LOCAL DEPARTMENT.

OUR TERMS Are One Dollar a Year in Advance!

CORRESPONDENTS will please bear in mind that letters received later than Saturday evening, or the down mail on Monday morning have to lay over until the following week.

The editor of the Lewistown Democrat seems to think "no person who does not wear fine clothes has any business at the Bingham House," in Philadelphia. He judges from his own reception. W. H. Kuhn, a clerk in a store at State

Line, was killed a few evenings ago by a gun which he had placed to shoot any person who attempted to enter the store, burglariously.

O. M .- We think your complaint regarding the county commissioners is entirely uncalled for, as we think they endeavor to do the best they can with the peoples money. We shall therefore decline to publish your

Correction. — Last week we published a communication regarding the Good Templar Lodge, No. 402, which was by mistake headed New Bloomfield. It should have been New Buffalo. Among the list of officers for that lodge, we omitted to mention the W. V. T., Lizzie A. Tritle.

The Democrat and Register of Mifflintown "Phonix like" has risen from the ashes of the late fire, beautified and improved. With their new type and new power press they present their readers with a paper which compares favorably with any of our ex-

Presbyterian Service will be held on next Sunday evening in the Court House at 7 o'clock. Subject, "Does the Bible teach total abstinence?" Text, Proverbs, 31st chapter, 6th and 7th verses: "Give strong drink unto him that is ready to perish, and wine unto those that be of heavy hearts. Let him drink and forget his poverty, and remember his misery no more."

At the Republican Convention held in this borough, last week, on Monday afternoon, Maj. Geo. A. Shuman, of Landisburg, was elected Representative Delegate. The other candidates were John H. Sheibley and J.

We know of one person who did not seem pleased with the result, but the majority of the Republican voters of the county will be well satisfied with the choice.

Isaac Wright, John D. Cree and John A. Shearer were elected Senatorial Conferees,

Washington's Birth Day,-In this borough the 22d, of Feb., was celebrated with considerable spirit. A joint parade was made by the Odd Fellows, the "Knights of Pythias," and the Senior and Jr. O. U. A. M. The societies made a very good display, and most excellent music was furnished by the Duncannon Band. After a parade through the town the procession passed into the court room, where quite a number of ladies and gentleman were in waiting to hear the of the different societies.

The Jr. O. U. A. M., was represented by Mr. T. P. Clegg. The "Knights of Pythias by Mr. I. G. Black. The O. U. A. M., by Wm. M. Sutch Esq., and the I. O. of O. F. by Prof. W. H. Dill.

Each of these gentlemen in a short address, set forth the merits of their respective orders, and appropriately referred to the "Father of our Country," whose birth-day they were celebrating. The eulogy on Washington, by Professor Dill, was remarkably fine. At the conclusion of the addresses, the members of the societies proceeded to their respective lodge-rooms. The closing event of the day was a supper, which was furnished by the 'Mite Society,' of the Presbyterian Church. The basement of the church edifice was filled with tables and arranged so as to comfortably seat 216 persons. Provisions in abundance for twice that number was set on the tables, which were so arranged, that a most tempting display was made. In every respect the supper was a credit to the ladies who provided it. If the men of that church would show the same liberality and energy that is displayed by the ladies, that society would not be long in raising the funds to complete their new building.

Photographs !- We are, pleased to inform our readers that Mr. Jerome Briner has erected a Photograph Gallery on Carlisle street, in this borough, where he is now prepared to take photographs. Those who desire to have good pictures should call upon him. He claims that he can take photographs which cannot be excelled this side of Philadelphia,

Clothing. — Persons wanting clothing made in a superior manner should leave their orders with F. Mortimer & Co., who having secured the services of a very super-rior workman from New York, are pre-pared to execute orders promptly, and in the best style. They also have the best as-sortment of cassimeres and cloths in the

Who has Lost a Little Girl?-The Fulton (Pa.) "Democrat" asks its exchanges to give publicity to the following :

"Last summer a party of Gypsies, consisting of two women and a girl aged about eleven years, passed through the village of Belmore, Crawford county, going west .-Shortly after passing through the place, a man engaged at hauling logs came across a little girl aged about four years, who had been left in the road about a mile east of the village, on the route the Gypsies had just passed over. The man who was hauling logs picked up the child and took it to his home. The little thing could give no account of itself, nor has ever yet conveyed any idea who its parents are. The gen-eval impression is that the child did not. The fire engine companies had a grand belong to the Gypsies, and that they stole it from some family and becoming tired of it left it in the road as above stated.

There may be somewhere a mourning father and mother whom the publication of this item may lead to the discovery of their ards. lost child.

A Warning. -The danger of calling upon God in a blasphemous manner was illustrated yesterday morning, in a case peculiar in its character, in which divine wrath is plainly discernable. A man residing in this city has long been suspected by his wife as guilty of infidelity to his marriage vows, and cohabiting with another woman. Meanwhile she was neglected by him, and compelled to earn a livelihood by obtaining work away from home. Information reached her of the criminal intimacy, and he was accused of it, when he protested his innocence in most emphatic language, calling upon God to paralyze him if he was guilty. Scarcely half an hour had clapsed when he was deprived of the faculty of speech, and has not since been able to articulate a word. This visitation of God has a peculiar significance, and should prove a warning,-Harrisburg State Journal.

Mr. Editor:—A very sad accident happened here on the 22d. A young man by the name of McClellan, and a very fine young man 22 years of age, he was caught on the cow catcher of an engine and dragged near fifty yards, his feet under and his head and shoulders above, and he calling. His one foot caught in a frog in the track and was pulled under, both legs were mangled and one arm. He lived from evening until 12 o'clock, P.M., when he expired, He was til 12 o'clock, P.M., when he expired. He was sensible to the last.

In the City Hall John B. Gough lectured on 'Peculiar People' and proved himself to a very good lecturer exceeding others who had gone before him; there was about fifteen hundred of an audience according to

parade and a dedication of a new engine house which is large and very beautiful, with illuminated clock on the tower. A Company was here from Lock Haven, also a delegation from Philadelphia.

In the evening many young men in the prime of life exhibited themselves as drunk-

WALTHAM

The extensive use of these watches for the last afteen years by Rallway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength steadiness, durability and accuracy of the Wal-tham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superior-

ity over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement

that a long experience has proved of real practi-cal use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skilful artisans in our works, and long use on the part public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would par-

The invention and use of a centre pinion of peculiar construction, to prevent damage to the train by the breakage of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best, and faultiess.

Fog's patent pinion as being the best, and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best,
are used in all grades of Watchmakers.

All Wattham Watches have dust-proof caps,
protecting the movement from dust, and lessening
the necessity of the frequent cleaning necessary
in other watches.

Our new patent stem-winder, or keyless watch
is already a decided success, and a great improvement on any stem-winding watch in the American
market, and by far the cheapest watch of its quality now offered to the public. To those living in
nortions of the United States where watchmakers
do not abound, watches with the above mentioned
improvements which tend to ensure accuracy,
cleanliness, durability and convenience, must prove
invaluable.
