THE KIDNEYS.

THE Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior and the Exterior.

The Auterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the Exterior. The Exterior is a conductor also, terminating in a single tabe, and called the Ureter. The Ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz.; the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability; others urinate without the ability to retain.—This frequently occurs in children.

Gour, on Rheumatism.—Pain occurring in the lobs are indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

DEAR SIE-I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians, experiencing but little relief.

various medicinal preparations, and been under the treatment of the most eminent Physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchn.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and, some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchn, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confused and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of more value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

M. McCORMICK. Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

THE GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys.—These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed and gravel ensure. gravel ensues.

Duorsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz.: when generally diffused over the body, it is called Amsarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

The Genuine Turkish Bath compound, used in all Oriental countries, in the bath, and manufactured by us on a license and royalty, in exact style, odor and quality from the original receipt, as that nade in Constantinople, and import duries, preimm on gold, etc., saved, thus enabling us to sell it at a very low price. By its use a bath becomes indeed a luxury. Very highly seemed, and producing miraculous effects upon the skin. It is really worth a trial.
