LOCAL DEPARTMENT.

OUR TERMS

Are One Dollar a Year in Advance! Persons who receive a paper with this article marked, may know that they should mail or oth-erwise send the subscription price, if they wish to continue to receive *The Times*.

CORRESPONDENTS will please bear in mind that letters received later than Saturday evening, or the down mail on Monday morning have to lay over until the following week.

A Good thing Well Said .- A subscriber to an Episcopal paper, in sending his advance subscription money, writes to the editor-"I wish to pay for my paper in advance, for I never like to read the editor's paper so well as I do my own."

A Curiosity .- A snake with two heads and four eyes was recently captured in Rye township, this county, by David Powers. Both heads are perfectly formed, and are moved at pleasure. It is still alive, and can be seen at his residence.

Accident at Liverpool .- On Monday of last week, a party of men were out hunting, opposite Liverpool, when a a young man by the name of Mock, from Millersburg, made a misstep and fell. In falling the gun was discharged, and the contents entered his head, causing instant death .-He was buried on the 6th inst., at Millers-

Quick Work .- The engine which runs our power press was taken from the wagon at 3 p. m., and was up, running 1000 papers per hour the next day at 10 a.m. We think that is pretty quick work. The crowds that flocked into our office to see the engine and press in operation, showed that, to very many, printing by steam was a curiosity.

A Long Fast .- A young named French, of Hagerstown, has tasted for forty days, during which time nothing but water entered his stomach. This he did from a religious monomania, believing it necessary, in order to purify himself. It was thought until the past week that he would recover, but he has finally died. This, we think, is the longest fast on record.

Two men Killed .- An old man named Bokope and his son about sixteen years of age were killed near Anville on the Lebanon Valley R. R., on the 9th inst. They were trying to cross the track with a two horse wagon and were caught by the train. Both horses were also killed. Here is another evidence of the foolishness of attempting to cross the track when the train is near.

Inhuman Parents,-At Marysville, last week, the daughter of a man, whose name we did not learn, found a sum of money which her parents took from her, telling her not to say anything about it, and she should have a nice dress. The money was taken by the father to Harrisburg and expended in a nice suit for himself and some clothing for his wife, bringing his girl a callico dress and a pair of shoes. She was not pleased with her share, and told some of the neighbors where the money came from. Her mother learning this, took the child into a room and whipped her with a raw hide, and the father coming in whipped her again so severely that the next morning the child was a corpse. The parents have been arrested and the affair will be investigated.

A Gross Outrage. On Monday of last week, some villain committed a terrible outrage upon the person of a little girl about ten years of age, who lived in the family of James Cambell, a short distance above this borough.

It seems that the scamp told the child that her mother, who lives several miles distant, was sick and wanted her to come home, and while on the way prevailed upon her to enter the woods in search of herbs, from which to make tea for her mother, and while there, committed the outrage .-The girl succeeded in reaching her home, though badly injured, and has since been in a precarious condition. Suspicion rested upon a fellow who had been around here the day previous, and who was known to be a hard character, but though the officers have made great exertion to arrest him, they have as yet not been able to find him.

We think it the duty of the authorities to offer a reward for his arrest, and had the child been the daughter of some rich per-son, there is no doubt that such action would have been taken ere this.

We trust no exertion will be spared to bring such a villain to punishment.

Supervisors may by reading the following remarks of Judge Pearson, delivered before the Harrisburg court, learn the risk they run in leaving roads in bad condition. The remarks regarding the roads there are applicable to nearly all parts of this country:

"The various township supervisors have been very negligent in following the requirements of the law. Our county roads were acknowledged by all, and returned by the grand jury on several occasions, as extremely bad. The officers selected for the purpose of repairing the township roads have undoubtedly been derilect in their duties. He warned the jury that in every instance in which a team was injured, or life or limb lost, by bad roads or a neglected bridge, the township was responsible for damages, which, in his experience, had at times been so large as to involve the township in debt for years. In every instance the supervisors had it in their power to levy a tax sufficient to keep the highways in repair, and they were responsible for any failures to do so. It was not only necessary to remove boulders large enough to upset a wagon, but the roads and bridges must be kept in such order as not to be the cause of unusual wear and tear to

Our New Power Press, which we run by Steam, and other recent improvements we have added to our office, will enable us to print an almost unlimited number of copies and we therefore ask our subscribers, who we feel sure will be interested in our success to aid us in the further extending of our circulation.

By a little exertion each subscriber could easily send us one new name, and if they would do so it would give us a circulation of between two and three thousand papers each week. How many will try and send us one new subscriber? and if more than one we still will not object.

A Good Chance.-A property consisting of a House, Barn and 8 Acres of Land, situated one-half-a-mile South of Bloomfield, will be exchanged for a Small Store or other business, in any part of the State, or sold Cheap for Cash. Call on or address

J. R. McCLINTOCK, New Bloomfield, Pa.

Trees, Plants, &c.-Nothing so much adds to the value and beauty of a farm or garden as fruits and flowers. Persons wishing to get anything of that kind from a reliable firm, will do well to write to Herendeen & Co., Geneva, N. -Y., for their catalogue, from which they can make selection. Their catalogue of Dutch Flowering Bulbs, for autumn planting, is very large. One will be sent free to any appli-

Fish Enterprise.-The Carlisle Herald says: "We learn that Mr. Chas. Ottinger, of Philadelphia, in connection with a gentleman from Baltimore, have leased of Mr. Abraham Bosler, for ten years, a tract of land comprising about one acre, on either side of the spring, at Bonnie Brook. It is their intention to convert the land into an extensive fish pond, and make it an agreeable place of resort. Several thousand dollars will be expended, and they expect to have it stocked with millions of trout within the next few years, Such an enterprise well deserves the thanks of the commu-

For The Bloomfield Times. Duncannon Improvements.

Perhaps it will be better understood by those who may read this article to say that Dr. Jos. Swarts, Wm. C. King and ex-Sheriff John Sheibley, whom we in a for-mer communication intended to combine in the word gentlemen, which we perhaps did not do, as it read gentleman, bought the Clark farm, laid out lots and sold the number stated, and we might also add that we think they did a very wise and nice thing. 1st, because they help to improve. 2d, because they will clear no less than two thou-

sand dollars a piece in the transaction. The first man to build a house on the new addition was Mr. Wm. Brown, the man who is full of patent-rights, and has excelled in the Window Sash Lock. Next was Mr. Crick, and third was Mr. S. whom we mentioned last week. We simply mentioned the School house now building, will write of it again. Mr. S. S. Auchmuty has a cellar partly dug, and most of his lumber on the ground, will build during the win-ter, and a number still intend to build as

soon as the "needful" is ready. In the Borough limits pavements are being graded and laid with boards and brick, making a very decided improvement. Mr. Thomas Milliken has a cellar nearly dug. Mr. John Bowers has a house staked Mr. Jos. Mayall is rebuilding a house. Mr. Henry Stevenson has commenced a building. Charles Ashton has a fine house under way. Miss Mary Fulton has rebuilt, and improved her residence. And others of whom we will write. MORE AGAIN.

Local Briefs.

A new Odd Fellows' hall will be dedicated at Liverpool, on the 15th inst.

Several Supervisors in this county have been informed against for neglect of the roads.

Mrs. N. T. Kreider, a resident of Mifflintown, recently on a visit to Altoona, fell and broke her arm.

According to the recent census, the population of Carlisle is 6.630, an increase of about 16 per cent in the last ten years. A new bank has been started in Selins-

rove; W. T. Bishop, of Harrisburg, being the cashier. Jacob Ritner, of Rye township, is likely

to lose one of his toes, and perhaps his foot, just from a splinter which run into his toe. One span of the bridge at Port Treverton,

which, is being removed, recently fell, injuring two men. Rye township farmers are determined to

have good barns-several fine ones being put up this summer. Two pheasants were seen in the streets of our borough last Sunday. According to the old adage this is the sign of a very

severe winter. A freight train standing on the siding near Millerstown, was recently ran into, breaking six or seven cars and injuring a man named Lemuel Kenedy.

Hartman's grist mill is being rapidly completed, and when done will be a great accommodation to the people in the lower end of the county.

We heard two men the other day busily engaged in discussing the question: "If you are to have a boil where would you have it?" They decided unanimously to have it on some other fellow.

A boy in attempting to jump on a moving train, near Altoona, had his clothes nearly all torn off, but strange to say, was not injured.

Pigeons must be plenty this year—some having been shot within the borough limits, notwithstanding, there is a law against the discharge of fire arms in this borough. Chicken Cholera is quite prevalent in many parts of this county. Some persons, have lost nearly all their chickens, and even the eggs, they claim, are unfit to eat.

A potato vine about eight feet long was brought to our office last week, by Mr. William Rice, of this borough.

John Rice, of Spring township. recently brought in a raspberry vine which measured reventeen feet in length. That is the longest vine of that kind we ever heard of.

A fellow by the name of Mike McCarty attempted to commit an outrage upon a lit-tle girl of 14 years of age, near Carlisle, week before last, the fiend has been ar-rested and lodged in jail to await trial.

The residence of W. E. C. Cox, Superintendent of the Reading railroad rolling mill, near the works in that city, was entered last week and robbed of about two hundred fifty dollars' worth of silver-plated ware. A quantity of solid silverware was

J. S. Blackwell, President of Ghent College, Ghent, Kentucky, says of "Our F ather's House": I am compelled to admire the clearness of the print, the superior finish of the workmanship expended up it, and I commend it as an excellent addition to the library of any man. I am especially charmed by the author's perspicuity, graced by a fbeauty of diction rarely surpassed. See advertisement in another
