FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Improvements of Worn-out Lands with Grass and Clover.

A correspondent of the New York Times writes to that paper as follows:

I will tell my experience on a poor farm in Rhode Island of 150 acres, and too poor to keep a yoke of oxen, one cow and one horse in good condition. This farm was worth at that time about \$4,000 or \$5,000. But a new man came along who thought he could raise grass where none grew before. He tried, with perfect success every time; so that in a few years he kept about fifty head of cattle, mostly cows on the place, and sold annually as many tons of hay.

The modes of sowing was thus:

- 1. Plow the land.
2. Harrow.
3. Spread 200 bushels ashes per acre.
4. Harrow.
5. Sow millet and clover.
6. Harrow.
7. Roll.
8. Cut half ton of millet to the acre in six weeks from sowing time, enough to pay expenses first year.

He then had a good stand of clover, which was cut twice the two years. The next year he plowed under the clover, harrowed, applied fifty bushels ashes to the acre, harrowed it in, again sowed millet and clover, harrowed and gave it a good rolling. In six weeks he had a good growth of millet, say two tons per acre, and another good stand of clover.

The next year he cut two crops of clover again. The next year he turned under the clover, applied his barn-yard compost of muck and cow manure which he had been four years preparing, and raised eighty bushels shelled corn per acre, on land that, before he commenced was called barren, and land that the neighbors said, when he was applying the ashes, was not worth, ashes and all, after it was mixed, what the ashes cost.

Now there are a great many inquiries about how to raise clover. This man never failed; he never thought of it, and never dreamed of it, and never knew any failure. He had a system in his head (for he did not get it from books) which he carried out like "clock work," and his farm was beautiful to look at. He said the land was not fit for manure, so he took four years to get it ready.

He thought ashes would produce millet and clover, and the millet would protect the young clover from the scorching sun until it would need no protection.

The harrowing and rolling were indispensable.

He commenced in May, and sowed millet and clover every day as fast as the land was ready, for two or three months, and knew no such word as fail.

Treatment of Heifers.

We neglect our heifers. As well might we neglect our cows, as the treatment of the heifer tells on the cow.

Shelter is one of the first things of importance to a calf. It is not accustomed to storms, and its limbs, which are tender, will suffer if it is not sheltered.

The best feed aside from tender grass, is bran, oat meal and milk. The feed should be regular once or twice a day, and in small quantities, for it will not do to fatten or pamper a calf; this must be avoided.

The first year is the critical time; that passed successfully, there is little difficulty afterwards.—Utica Herald.

To Destroy Bed-bugs.

A lady who has tried it, sends this method of exterminating the repulsive bed-bug: "If any of your readers need a sure remedy for bed-bugs they can have mine, and cleanse their house of this troublesome vermin without expense. They have only to wash with salt water, filling the cracks where they frequent with salt, and you may look in vain for them. Salt seems inimical to bed-bugs, and they will not trail through it. It is preferable to all ointments, and the buyer requires no certificate to its genuineness."

Quince Growing.

An Ohio quince grower has been very successful for two years past with his fruit. His treatment of the tree is very simple. He spades the ground of his orchard, every spring, and scatters a peck of coal ashes around each tree. He finds salt the best manure for the quince, and applies about one quart to the ground under each tree after the soil has been spaded, and another quart when the quinces are about half grown. Last year he sold three hundred bushels of quinces from his orchards of three-fourths of an acre.

Lime.

A writer in the Journal of the Royal Agricultural Society, describing the permanence of the action of lime, says that he knows a piece of ground containing 166 acres, which formerly knew nothing but heath. A good dressing of lime was applied on the surface of the sward which has nearly doubled its value. This was done several years ago, and totally eradicated the heath. The lime to this day appears in full condition, as its effects usually testify, from the richness and sweetness of the herbage, the texture of which has been entirely changed.

NEW YORK CONTINENTAL

Life Insurance Company, OF NEW YORK, STRICTLY MUTUAL!

Assets \$4,000,000!

ISSUES all the new forms of Policies, and presents as favorable terms as any company in the United States.

Thirty days' grace allowed on each payment, and the policy held good during that time. Policies issued by this Company are non-forfeiture.

No extra charges are made for traveling permits. Policy-holders share in the annual profits of the Company, and have a voice in the elections and management of the Company.

No policy or medical fee charged.

DOBBINS'

ELECTRIC SOAP,

The Best in the World!

STRICTLY PURE!

NO SAND! NO ROSIN! NO CLAY!

NO ADULTERATION OF ANY KIND!

Children Can Do The Washing. No Washboard Required. No Boiling Needed.

By the use of the Unexcelled and Unapproachable

Dobbins' Electric Soap,

Clothes, Money, Fuel, Labor, Time and Temper,

ALL ARE SAVED!

Try it once, and use it ever afterward. Every Grocer Sells It. Every Family Uses It.

NO ONE CAN DO WITHOUT IT!

Be sure that the wrapper has on it the cut of Mrs. Foggy and Mr. Enterprise, and that each bar is stamped with the name of the inventor and originator, J. B. DOBBINS, as none other is genuine.

Like everything of great value, it is extensively counterfeited, and the market filled with false and worthless Electric Soaps, not worth house-room, and dear even if given away.

The Finest American Toilet Soap, fully equal to the French made by a French soapmaker in the same manner as the Freuca soaps are made, and sold at one-fourth their price, is

TRIPLE SCENTED

Dobbins' Toilet Soap!

NO TOILET IS COMPLETE WITHOUT IT!

The Best Enollient in the Market!

It is given the preference at every watering place in the country, and is for sale everywhere.

Please Ask For It

Don't be put off with any cheap common soap. Try it, and see how much BETTER it is than we say.

The only Boot Polish that will produce a Brilliant and Lustrous Shine, and, at the same time preserve the Leather, is

Dobbins' Electric Boot Polish,

MAKES OLD BOOTS LOOK LIKE NEW ONES, AND CALF-SKIN LIKE PATENT LEATHER.

It is put up in a Patent box, the greatest novelty of the age. The box alone is worth more to keep than the price of Box and Polish combined.

"KRUGHAT,"

The Genuine Turkish Bath compound, used in all Oriental countries, in the bath, and manufactured by us on a license and royalty, in exact style, odor and quality from the original receipt, as that made in Constantinople, and import duties, premium on gold, etc., saved, thus enabling us to sell it at a very low price. By its use a bath becomes indeed a luxury. Very highly scented, and producing miraculous effects upon the skin. It is really worth a trial.

If you want to enjoy life and drive away dull care, use for your Clothes

DOBBINS'

ELECTRIC SOAP!

Use for your person

DOBBINS'

TRIPLE SCENTED

Toilet Soap!

USE FOR YOUR BOOTS

DOBBINS' ELECTRIC BOOT POLISH.

THE KIDNEYS.

THE Kidneys are two in number, situated at the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior and the Exterior.

The Anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the Exterior. The Exterior is a conductor also, terminating in a single tube, and called the Ureter. The Ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Muscular. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain.—This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.—Pain occurring in the loins are indicative of the above diseases. They occur in persons disposed to acid stomach and chalk concretions.

THE GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys.—These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed and gravel ensues.

DROPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.—Helmhold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, bladder, dropsical swellings, rheumatism and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise by which the watery or calcareous deposits, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1867.

H. T. HELMBOLD, Druggist:

DEAR SIR—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and, some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchii, cubebis, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of more value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

M. McCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

- Hon. WM. BIGLER, ex-Governor, Pennsylvania.
THOS. B. FLORENCE, Philadelphia.
J. C. KNOX, Judge, Philadelphia.
J. S. BLACK, Judge, Philadelphia.
D. R. PORTER, ex-Governor, Pennsylvania.

- ELLIS LEVIS, Judge, Philadelphia.
R. C. GRIER, Judge, United States Court.
G. W. WOODWARD, Judge, Philadelphia.
W. A. PORTER, City Solicitor, Philadelphia.
JOHN BIGLER, ex-Governor, California.
E. BANKS, Auditor General, Washington, D. C. And many others, if necessary.

Sold by druggists and dealers everywhere.—Beware of counterfeits. Ask for Helmhold's. Take no other. PRICE—\$1.25 per bottle, or six bottles for \$6.50. Delivered to any address. Describe symptoms in all communications.

Address, H. T. HELMBOLD, Drug and Chemical Warehouse, 504 Broadway, N. Y.

NONE ARE GENUINE UNLESS DONE up in steel-engraved wrapper, with facsimile of my Chemical Warehouse and signed

H. T. HELMBOLD.
