The greater part of the road is already completed, and the earnings from the finished portion are already more than sufficient to pay operating expenses and interest on the bonds. The balance of the work is progressing rapidly, in time for the movement of the coming grain crops, which, it is estimated, will double the present in-come of the road. crops, which, it is estimated, will double the present aucome of the road.

The established character of this line, running as it does through the heart of the most thickly settled and richest portion of the great State of Iowa, together with its present advanced condition and large earnings, warrant us in unlesstatingly recommending these bonds to investors as, in every respect, an undoubted security.

These bonds have 50 years to run, are convertible at the option of the holder into the stock of the Company at war, and the payment of the principal is provided for a war, and the payment of the principal is provided for the option of the holder into the stock of the Company at par, and the payment of the principal is provided for by a sinking fund. The convertibility privilege at tached to these bonds cannot fail to cause them at ndistant duy to command a market price considerably above par, besides paying about 9 per, cent, currency interest in the meanwhile. United States Five-twenties at present prices, only return 5 per cent., and we regard the security equally safe.
