LOCAL DEPARTMENT.

OUR TERMS

Are One Dollar a Year in Advance!

Persons who receive a paper with this article marked, may know that they should mail or otherwise send the subscription price, if they wish to continue to receive *The Times*.

CORRESPONDENTS will please bear in mind that letters received later than Saturday evening, or the down mail on Monday morning have to lay over until the following week.

NOW IS YOUR TIME.

With the commencement of our next volume, we intend making an addition in size that will render the *Times* the largest paper published in the county. We have not yet decided upon the subscription price, but whether that is raised or not, we make the following liberal offer. To all new subscribers who get their names on our subscription list, and all old subscribers who renew their subscription before the change in size is made, we agree to send the *TIMES* ANOTHER YEAR FOR ONE DOLLAR.

In making this offer it may be proper for us to state that we shall continue to publish an *Independent Family Journal*, devoted to the interest of no party or faction. We shall always give a complete record of local and miscellaneous news, and such a variety of other reading matter that the *Times* will be a welcome visitor in every family. No name will be placed in our list except the subscription is prepaid.

Fashions for the Hair.—Chignons are rapidly going out of style, but those recently employed in their manufacture, are now engaged in making braids which are worn, "pig tail fashion" like the Chinese, or they are looped up according to the taste of the wearer.

Sold Out.—The *Daily Topic* has been purchased by the Harrisburg publishing association. It will be no longer published but will be succeeded by the 'Pennsylvanian,' a Republican paper which is to be issued in about a month.

Our Thanks.—Quite a number of our exchanges have "noticed" the recent improvements in the *Times* Office, and extended us their congratulations. We return them our thanks and hope that ere long increase of business may compel each of them to double their present facilities for printing.

Accidental Shooting.—A child of Mr. R. N. Willis, of this borough, a boy of three years of age, was injured on Friday last by the accidental discharge of a shotgun; the charge passing through the outside of the thigh, making a painful though not a dangerous wound. The gun was in the hands of his brother, a boy about nine years old, who had in the absence of all older persons, taken it from the store-house where it had been laid, loaded for the purpose of shooting chickens. When discharged, the muzzle was so close to the injured child that the charge passed through the flesh without scattering, so that no stray shot entered his body.

York Rolling Mill.—The fires in the furnaces of the rolling mill are now melting the magnetic ore from the iron mines of York county, and the ponderous steam-hammer is shaping the rude masses of heated metal into a form ready to be manufactured into steel rails. A number of men possessed of superior muscular power may be seen taking the ore through the different process of manufacture and the sight is one of great interest. Additional machinery is still being put up, and it is expected that the manufacture of steel rails will become generally known as one of the institutions of York. As an establishment of this kind is somewhat of a novelty to many persons living in York it is visited daily by numbers of those curious to witness its operations. This however is not a peculiarity of the York people since through the columns of the *New York Tribune* Iron Masters themselves are urged to come and behold the wonders which are here performed.—*York (Pa.) Republican*.

Ann Haskert, residing in Cincinnati, who some time ago was divorced from her husband, made an attempt to poison four of her children, who remained with their father, by putting verdigris in their coffee. The woman was arrested.

Hand bills Circulars and all kinds of Job Work, done promptly, at the *Times* Office.

Elopement.—Theodore P. Bender, a young man, formerly engaged in the liquor business in York, but more recently doing a commission business in Baltimore, in partnership with Nathaniel Foust, of Glen Rock, this county, eloped with the wife of his partner, leaving his wife and child in York. Bender before leaving appropriated all Mr. Foust's funds and borrowed from other parties until it is supposed he had some \$30,000 with him when he took his departure. It is rumored that Bender has secured a divorce from his wife and one also for Mrs. Foust from her husband, through the accommodating laws of Indiana.—*Wrightsville Star*.

Mad Dog Shot.—Yesterday morning a dog, supposed to be mad, was shot in S. Water Street, in this borough, by James Condor, residing in the neighborhood. The dog belonged to Adam Ruhl, and it appears, was unusually savage for several days past. He was allowed, however, to run at large on the street, and on yesterday morning before he was shot, bit three children and two men, one of the latter being an esteemed friend, Mr. Charles Le-fean, who is so well and favorably known in this borough. The other man was a stranger. The children's names are William, and Charles, Ruhl, all sons of Adam Ruhl, the owner of the dog.—*York True Democrat*.

A Fine Point.—Acting commissioner Douglas, of the Internal Revenue Bureau has written a letter deciding that the law forbids dealers in tobacco to sell their customers small quantities of cavendish or plug tobacco, and having received their pay therefor, cut it up with a hand-cutting machine, without paying the tax of thirty-two cents per pound.

The acting Commissioner says every kind of manipulation of tobacco by which the character and condition of the tobacco is changed is a process of manufacture.

Incendiarism.—The Shippensburg *News* says that on Friday morning about four o'clock, a fire was discovered in the basement of the Sherman House in that borough, and but for the fortunate early discovery the consequences would have been terrible, as the building was filled with boarders. A person who could set fire to a building occupied by sleeping persons, ought to receive the prompt attention of a vigilance committee.

The Barn of Thomas Watts in Munroe township, Juniata Co., was destroyed by fire on Wednesday night, Sept 7, with all its contents, about 20 tons of hay and 400 bushels of grain. A calf was also burnt. It was the work of an incendiary. The same night ten dollars were taken from the house. It was insured in the Danville Company, for \$400. We hope the guilty party will be found out, and punished to the full extent of the law.—*Freeburg Courier*.

Fire in Harrisburg.—About two o'clock on yesterday morning a fire broke out in Stone's Hotel at Harrisburg, entirely destroying the building. A large part of the furniture and bedding was saved though considerably damaged by water. A part of this damage was owing to the bursting of the hose, thereby throwing a stream of water onto bedding supposed to have been moved to a safe place.

From all sections, of not only this, but the surrounding counties, come frequent reports of petty robberies. Smoke houses and corn cribs receive the most attention from these covetous rascals. If a few of the fellows were shot it might be a good lesson to the others.

Trees, Plants, &c.—Nothing so much adds to the value and beauty of a farm or garden as fruits and flowers. Persons wishing to get anything of that kind from a reliable firm, will do well to write to Herendeen & Co., Geneva, N. Y., for their catalogue, from which they can make selection. Their catalogue of *Dutch Flowering Bulbs*, for autumn planting, is very large. One will be sent free to any applicant.

A Good Chance.—A property consisting of a House, Barn and 8 Acres of Land, situated one-half-a-mile South of Bloomfield, will be exchanged for a Small Store or other business, in any part of the State, or sold Cheap for Cash. Call on or address J. R. MCCLINTOCK, New Bloomfield, Pa.

Two or Three Facts.—Wanamaker & Brown have been in business only ten years, but stand now at the head of the clothing trade, having the largest house and largest business in America. They retain all their old customers, and add new ones by the hundreds. Their customers are not all Philadelphians, but come from all over the State, and indeed from all the cities in the Union.

Our readers will draw their own inference from this argument of facts.

Nearly every family who is not already the owner of a Sewing Machine, is thinking about buying one. Before doing so, examine the machine which is for sale by F. Mortimer & Co. It is the best, because the most simple, and easily understood, while it does work in the most substantial manner.
