NOW IS YOUR TIME.

Having made great improvements in our office, adding a Steam Power Press and a good Engine, which will enable us to print a larger paper and with great case and rapidity, we have determined to again add to the size of the paper we use. This change will go into effect with the commencement of our next volume, which begins next week.

The paper will be enlarged, but the price will be unchanged. We shall continue to publish an Independent Family Journal, devoted to the interest of no party or faction. We shall always give a complete record of local and miscellaneous news, and such a variety of other reading matter that the Times will be a welcome visitor in every family. No name will be placed in our list except the subscription is prepaid.

Improvements .- The Perry County Democrat has just placed a new Campbell Press enlarge on the 1st of January. We are glad to see these evidences of prosperity on the part of our neighbor, and it affords us great pleasure to be able so soon to return the congratulations extended to us when we made our improvements a few months

Arm Broken. We are sorry to learn that Hon. C. J. T. McIntire, slipped on the ice on Friday last, and fell in such a manner as to break his arm near the shoulder.

,Dr. Berkley, formerly a resident of this borough, died a few days since quite suddenly, at Altoona. His death is supposed to have resulted from too free use of Morphine. At the time of his death, the Dr. was in poor circumstances," but sufficient means were found among his effects to pay his funeral expenses. His wife, who was telegraphed to, declined to come for his body, as she said she was not able to bear the expenses, and had been divorced from

A Bold Robbery and Attempt at Murder. -Early on Saturday morning the 17th Mr. T. Tunnis, a coal dealer in Harrisburg, was found in his coal shed, in an unconscious condition, and with fearful cuts in different parts of his head. He was taken up and doctors immediately summoned, who pronounced him in a very dangerous condition. But a short time had intervened between his being seen by other parties and his being found in his helpless condition. He has had lucid intervals since his attack, and it is learned from him that he was attacked by two men, but his weakness has not permitted him to give any particulars. He was robbed of a gold watch and about fifty dollars in money. He is yet in a critical condition. The place where the assault was committed is a public one, and the robbery and attempt at murder are regarded as one of the boldest crimes on record .- Telegraph.

The Counterfeit Money Circulars .- The recent arrest of the scamps who flooded the country with circulars offering to furnish counterfeits of U.S. bills, has developed the fact that it was one of the most extensive swindles over attempted. In searching the premises occupied by the rascals, over ten thousand letters were found coming from every section of the U. S .-The N. Y. Sun has been publishing some of the letters found, and among the wouldbe scoundrels desiring to circulate counterfeit money, was one member of Congress. Perry county is also represented among the fools, one of the letters found being from Montgomery's Ferry, Pa. The magnitude of the business done by these fellows may be imagined when we state that theirbooks showed the receipts for a single day to be over \$7,000. They were discharged after a hearing, there being no charge upon which the justice could them, as they had never sent anything in answer to their correspondents except wood or sawdust. Of in the world to make it profitable, and we locate. again warn our readers against remitting any money in answer to these circulars .in its office, and the proprietor proposes to They are sent out over several different names, and they use various styles of circulars, to suit the locality.

A Scoundrel Caged .- The Laneaster Intelligencer says that the barn of Thos. A. Clark Drumore township, was set on fire on Sunday night last and destroyed, together with all its contents, consisting of two mules, one horse, one heifer, the entire crop of grain and hay and many farming implements. It appears that shortly after the fire was discovered, it was ascertained that one of the horses had been stolen and ridden off by the incendiary. Parties at borough. Persons should be careful to keep once started in pursuit and succeed in captheir walks cleaned of the snow and ice turing the thief near the Maryland line. He was taken to Lancaster and after a hearing before the Alderman, was confined in the county jail. When placed in his cell, the keeper noticed the prisoner vigorously chewing something and upon examination, it was found to be almost a yard of safety fuse, which he was endeavoring to swallow to conceal his guilt. A six shooting revolver, five of the chambers loaded, and several boxes of matches were also found on his

> Barn Burned by a "Tramp."-On Sunday morning between 7 and 8 o'clock as the hired girl, living with Samuel Sharp, on the farm of his father, S. W. Sharp, about a mile above Newville, was going to the barn to milk, a man jumped from a door into a barnyard and caught her by the arm when her cries attracted the attention of Mr. S., who came to her assistance, when they noticed that the large and commodious brick barn was on fire. The scoundrel ran off. Soon the flame and smoke were seen by the people of Newville, some of whom went up on horseback, and after having received a description of the man started in pursuit. He was captured in the vicinity of Stoughstown, in the afternoon taken to Newville and had a hearing before a justice of the peace, and lodged in the lock-up until the next morning, when he was taken to the county jail.

> Mr. S., lost 13 head of cattle, 3 horses, 75 bushels of wheat, 300 bushels of oats, hay and farming utensils. Total loss about two thousand dollars, with slight insur-

Escape frem Jail .- Two of the desper adoes confined in our jail-the Wrightsville burgiar and one of the villains who is charged with making the assault upon Jacob Billinger-made their escape from jail, on Friday afternoon last. As Henry Brandt, the turn-key opened the door leading into the corridor of the prison, he was knocked down by the prisoners, when they passed out of the door and ran in the direction of Louck's mill. Albert Keach and Emanuel Bear, teamsters at the almshouse, happening to see them, procured a double barrelled gun and pursued them. They overtook them just as they were about to cross the creek near Louck's mill. They would doubtless have swam the stream, had they not been afraid of receiving the contents of the gun, which had already been drawn up to fire upon them, in case they had not submitted. With the assistance of a number of other persons in Dr. Mitchell. The whole of the services the vicinity, who had gone in pursuit of will be enlivened with excellent singing, by them they were brought back and safely lodged in jail .- York Press.

> Sad Accident. On Monday morning last, Mr. John Harris, a young man about 22 years of age, residing in Beale township met with an accident which resulted in his death. He had been throwing hay from the mow on to the barn floor, and then threw the fork into the pile of hay. In jumping from the mow on the hay he struck the fork handle, which penetrated his person from the effects of which he died on the evening of the same day .- Juniata Sentinel,

> Pretty Good for an Editor .- Oliver Stuck, Esq., of the York Press, recently killed a hog weighing 560 pounds. This rather beats the brag hogs of our farmers.

Carlisle is no longer to be the principal recruiting station for the cavalry service; the war department having decided to make St. Louis head quarters, keeping the barracks at Carlisle only as a sub station. Perhaps the department has good reason for the change, but we fail to see what it can be.

Almost a fire resulted at Turbetts hotel in this borough, on Friday evening last, by one of the girls carrying a hot iron up to her room to warm the bed. The iron being too hot to use at once the girl wrapped it in a paper and laid it on a window, where the paper soon burst into a blaze, the girl meanwhile having left the room. Fortunately the light was seen from the outside and extinguished in time to prevent a seri-
