FARM AND HOUSEHOLD ITEMS

We facilitate communications from all persons who are interested in matters properly belonging to this department.

Bone Meal for Poultry.

The following is an extract from the report of the poultry committee of the Bristol (Mass.) county fair:

"Last winter I procured two barrels of bone, intending to use it for Irish potatoes and other garden crops. My wife appropriated some of it for her roses in the garden, by simply strewing it on the surface of the ground around the bushes. The fowls have free access to the garden, and were discovered eating the meal very eagerly. Thinking it might be of service to them, we gave them some for several weeks, and I assure you it was but a short time before the eggs began to come in, in such numbers as we had never known before. If a nest was broken up to prevent a hen from setting, it was but a few days till she was laying again, and thus it has continued to the present time. One hen has taken possession of a barrel that has some bone meal in it, and is laying in the meal. Whether she will lay the barrel full or not, time will show.—My wife thinks that care and bone meal are great institutions for her poultry yard, and very extraordinary in their effect, but as the hen has got an unusual amount of cackling to do, fears it may bring on bronchitis. The manuring of hens to make them lay, we think is original, but we have no idea of taking out a patent for it, and hence leave the discovery open to the use of all who may choose to try it."

To Preserve Eggs.

There are several ways to preserve eggs but they must in all cases be prepared fresh or new laid, otherwise they will not keep, no matter how they are fixed.—The principle of preserving is to keep them fresh, cool, and in the dark.

To preserve with mutton fat, melt the suet, dip them in it twice—do not have the suet too hot—and follow the above directions.

To preserve with mucilage, dissolve the gum arabic in water to an ordinary thin paste, cool them, or dip them in it twice. When dry, which is in a few minutes, lay them away in charcoal dust, or bran, or dry sawdust; put the box in a cool, dry closet or cellar, small end upward.

To preserve with lime, take ten quarts of water, add two pounds of salt and two ounces of saltpetre; boil together for twenty minutes; when nearly cold, add eight ounces of quick lime; let it stand three days, stirring it every day; place the small end downward in layers in a jar; when filled pour in the mixture. They will keep for months. The water should be over them two inches.

Salt for Swine.

Swine are such greedy feeders that not a few farmers pay very little attention to their feeding. The swill-barrel is very little better than a sink, and the poor hogs are expected to eat any thing and every thing which is refused by the other animals, human and brute alike. This short sighted treatment, however, works its own cure, or punishment rather, for swine thus treated make poor pork, and often die before killing time. Others who are particular about feeding their pigs forget to supply them with salt, as they do other animals. They require to be salted, however, just as much as cattle, horses, or sheep, and suffer as much when neglected as any of these animals. If the food be not regularly salted, there should be a trough or box in every sty, in which salt may be deposited regularly for the use of the animals. Salting the food judiciously would be much the best way.

A Secret Told.

The long celebrated "white Diamond Cement" is composed of Russia Isinglass 8 ounces, soft water 1 pint. White Carbonate of Lead 2 ounces, and Absolute Alcohol 5 fluid ounces. This forms the strongest known cement, and is used by jewelers in setting diamonds, which gives it its name. For cementing glass, porcelain, wood, iron, or any other solid material it is very useful, and as it will keep good for years, will save many times its cost in any family. The ingredients for making this useful article may be had at any drug-store.

Boiled gems can be made by taking old fashion, hard wheat meal (or Graham flour) dumplings of a good size, put into boiling soft water and cook from twenty minutes to half an hour. They are delicious, and must be eaten while hot with fruit and molasses, etc. Will bear boiling up again once or twice. They prove very light.

Onions are often injured by keeping them in too warm a place. It is the alternate freezings and thawings that destroy them; and if placed in a position where they will remain frozen all winter, and then thawed out slowly and in a dark place, no considerable injury would result from this apparent harsh treatment.

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA VINEGAR BITTERS

Hundreds of Thousands Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Pure Rum, Whiskey, Proof Spirits and

Refined Lignum doctored, spiced and sweetened to please the taste, called "Tonic," "Restorers," "Brestors," etc., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from all Alcoholic Stimulants. They are the

GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and

Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia, or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Head

ache, Pains in the Shoulders, Coughs, Tightness of the Chest, Bizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Eruptions, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erythema, Itch, Scour, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally "scraped up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAYE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

DOBBINS' ELECTRIC SOAP,

The Best in the World!

STRICTLY PURE!

NO SAND! NO ROSIN! NO CLAY!

NO ADULTERATION OF ANY KIND!

Children Can Do The Washing. No Washboard Required. No Boiling Needed.

By the use of the Unequaled and Unapproachable

Dobbins' Electric Soap,

Clothes, Money, Fuel, Labor, Time

and Temper,

ALL ARE SAVED!

Try it once, and use it ever afterward. Every Grocer Sells It. Every Family Uses It.

NO ONE CAN DO WITHOUT IT!

Be sure that the wrapper has on it the cut of Mrs. Foggy and Mr. Enterprise, and that each bar is stamped with the name of the inventor and originator, J. B. DOBBINS, as none other is genuine.

Like everything of great value, it is extensively counterfeited, and the market filled with false and worthless Electric Soaps, not worth house-room, and dear even if given away.

The Finest American Toilet Soap, fully equal to the French made by a French soapmaker in the same manner as the French soaps are made, and sold at one-fourth their price, is

TRIPLE SCENTED

Dobbins' Toilet Soap!

NO TOILET IS COMPLETE WITHOUT IT!

The Best Emollient in the Market!

It is given the preference at every watering place in the country, and is for sale everywhere.

Please Ask For It

Don't be put off with any cheap common soap. Try it, and see how much BETTER it is than we say.

The only Boot Polish that will produce a Brilliant and Lasting Shine, and, at the same time preserve the Leather, is

Dobbins' Electric Boot Polish,

MAKES OLD BOOTS LOOK LIKE NEW ONES, AND CALF-SKIN LIKE PATENT LEATHER.

It is put up in a Patent box, the greatest novelty of the age. The box alone is worth more to keep than the price of Box and Polish combined.

"KRUGHAT,"

The Genuine TURKISH Bath compound, used in all Oriental countries, in the bath, and manufactured by us on a license and royalty, in exact style, odor and quality from the original receipt, as that made in Constantinople, and import duties, premium on gold, etc., saved, thus enabling us to sell it at a very low price. By its use a bath becomes indeed a luxury. Very highly scented, and producing marvellous effects upon the skin. It is really worth a trial.

If you want to enjoy life and drive away dull care, use for your Clothes

DOBBINS' ELECTRIC SOAP!

THE KIDNEYS.

THE Kidneys are two in number, situated at the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior and the Exterior.

The Anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the Exterior. The Exterior is a conductor also, terminating in a single tube, and called the Ureter. The Ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain.—This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.—Pain occurring in the loins are indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

DEAR SIR—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and, some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubeba, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of more value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

M. McCORMICK.

Should any doubt Mr. McCormick's statement, be refers to the following gentlemen:

THE GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys.—These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed and gravel ensues.

DROPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.—Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, bladder, dropsical swellings, rheumatism and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise by which the watery or calcareous deposits, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1867.
