

The Bloomfield Times.

ADVERTISING RATES: Transient—8 Cents per line for one insertion. 13 " " " two insertions. 15 " " " three insertions.

NEW BLOOMFIELD, PENNA. Tuesday, May 9, 1871.

NOTICE.

Our subscribers will notice their address is now printed on a little ticket, which is pasted on their paper by a machine. One feature of this style of address is that it tells each subscriber the time up to which the subscription is paid.

For instance: "X. Smith, 14 72," means that X. Smith's subscription expires on the 14th day of January 1872 and "L. Jones, 9 71," means that L. Jones should renew his subscription by the 9th of June, 1871, if he wishes to have his paper continued.

The figures constitute a receipt for subscription up to their date, and consequently no other receipts are necessary. Persons wishing the paper continued will confer a favor by notifying us in time to save us the trouble of taking their name from the list and replacing it.

A PROCLAMATION has been issued by the President regarding the enforcement of the act recently passed by Congress, called "an act to enforce the fourteenth amendment to the Constitution of the United States, and for other purposes."

A FAMILY at Albany N. Y., recently moved into a newly built house, and the first night of their occupancy, a coal fire was built in the room in which the man and wife, and one child slept, while a little girl slept in a room adjoining.

A Serious Charge.

In the New Jersey court of Oyer and Terminer last week at New Brunswick, Theodore Willits, the proprietor of the Brooklyn opera house, and Mrs. Anna M. Yates, a lady of wealth and beauty, and high social standing, appeared as prisoners, charged with subornation of murder.

A month later, Baxter says he made the attempt, pouring oil upon the floor of Mr. Whitehead's bed room after the old gentleman had retired. The house was burned, but Mr. Whitehead escaped.

A Man Killed by the Explosion of a Soda Water Fountain.

A dreadful accident occurred at Washington on Saturday, whereby a young man named John E. Yonson, a clerk in the store of Dr. Samuel F. Shreve, was fatally injured, and Dr. Shreve himself very seriously and dangerously hurt.

A stranger went to a church at Middletown, Conn., on a Sunday recently, and sat down in a pew, when, just as he was getting interested in the sermon, a rough-looking, pious church member came in and took him by the collar and threw him into the vestibule.

Great Earthquake in Chili.

On the 25th ult. Chili was visited by the most severe shock of earthquake experienced since 1851. That day being a church holiday, the people were busily engaged in their devotions, when at eleven a. m., without the usual premonitory rumbling, the earthquake burst upon them.

In a moment the streets and public squares were full of people on their knees beseeching for mercy, and not until some time after the departure of the movement was any degree of tranquility restored.

On the same day the phenomenon was repeated three times—the last at five in the afternoon, with greater violence than the others. At this period the terror of the people knew no bounds. Fearful of sleeping in their houses, tents and shelter were improvised on the squares and suburbs, where in some instances the whole population passed the night.

In Santiago several fine buildings were ruined, and the Mapocho river was stayed momentarily. In Valparaiso many edifices were more or less damaged. In the harbor the vessels at anchor were pitched and tossed as though in a violent storm, and several small craft were driven ashore by the force of the shock.

It is an extraordinary fact that nearly all the disasters which have befallen Chili during the past few years have taken place on religious holidays. The great strength of the houses in Santiago, with the heavy and well built walls necessary in that climate, alone have prevented a most terrible catastrophe.

An Exelling Scene.

There was quite a scene in the Mayor's private office, at Pittsburg, on Thursday afternoon, on the occasion of the hearing of a man named George Williams, charged with attempted rape, on oath of John Drew, a tavern keeper in the Diamond.

The assistant district attorney called up the child as the first witness. The little girl, who is just four years old, is very pretty, and as she told her story, enlisted the interest of all present. She stated that the accused, pointing him out, had coaxed her into a privy, and there had taken certain liberties with her person.

The hearing was abruptly brought to a close, and an officer was dispatched for a physician. At an early hour on the morning of the 2d inst., he lay in a very serious condition. The unanimous verdict of those who were present and witnessed the scene was, "served him right."

A Man Killed by the Explosion of a Soda Water Fountain.

A dreadful accident occurred at Washington on Saturday, whereby a young man named John E. Yonson, a clerk in the store of Dr. Samuel F. Shreve, was fatally injured, and Dr. Shreve himself very seriously and dangerously hurt.

This is the substance of Baxter's affidavit. How true it is, cannot at present be known. The prisoners of course deny it. They were held in \$2,000 bail each to answer at the next term of court.

A Curious Case.

On the 1st inst., a curious case was decided by the Supreme court at Chicago. A man was arraigned on several indictments and sentenced on each, the whole term of imprisonment being eight years. The Judge sentenced him on one indictment to one year ending April 10th, then on another indictment to three years commencing April 10th 1871, and so on naming the date when imprisonment should commence.

Aggravating Obstnacy.

A certain person in Wilmington having been annoyed very much by a neighbor's goat finally came to the determination that he would put an end to the nuisance by putting an end to "Billy."

He thereupon ground a glass bottle as fine as possible, put the substance in a quantity of meal and gave it to the animal to eat, which he stowed away without any difficulty, and without the least perceptible sign of inconvenience.

He next procured a quantity of strychnine and mixed it with meal, thinking he had the "dead-lock" on goatie that time sure. "Billy" came, he saw, and he devoured, but instead of keeling over and giving up the ghost, he seemed to relish the "pizen," and looked wistfully at his would-be murderer as if begging for more.

A Terrific Explosion.

About ten o'clock on last Tuesday morning the citizens of Chicago were thrown into consternation by the noise of hundreds of cannons being discharged in their midst. Investigation showed that an explosion had occurred at the Chicago gas and coke company's works on the corner of Hobben and Crosby streets.

A Mormon Elder who was the possessor of three wives recently started for a trip east taking all his "ribs" with him.

The Mormon while on the way held a council and determined to leave their husband and when at the grand junction near Detroit, they told the elder that they had come to that conclusion, and all his threats could not scare them from their determination. He accordingly pursued his journey alone while the three women returned to Detroit to seek employment which will support them until they can get a man apiece.

During the funeral services of John F. Dickinson, a well-known sporting man at Williamsburg N. York, on Sunday, Rev. Mr. Johnson, officiating, alluded in severe terms to the life of the deceased, upon which Dickinson's sister arose and in an excited manner commanded Johnson to stop his remarks, as they were altogether unavailing for and inappropriate.

A dentist is on trial in Lockport on a suit for damages for injuries done a boy ten years old by the use of laughing gas. It is charged that he gave assurances that the gas which was administered in January, 1871, was harmless, and that on the contrary, since that time the boy has suffered from fits, and a kind of dementia, as a direct consequence of its use.

In a New York Methodist church on Sunday, the pastor being unexpectedly absent, a lady who was a prominent member of the church ascended the pulpit and delivered a long and touching discourse, besides conducting the services to a close.

1780 TAKE NOTICE. 1871 Are You Afflicted or Sick? USE FAHRNEY'S BLOOD CLEANSER OR PANACEA!

An Alterative and Cathartic, or Tonic and Purge, for diseases arising from bad blood. This preparation was established in 1870, and has been prepared in liquid form for more than 15 years. In January or February, 1870, another party commenced to prepare a similar article which is inferior to the genuine, and which should not be mistaken for ours.

CARSON'S STELLAR OIL.

This is not the lowest priced, but being much the best is the end by far the cheapest. Do not fail to give it a trial, and you will use no other. THE alarming increase in the number of frightful accidents, resulting in terrible deaths and the destruction of valuable property, caused by the indiscriminate use of oils, known under the name of petroleum, prompts us to call your special attention to an article which will, wherever used, remove the CAUSE of such accidents. - We allude to

Carson's Stellar Oil

FOR ILLUMINATING PURPOSES.

The proprietor of this Oil has for several years felt the necessity of providing for, and presenting to the public, as a substitute for the dangerous compounds which are sent broadcast over the country, an oil that is SAFE and BRILLIANT, and entirely reliable. - After a long series of laborious and costly experiments, he has succeeded in providing, and now offers to the public, such a substitute in "CARSON'S STELLAR OIL." It should be used by every family. - 1ST, Because it is safe beyond a question. The primary purpose in the preparation of STELLAR OIL has been to make it PERFECTLY SAFE, thus insuring the lives and property of those who use it. 2D, Because it is the most BRILLIANT liquid illuminator now known. 3D, Because it is more economical. In the long run, than any of the dangerous oils and fluids now in too common use. 4TH, Because it is intensely BRILLIANT, and therefore economical, giving the greatest possible light at the least expenditure to the consumer. Its present standard of SAFETY AND BRILLIANCY will always be maintained, - for upon this the proprietor depends for sustaining the high reputation the STELLAR OIL now enjoys. To prevent the adulteration of this with the explosive compounds now known under the name of kerosene, &c., &c., it is put up for family use in Five Gallon cans, each can being sealed, and stamped with the trade-mark of the proprietor; it cannot be tampered with between the manufacturer and consumer. None is genuine without the TRADE-MARK. STELLAR OIL is sold only by weight, each can containing five gallons of oil, and a half pound each, thus securing to every purchaser full measure. It is the duty and interest of all dealers and consumers of illuminating oil to use the STELLAR OIL only, because it alone is known to be safe and reliable. All orders should be addressed to

JARDEN & CO.

WHOLESALE AGENTS, 136 South Front Street, Philadelphia. Ladies, Attention! Send TEN CENTS and a STAMP for a valuable secret, which every young lady should know. CHARLES V. ALLBOY, Pittsburgh, Pa. 5 14 131\*
