny. She was known respectively to the officers as Mary Miller, Mary Tilton and Mary Twitchell.

Alderman to Prisoner—Are you married? Prisoner—No, sir. Alderman—How do you gain a livelihood? Alderman—How do you gain a "veinfoot Prisoner—I draw a pension in Walnut street.

Alderman—Where do you live?

Prisoner—Just you let me send for Sam Birch or my father, and then you will see that the statements of these men are not correct.

Alderman—You will stand committed for

The prisoner was then taken down stairs by

SHOCKING MURDER IN TENNESSEE.

A Negro Butchers His Wife and Child.

The Nashville Union says: A foul and atrocious murder was committed by a negro fiend on Thursday night last, about twelve o'clock, on the farm of Egbert Wright, six miles south of Columbia. Daniel Kannon, a negro man, killed his wife and child with an axe, striking the wife on the back of the head with the back of the axe, crushing her skull to pieces. The black monster then struck his child under the ear, breaking its neck. The negro and his family lived some distance from any other house. After committing the murder, he went to Mr. Wright's, and told an old negro what he had done, and that he was then going to lang himself in a thicket near by. The alarm was at once given, and, on going to the nearly was better to be bediened. was at once given, and, on going to the ne-gro's house, the bodies of his wife and child were found dead and weltering in their blood. But Dan did not hang himself in the thicket, as he said he would do, and up to this time nothing has been heard of him, although both white and colored had scoured the country in search of him. The negro Kannor again. white and colored had scoured the country in search of him. The negro, Kannon, some time since, killed one of his children, and was confined in jail for the deed, but his wife got him released by testifying that he was innocent. The woman was in a delicate situation, being enciente at the time of her murder. It is to be hoped that the villain will be caught and brought to justice.

PROF. CHANDLER, of New York, in a lecture delivered at Cooper Institute, March 19th, said:

"It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of unsafe kerosene; you have only to read the newspapers from day to day to see them. It is stated by some that these accidents never occur; and that you and I never had a friend burned to death; still we do have an enormous number of terrible accidents from petroleum. In the last seven months of 1869 there were fifty-five kerosene accidents in Now York, resulting in twenty-three deaths, eighteen serious injuries and fourteen slight ones. The total result for the year 1869, for the city of New York, which I myself have out from newspapers, is fifty-two fatal accidents from dangerous kerosene, fifty severe and six slight; in all, 198 persons, to my knowledge, from my own reading, have been injured by kerosene in one year."
