#### FARM AND HOUSEHOLD ITEMS

#### Preparing Dried Fruit.

The following directions for selecting curing, packing and shipping fruits for market, will be found useful to all who desire to obtain the best prices :

Dried apples—select sound fruit, not to ripe. Be careful to prepare them clean. Let there be no specks of the skin on any part, and, above all, be sure they are well cured. Dried apples coming to market with specks of skin, or cores and seeds still on, never meet ready sale at market price. "Sliced" apples always pay for the additional trouble, but where this is not done, let the above, as to cleanliness' be observed. This done. and dried of a bright color, they will sell readily for good prices.

Dried cherries, with seeds, in always sell. They should be carefully picked when ripe, thoroughly dried, and kept as clean as possible. "Seedless" cherries belong to the most fancy of domestic dried fruit, and always find a ready market at good prices. They require to be carefully dried without being burned, and packed in their natural state. If and packed in their natural state. If mixed with molasses, or "doctored in any way, it is detected at once, and they have to be sold at very reduced prices.

Dried plums should be handled in the same manner as cherries.

Dried blackberries have recently become quite a staple, and in many sections the best paying crop that grows.—
When ripe they should be nicely dried (not burned) before packing. If packed before thoroughly dried, they breed worms, become mouldly, and lead to general directions on the state of the eral dissatisfaction.

Dried raspberries always bring a better price than blackberries, and should be handled the same way.

#### Useful Recipes.

To Make Flat-Irons Smooth. - Rub them with clean lard, and wipe dry; or, rubbing them with a little beeswax while hot, will have the desired effect.

Rose Oil .- Put any quantity of dried rose leaves into an earthenware pipkin, cover them with olive oil, and keep hot for some hours. The oil will extract both odor and color.

To Whiten Piano Keys. - The Ivory keys to a piano which have become yellow may be made white by washing them with a sponge with diluted sulphurous acid, or a solution of hyposulphate of soda, and expose to the sun.

Stopping Holes in Furniture. - Take good glue and boil with water to a clear thin liquid. Mix with the sawdust of the same wood, or of other wood, of the same color of the furniture to a paste.-While hot, cover the rough wood or holes with this, and when dry, scrape and pol-

To Make Cloth Water-proof.-In a pail of soft water put half a pound of sugar of lead, half a pound of alum; stir this at intervals until it becomes cool; then pour it into another pail and put the garment therein, and let it be in for twenty-four hours, and hang it up to dry without wringing it.

Cleansing Blankets. - Put two large table-spoonfuls of borax and a pint of soap into a tub of cold water. dissolved put in a pair of blankets, and let them remain over night. Next day rub and drain them out, and rinse thoroughly in two waters, and hang them out to dry. Do not wring them.

### To Take Bruises Out of Furniture.

Wet the part with warm water; double a piece of brown paper five or six times, soak it in the warm water, and lay it on the place; apply on that a warm, but not hot flat iron till the moisture is evaporated. If the bruise be not gone, repeat the process. After two or three applications, the dent or bruise will be raised to the surface. If the bruise be small, merely soak it with warm water, and hold a red-hot iron near the surface, keeping the surface continually wetthe bruise will soon disappear.

### Tomatoes and Health.

A correspondent calls our attention to the attack recently made by a well-known writer on the use of Tomatoes as an article of food, and asks our opinion. We answer: The writer gives no facts in support of his opinion. On the contrary, the experience of the public has thoroughly tested and proved their value. Don't eschew tomatoes.

Warm or luke-warm water, as is well known, when taken in considerable quantity is almost certain to produce nausea. Now hot water, that is, as hot as it can be swallowed, produces a directly opposite effect. Burke, who, whenever he found himself indisposed, would drink freely of it in the morning, said it was the finest stimulant and most powerful restorative in the world.

#### CONSUMPTION. ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCE, M. D.

By J. R. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are steeping like dreamless alumber into which, had they calmly adopted.

DR. JOSEP'H H. SCHENCH'S SIMPLE TREATERY.

and availed themselves of his wonderfully efficacions medicines, they would not have fallow. By Schenck, has in his own case proved that when the statement of the statement of the control of the statement there is nothing presumptious. To the fatth of the invalid its made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Pr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assering, self-convincing.

The Sea-wood Toule and Mandrake Pills are the first two weapons with which the claded of the manady is assailed. Two-thirds of the cases of consumption originate in dyspopsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbificaction of the liver. Here thes comes the culminating result, and the setting in, with all its distressing symptoms of

The Mandrake Pills are composed of one of Nathralian in the Police of the Consumption of the Consumpt "LEAVE NO STING BEHIND."

The work of cure is now beginning. The willated and mucous deposits in the towels and in the alimentary canal are elected. The liver, like a clock, is wound up. It srouses from its tornidity. The stomach acts responsively, and the patient begins to feel that he is getting, at het.

The See-west Tonic, in conjunction with the Pills.

The Seawwest Tonic, in conjunction with the Polls, permestes and assimilates with the food. Chylincation is now progressing without its previous tortures. Digestion becomes painies, and the cure is seen to be at hand. There is no more flatulence, no exacerization of the stormeth. An appetite sets in. Now comes the greatest Blood Parilier ever yet given by an indulgant father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to instea and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of paired and diseased portions of the lungs. GIVEN UP AS LONT.

The second thing is, the patients must stay in a warm room until they get well: it is almost impossible to prevent taking cold when the iungs are diseased, but it must be prevented or a cure can not be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are taking the paired of the p
