FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Remedy for Rust in Wheat.

The following, from a distinguished agriculturalist, is taken from a Bremen paper: "For thirty years I have found this method successful in preventing rust in wheat. Some hours, at the longest six or eight, before sowing, prepare a steep of three measures of powdered quick lime and ten measures of cattle urine. Pour two quarts of this on a peck of wheat, stir with a spade until every kernel is covered white with it. By using wheat so prepared, rust of every kind will be avoided. I have often noticed while in the neighboring fields, a greater part of the crop is affected by rust, in mine close by it, not a single affected ear could be found. The same writer says he takes the sheaves and beats off the ripest kernels with a stick, and uses the grains thus obtained for seed.

The Size of Rooms.

The American Builder says: "In determining what shall be the size of rooms in a house, there is one little item which would always be well to consider, relating as it does, both to future convenience and economy. This is to make the surface of the floor contain a certain number of yards. Carpet merchants complain of the trouble caused by the almost universal neglect of this simple precaution, which, in many cases, is only the result of their own carelessness. Even where it is not possible to make a floor to contain even yards, it can be made to have no fractional parts of feet, and yet this is not always done. It is not a matter of the utmost importance, but it is one certainly worthy of consideration in fixing the dimensions of rooms, to make them of a size to secure economy in carpeting.

The Apple as an Article of Diet.

The importance of apples as food has not hitherto been sufficiently estimated or understood. Besides contributing a large portion of sugar, mucilage, and other nutritive compound in the form of food, they contain such a fine combination of vegetable acids, extractive substances, and aromatic principles as to act powerfully in the capacity of refrigerants, tonic, and antiseptics, and when freely used at the season of ripeness, by rural laborers and others, they probably maintain and strengthen the power of productive labor.—Dr. Liebig.

A market gardener of Lake county, Ill., says that he has the most remarkable success in the use of salt on his tomato plants. He applies it at various times during the season, and that in every case its effect is marked in the increased growth of both plant and the fruit. In some cases, he lays the roots of backward plants bare, and sprinkles them with a teaspoonful of ordinary barrel salt, and then covers with soil. Plants treated in this way take an immediate start, and develop fine fruit.

How to Keep Hams Through Summer.

After your hams have taken salt hang them up and smoke well, take them down and dip them into boiling water for a few seconds; that will kill all the eggs of insects, if their should be any of them. Then roll them in ashes while wet, and hang them up again; smoke them more if you choose. This will do also for shoulders and sides. Those who do their bacon in this way will never have any bugs or skippers on their meat.

Salt your rose bushes, and by so doing you will destroy the mischievous slugs that make such havoc with the leaves at flowering time. A handful of salt around each bush will do the business. It will also help about keeping down the weeds. It is also good for plum trees, but it must be applied before vegetation starts or it may prove fatal to the plants.

A Correspondent of Hearth and Home recommends the following simple and as he says, effectual plan of scaring birds from grain or fruit: Suspend a piece of looking-glass by a string, so that it may swing in every direction, which gives the appearance of something coming, and scares off the birds. Not even the most fool hardy of birds will remain in the neighborhood of the scare-crows.

A great cause of unnecessary pain and labor to many horses, is a neglect in keeping the wheels properly greased. Some persons may not be aware that the trifling neglect of a pair of wheels being comparatively dry or well greased, will cause twenty miles to take more out of a horse than forty would in the latter case.

Ribbons Renewed.

Wash in cool suds of soap, and iron when damp. Cover the ribbon with a clean cloth, and pass the iron over that. If you wish to stiffen the ribbon, dip it, while drying, into gum arabic water.

DOBBINS' ELECTRIC SOAP,

The Best in the World!

STRICTLY PURE!

NO SAND! NO ROSIN! NO CLAY!

NO ADULTERATION OF ANY KIND!

Children Can Do The Washing. No Washboard Required. No Boiling Needed.

By the use of the Unequaled and Unapproachable

Dobbins' Electric Soap,

Clothes, Money, Fuel, Labor, Time

and Temper,

ALL ARE SAVED!

Try it once, and use it ever afterward. Every Grocer Sells It. Every Family Uses It.

NO ONE CAN DO WITHOUT IT!

Be sure that the wrapper has on it the cut of Mrs. Foggy and Mr. Enterprise, and that each bar is stamped with the name of the inventor and originator, J. B. DOBBINS, as none other is genuine.

Like everything of great value, it is extensively counterfeited, and the market filled with false and worthless Electric Soaps, not worth house-room, and dear even if given away.

The Finest American Toilet Soap, fully equal to the French made by a French soapmaker in the same manner as the French soaps are made, and sold at one-fourth their price.

TRIPLE SCENTED

Dobbins' Toilet Soap!

NO TOILET IS COMPLETE WITHOUT IT!

The Best Emollient in the Market!

It is given the preference at every watering place in the country, and is for sale everywhere.

Please Ask For It

Don't be put off with any cheap common soap. Try it, and see how much BETTER it is than we say.

The only Boot Polish that will produce a Brilliant and Lasting Shine, and, at the same time preserve the Leather.

Dobbins' Electric Boot Polish,

MAKES OLD BOOTS LOOK LIKE NEW ONES, AND CALF-SKIN LIKE PATENT LEATHER.

It is put up in a Patent Box, the greatest novelty of the age. The box alone is worth more to keep than the price of Box and Polish combined.

The Genuine TURKISH Bath compound, used in all Oriental countries, in the bath, and manufactured by us on a license and royalty, in exact style, odor and quality from the original receipt, as that made in Constantinople, and imported, premium on gold, etc., saved, thus enabling us to sell it at a very low price. By its use a bath becomes indeed a luxury. Very highly scented, and producing marvellous effects upon the skin. It is really worth a trial.

If you want to enjoy life and drive away dull care, use for your Clothes

DOBBINS' ELECTRIC SOAP!

Use for your person

CONSUMPTION. ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE

and availed themselves of his wonderfully efficacious medicines, they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times sustained by living and viable works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfeigned. Its philosophy requires no argument. It is self-assuring, self-evidencing.

The Sea-Weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. While his condition is corrected, "sympathetic" with the stomach. They respond to the morbid action of the liver. Hereupon comes the critical result and the setting in, with all its distressing symptoms of

CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they are "CLEAN AND NON-TOXIC."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are cleared. The liver, like a clock, is wound up. It arouses from its torpority. The stomach acts responsively, and the patient begins to feel that he is getting on his feet.

A SUPPLY OF GOOD BLOOD. The Sea-Weed Tonic, in conjunction with the Pills, purges the system, and restores the blood to its normal condition. Digestion becomes painless, and the cure is complete. There is no more flatulence, no exacerbation of the stomach. An appetite sets in, and the patient begins to feel that he is getting on his feet.

Now comes the greatest Blood Purifier ever yet given by any medical authority to suffering man. Schenck's Pulmonic Syrup commences its work, its functions are to loosen and complete the cure. It cleanses at once upon its work. Nature can not be cheated. It cleanses and loosens the impaired and diseased portions of the lungs. In the form of granules, it prepares them for expectoration, and in a very short time the mucus is expelled. The rotten tissue that it occupied is renovated and made new, and the patient, in all the dignity of resolute vigor, steps forth to enjoy the mansion of womanhood that was

GIVEN UP AN EAGLE. The second medicine that stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it can be prevented. A cure can not be effected. Fresh air and riding out, especially in the section of the country, in the fall and winter season, will do much to restore the system. Those who are badly diseased, and yet, because they are in the country, do not get out, they must walk about the room as much as they can, as if they were well. It will bear, in a good circulation of blood. The lungs must have in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility is to despair of success. The cure is not for all others, is sinful. Dr. Schenck's personal statement is the faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physician thought that he could not save me. I was like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. I would to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I was enabled to get up and walk. I was able to walk every morning for a long time.

"As soon as that began to subside, my cough, fever, pains, and weakness began to subside, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., continue to see patients at their Office, No. 10 North Third Street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer describes the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them. First, create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the patient eat as much as he can eat. Good blood at once follows, the cough lessens, the night-sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Sea-Weed Tonic, \$2.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 50 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of life, or at the close of it, these Bitters have no equal.

They are a Gentle Purgative with a Tonic, possess- ing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Viscera of the Organism.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Pure Rum, Whiskey, Proof Spirits

and Refine Liquors, doctored, spiced and sweetened to please the taste, called "Tonic," "Appetizer," "Invigorator," etc., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Salve Roots and Herbs of California, free from all Alcoholic Stimulants. They are the

GREAT BLOOD PURIFIER and a LIFE GIVING PRINCIPLE, a perfect Laxative and Lymphagogue of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 will be given for any incurable case, provided the bones are not destroyed by mineral salts, or other means, and the vital organs wasted beyond the point of repair.

Eye Inflammation and Chronic Rheumatism and Gout, Dyspepsia, or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are cured by Vilitated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION. Head ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distress, Sour Eructations of the Stomach, Red spots in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Scruptions, Tetter, Salt Rheum, Diathesis, Spots, Eruptions, Boils, Carbuncles, Ring-Worms, Itch, Head, Lice, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will relieve the most incurable or their curative effect.

Consult the Vilitated Blood whenever you find its impurities breaking through the skin in Pimples, Eruptions or Sores; whenever you find it obstructed and sluggish in the veins; whenever it is foul, and your features will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE AND OTHER WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
