THE EFFECT OF RUM.—Frances Myors, aged 90 years, residing at the corner of Mascher and Thompson streets, was last night, between eight and nine o'clock, run over by a butcher's wagon, at the corner of Howard and Thompson and didd in board.

cight and nine o'clock, run over by a butcher's wagon, at the corner of Howard and Thompson, and died in about twenty minutes afterwards. Deputy Coroner Sees this morning held an inquest in the case, when the following facts were adduced:

Loseph A. Burley, sworn—I am a son-in law of decased; she went our about fifteen minutes past cight o'clock last evening; she was going to a house a quarter of a square a way; she had been gone four or five minutes when word came to me that she was in the drug store, having been run over.

George Kauffman, aged 10 years, sworn:—I reside on Howard street, below Thompson; I saw the rear wheel of the wagon go over the lady; she was cr. ssing the street; the driver stopped as soon as she was run over; there were two men in the wagon; it was going very fast. Honry Davison, aged 17 years, residing 1221 Howard street, corroborated the testimony of the former witness, and stated that the driver was very much intoxicated, and not fit to drive a wagon. A number of witnesses were examined, their testimony being corroborative of the above. They stated that the lady was on the crossing, and the wagon driven at a high rate of speed.

Lacob Auffreght, residing at the corner of Hope and Thompson streets, sworn—I was in the wagon; it was between eight and nine o'clock; I saw the woman as the wagon turned the corner and struck her; she was on the crossing; the wagon was not soing very fast; it was a covered wagon; the lamps were not lit.

Officer Burns testified to arresting the driver, named Adolph Fisher, and taking him to the house, where they waited until the woman died; the prisoner was "making game" of her as she was dying; he was ory drunk, and not fit to drive a wagon, and fought at the station-house when searched.

Mary Hurley, a daughter of deceased, testified that after her mother was dead, the prisoner said, in German—"When I am in my wagon I can't be bothered looking around for people; old people have no business out at that time of night."

The verdict of the jury was: "That the

THE DETECTIVE DEPARTMENT.—It is announced that the Mayor will not appoint any successor to Mr. John Kelly, Chief of Detectives, who has resigned, and that the office is hereafter to be managed by Chief Mulholland as part of the police department. Mr. Kelly, it is stated, resigned in consequence of the newspaper attacks which have been made upon the department in connection with the Landman bogus bail business. He declares that he did more than his actual duty required, to prevent the escape of Landman or Lyons. to prevent the escape of Landman or Lyons, and the assaults upon him have been very un-

and the assaults upon him have been very unjust.

Mr. Kelly has endeavored to do his duty faithfully since his appointment, but under the peculiar system of transacting business in the Detective Department which has prevailed for years past, the suspicions of the public will be aroused. The Detective Department must either be abolished, or reorganized on an entirely different plan. Whether Chief Mulholland will be able to make any satisfactory change remains to be seen. He has assumed entire control of the department, and about his first order was that the reporters are not to have any information except what he chooses to give them. what he chooses to give them.

CITY MORTALITY.—The number of inter ments in the city for the week ending at noon to-day was 281, against 271 the same period last year. Of the whole number 132 were adults and 149 children—86 being under one

year of age; 148 were males; 133 females; 80 boys, and 69 girls.

The number of deaths in each Ward was:

Twenty-first.... Twenty-second Twenty-flird... Twenty-flith....

The principal causes of death were: apoplexy, 2; croup, 5; congestion of the lungs, 5; consumption, 34; convulsions, 12; diphtheria, 5; diarrhœa, 9; disease of the consumption,—34; convulsions, 12; dip theria, 5; diarrhea, 9; disease of theart, 16; debility, 15; scarlet fever, 5; the phoid fever, 4; inflammation of the lungs; inflammation of the stomach and bowels, inflammation of the stomach and bowels; marasmus, 24; old age, 9; palsy, 4; relapsing fever. 1; dropsy, 6.

DEATH FROM VIOLENCE.—Henry O'Neill, aged 45 years, residing at No., 1414 Belgrade street, died at the Episcopal Hospital on Thursday night, from the effects of injuries received on Tuesday night. He drove a cart for John Gallagher, who has a stable on Edgmont street, and when he was admitted to the benefit of the property of the pro hospital, it was stated he had been kicked by a horse. His skull was fractured, and he was hadly injured about the body. Deputy Coroner John C. Sees commenced an investigation of the case yesterday. Nobody about the stables seemed to know anything about the kicking. By inquiries about the house of the deceased, and in the neighborhood, it was ascertained that O'Neill had fallen against a stove, and there were also rumors that he had been quarreling with his wife during the greater part of the evening. Dr. E. B. Shapleigh, the Coroner's surgeon, made a post mortem examination of the body, and found that death resulted from violence, but whether from the kick of a horse or by falling, it is difficult to determine. The inquest in the case will be held at 3 o'clock this afternoon.

RUNAWAY AND ACCIDENT .- Mr. J. J. Williams, Jr., in company with his wife and two sisters, was returning home from Poin Breeze Park yesterday afternoon, when his horses took fright on Twelfth street, below Lombard, and ran on the sidewalk. The in mates of the carriage were thrown out. Mu Williams and one of his sisters were severely injured. One of the horses ran against a tree and was so badly hurt that it dropped dead after running about two squares. The horse was valued at \$500.

STERN NECESSITY.—Some people ask after each extension of our business—"will Warn-maker & Brown never be satisfied?" We are satisfied now and always have been, for our satisfied now and always have been, for our efforts have been appreciated and abundantly rewarded, and so far as our being forever en larging our buildings, that is done solely because we are driven to it by the ever increaing multitudes thronging Oak Hall. What would you have us do? Turn the customer.

Choice Confections for Presents.—The choice Confections manufactured by Stephen F. Whitman, S. W. corner of Twelfth and Market streets, are peculiarly adapted to all occasions. They are the most acceptable and appropriate presents which can be selected, and never fail to confer pleasure and gratification upon those who receive them.

SAFE SAVED .- The safe belonging to Laffin Butler & Co., was exhumed last evening. It was found to be as good as new, and all the valuable papers belonging to the firm were in perfect condition. It is of the Herring make, and, although exposed to an intense heat for lifty hours, it came out unscathed and without the contents. the slightest injury being done to the contents

### CITY NOTICES.

THE MARCH OF INVENTION AND IMPROVE-MENT.-Wendell Phillips, in his lecture on the " Lost Arts," mentions many contrivances well known to the ancients, which, in a modified form, have been reconstructed by modern mechanism, and are supposed to be novel manifestations of the genius of the nineteentl gentury. Yot in the long list of lost arts regained there is no allusion to the stove; for we read that when David was old and sticken in years they resorted to a very different mode of flesh warming—a mode more or less practiced by the ancleuts down to the sixteenth century, when warming pans came into use and finally stores superseded both. But the primitive construction of stores was crude and unsightly compared with the stoves of the present day, and especially when compared with those invented and manufactured by Messrs. James Spear & Oo. of this city. This firm, for the last ten years, has led the advance in bringing improvements in stoves to the highest possible perfec-tion. Any one doubting this fact can be assured of it by calling at their warerooms, Nos. 1116 and 1118 Market street, and examining their Revolving Light Fire place Henter, for heating two or more rooms; their Revolving Light Parlor Stove; their Revolving Hot Air Stove. Portable Heater,
This Heater, for economy of fuel, freedom from dust,

and the ready and easy method of Jemoving the ashes and clinker from the fire-chamber, has no equal in America or Europe. When the fire is once started in this Heater it can be kept going an entire winter with-out making it up fresh, as the ashes and clinkers can be removed by an ingenious patent arrangement withou letting the fire out. The construction of the grate and fire-pot is entirely new, nothing of the kind having here tofore been invented. The Patent Office at Washington has been thoroughly searched, and no invention bearing any resemblance to it can be found; consequently the Messrs. Spear may reasonably claim "something new under the sun." We predict that this Heater will soon become the most popular Heater in the world. Persons about purchasing new heaters, or having

their old ones repaired, would do well to examine this heater before making any change- and as the season of the year is at hand when people begin to think of fires, we would suggest to them not to leave it until too late. When cool weather sets in the stove-men become over whelmed with orders, and the work cannot be done well. Those of our readers in the country who think o purchasing new stoves, we would advise to go and ex-amine those manufactured by our enterprising towns-men, Messrs. James Spear & Co.

THE \$15 FALL AND WINTER SUITS, which are so popular at this time and so beautifully cut, made med, and in such vast varieties that you have only to look apon them and they will speak to you-not in an audible voice, but by a power more potent than words-they will speak to your understanding, to your pecuniary interests, to your personal appearance, even to physical powers, for they adorn you with a full chest, and broad and square shoulders. There is nothing to compete with the \$15 suits sold at the Great Brown Stone Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street.

THEY OUGHT TO BE HUNG. A wag seeing a door nearly off its hinges, in which condition it had been for some time, observed that when it had fallen and killed some one, it would probably be

bung. Doors are very necessary things in cold weather and so is coal, but then the coal should be of the best quality, such, for instance, as that of Messrs. MITCHELL & WROTH, the well-known dealers, at the northeast cor-ner of Ninth and Girard avenue. Their old original Beaver Meadow Lehigh may well challenge competition as it is decidedly the best in the market.

AMERICAN ENTERPRISE IN THE EAST.—We were recently shown a letter from a traveler in the Holy Land to friends in America, from which we make the following extract, thinking it may not prove uninteresting to our readers. He says:

"We met 'with cases of Pratt's Oil, not only in the bazaars in Jerusalem, and in Damascus and Alexandria, but in nearly every mountain village of the Lebanon range; and we wore told that we should find it burning beneath the tents of the Arabs, in the plain which stretches away towards the valley of the Euphrates. We were told that two pligrins took as an offering to Mecca, two cases of this oil, and a German Student Lamp, which so pleased the custodians of the shrine that the Hadjees were, on their return, entrusted with an order for a further supply, and now we believe that Mahomet's tomb is seen and kissed by the light of Pratt's New York Oil." Pratt's New York Öil."

We are ourselves using Pratt's Astral Oil, and, from actual trial, can recommend it to our readers as the best we ever used. More than all, it is perfectly safs.

THE LATEST FASHIONABLE BEVERAGE .- A THE LATEST FASHIONABLE BEVERAGE.—A furnishing store in this city advertises a new style of cravat as "the latest fashion for the throat." This may be the latest style for the outside of that organ, but a fashion for the inside has just come up which is twice as popular. Somebody has found out that Schiedam Schnapps improve soda water, and everybody acquiesces in the arrangement. Although somewhat conservative by nature, we are not opposed to progress, and conceiving it our solemn duty, as a public journalist, to ascertain whether Schnapps Soda Water was a proper thing to recommend to our subscribers, we tried it. The result may be stated in a few words. The mixture is good to take, and if our stomach is like stomachs in general, it is congenial to that part of the human organization. Finally, and to conclude, "it touches the right spot,"—Sunday Courier.

CHILDREN OFTEN NEED a good, safe tonic CHILDREN OFTEN NEED a good, safe tonic, which, without possessing the qualities of an unhealthy stimulant, will yet serve to give tone to the stomach and strengthen the organs jof digestion, and by infusing naturally new vigor into the system, overcome any apparent feebleness and want of vitality. "The Turnpike road to people's hearts I find Lies through their mouths, or I mistake mankind."

The epicurean tastes of the present generation lead us to attach a deal of importance to the above couplet. Who is there that does not delight in a good disner, with its savory soups, choice roast and broils, vegetables ad libitum, unline enclable pastry and puddings, the whole washed down with glorious old ale, such as Bonliace, the worthy host in the play, might be proud to serve? Unquestionably, there is truth in the axiom that "a good dinner makes a good man." This being the case, a duty devolves upon us, as journalists, to apprise currenders, at least such of them as have not made the discovery, that Messas, Christophera & May, the well-known restainateurs at No. Is South Fourth street, have attained the highest celebrity in gastronomic science. Their aim is to afford merchants, and others, who from the exigencies of business are unable to dine at home, an opportunity of enjoying a good, substantial, or even a luxurious repast, at a moment's notice.
