FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Medicine for Horses.

I see frequent prescriptions for horses, of various doses in larger and smaller quantities. Don't some men injure their horses by giving them too much medicine? I know an owner of many horses, who keeps medicines on hand at all times in large quantities, and frequently doses them, sick or well. Yet his horses are not so well as mine in the long run, and I give no medicines. I bought a fine horse of this man and he assured me that he could not live unless I had him regularly doctored. I did not believe any such nonsense, and I did not give him any. He has food fed him regularly, and grain in moderate quantities; I keep him in a nice, clean stable, never allow him to be driven hard, and never overworked, and he has not been sick for years. The fact is, dosing horses with medicine is only an unsuccessful attempt to reconcile a healthy, sound condition, with hard feeding, hard driving, and abuse generally.

Influence of Cold on Milk Cows.

Cows that are in milk, or have been milked late are peculiarly sensitive to cold; they are frequently injured by being exposed to storms. By getting wet and becoming chilled, pulmonary complaints and other disorders are produced, and thus the farmer has a sick animal on hand, which is a source of trouble, anxiety, and not unfrequently a total loss. Many of the troubles that come upon cows at the period of calving, may be traced to exposure during the winter; and therefore, on this account alone, will it pay the farmer to shelter his stock on the approach of wind or rain.

How to Cook Old Fowls.

For the possible benefit to some other young housekeepers, I wish to tell them how to cook an old chicken. Prepare as for roasting, then boil three hours in a covered pot, with one quart of water, to which add two tablespoonfuls of vinegar; after which put it into a pan in a hot oven for about one hour to brown. The liquor in the pot to be prepared for gravy. Should the water boil away too much, more should be added. The result is, the meat is as tender as a young chicken, and some think richer and better.

Pasturing Swine.

An Ohio hog raiser advocates the system of pasturing hogs on clover during the summer. He presents, as the advantage of this plan, the statement that an acre of ground in clover will pasture five hogs four months, and that it will take the corn from half an acre to feed them the same time. The cultivation of the corn he counts equal to the rest of the other half acre. He further claims that hogs pastured on clover are in far better condition than if fed on corn, as they are better-framed, healthier, and eat better, and also states that the land is enriched by the pasturing.

White Gingerbread.

Sift two pounds of flour into a deep pan, and run into it three-fourths of a pound of butter; then mix in a pound of butter; then mix in a pound of common white sugar, and three tablespoonfuls of ginger. Having beaten four eggs very light, mix them with the other ingredients, and add a small teaspoonful of pearlash melted in a wine glass of sour milk. Stir the whole together hard. Roll into sheets an inch thick, crease, and bake in a moderate oven.

To Stop Bleeding.

It is said that bleeding from wound on man or beast may be stopped by a mixture of wheat flour and common salt, in equal parts, bound on with a cloth. If the bleeding is profuse, use a large quantity, say from one to three pints. It may be left on for hours or even days if necessary. The person who gave us this recipe says: "In this manner I saved the life of a horse which was bleeding from a wounded artery; the bleeding ceased in five minutes after the application."

To Preserve Hams.

After hams have been smoked, take them down and thoroughly rub the flesh part with molasses, then immediately apply ground and powder pepper, by sprinkling on as much as will stick to the molasses, when they must be hung up again to dry. Hams treated in this manner will keep perfectly sweet for two years. This must be done before the fly deposits its eggs, for after that is done nothing will stop their ravages.

A small, clean potato, with the end cut off, is a very convenient medium of applying brickdust to knives, keeping it about the right moisture, while the juice of the potato assists in removing stains from the surface. A better polish can be obtained by this method than by any other we have tried, and with less labor.

A GREAT MEDICAL DISCOVERY Dr. WALKER'S CALIFORNIA VINEGAR BITTERS

Hundreds of Thousands Bear testimony to their Wonderful Curative Effects. WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Pure Rum, Whiskey, Proof Spirit and Refuse Liquors doctor, spiced and sweetened to please the taste, called "Tonic," "Appetizer," "Restorer," etc., but are a true Medicine, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE GIVING PRINCIPLE. A perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

FOR RHEUMATISM and Chronic Rheumatism and Gout, Dyspepsia, or Indigestion, Bilious, Remittent and Intermitting Fevers, Discharges of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Head ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Discharge, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Indigestion of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Itches, Spots, Pimples, Freckles, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Hæmorrhoids, Discharges of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally clogged up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in our languages—English, German, French and Spanish.
