CONSUMPTION. ITS CURE AND ITS PREVENTIVE.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless slumber late which, had they camply adopted by the sleeping the dreamless of his wonderfully efficient close stocking the sleeping that wherever audicient visuily remains, that vitaily, by his medicines and his directions for their use, in quick cased into healthful vigor.

In this statement there is nothing presumptions. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assiring, self-convincture.

The Sea-west Tour and Mandrake Pills are the first two weapons with which the cliaded of the mislady is assailed. Two-thirds of the case of consumption originate in dyspessia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbite action of the liver. Herothen comes the culminating result, and the setting in, with all its distressing symptoms of

with all its distressing symptoms of

CONSUMPTION

The Mandrake Pills are composed of one of Natures noblest gifts—the Polophillium Peliatum. They possess all the blood-searching, alterative properties of calome, but, unlike calomet, they

"LAVE NO STANG PERILLS"

The work of cure is now beginning. The vitiated and mucous deposits in the browns and in the all-mentary canni are ejected. The fiver, like a clock, is wound up. It strongs from its torpidity. The stemach acts responsively, and the patient begins to feel that he is getting, at loss.

o feel that he is getting, at fast,

A SUPPLY OF GOOD BLOOD.

The Sea-weed Toule, in the control of the control The sea-weed Totel, in conjunction with the Pills, permeates and assimilates with the Foot. Chylinocation is now progressing without its previous tor-lures. Digestion becomes paintess, and the core is seen to be at hand. There is no more flaintence, no exacerbation of the stomach. An appetite sets in. Now comes the greatest Hood Purifier ever yet given by an indulgent father to suffering man. Schemek's Pulmonie Syrup comes into perform in functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheared. It collects and ripem the impaired and diseased purifiers of the integral to the form of culturings, it prepares thom for expectivation, and the rotten is stored in the late minday is vanquished, the rotten of sealing of the integral of the integral of the patient in all the chainly of realiset vigor, steps farth to enjoy the mannood or womanhood that was

The second thing is, the patients must stay in a

The second thing is, the patients must star in a warm room until they get well; it is almost impressible to prevent asking cold when the image are discussed, but it must be prevented or a cure can not be effected. Press air and riding out, especially in this section of the country, in the fall and winfor season, are all wrong. Physician who recommend that course has their patients, if their tunes are badly diseased; and ver, because they must walk about the room as much and use the areas the incussion they must hot sit down quiet; they must walk about the room as much and us fast as the strength will bear, to get up a good circulation of blood. The interest must keep in cood sprints—be determined to get well. This has a great deal to do with the appeals, and is the great point to gain.

To despair of cure after such sylicace of its possibility in the west cases, and norm kerndady in all others, is sinch. By these was a personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of con-

ment to the Farmity of his own cure was in these modest works:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live aweek; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripend the matter in my lungs, and I would spit up more than a plut of offensive years and I would spit up more than a plut of offensive years and I would spit up more than a plut of offensive years, and I would spit up more than a plut of offensive years, and it would spit up more than a plut of offensive years, and it would be not be seen to solve the work of the could be not be a perfectly in the could keep from eating too much the same and the stage of the same and t

difficulty lint I could keep from eating too much. I soon sained my strength, and have grown in fieth ever since.

"I was weighed abortly affermly recovery," added the Dector, "then looking like americk elector my weight was only interpreted promote the processor of the Dector, then looking like americk elector my weight have only interpreted promote my present weight lat two hundred and twenty-five (250) pounds, and far years I have enjoyed uninterrupted health."

Dr. Schenck, has discontinued his professional visits is New Yerk and Boston. He or his won, Dr. J. H. Schenck, Jr., still continue to see patients at their Office, No. 15 North Sixth Street, Philadelphia, every Saturday from 9 A.M. to 2 P.M. Those who wish a thorough examination with the Respirometer will be charged 8. The Respirometer declares the exact condition of the lungs, and patients are adapted to the extense for taking the medicines are adapted to the extense for taking the medicines are adapted to the extense for taking the medicines are adapted to the extense for taking the medicines need no other accompaniments than the ample instructions that accompany them: First create appelie, Of returning itealth, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night-aweat is abated. In a short time both of these morths aymptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a lexative or purgative, the Maddrake Pills are a standard preparation of the Respirity and the services of the Pulmonic Syrup as Comes.

English Roofing Felt

Is found to stand well in all climates, being extensively used for Roofing Houses, Out-Buildings and Sheds; for Laying Fiat Roofs, Gutters, Lining Granaries, Storehouses, or Walls, (either outside or inside), and for placing under Slates or Tiles. It is also a cheap and effective Celling on the undernoath side of rafters of a Slated or Tiled Roof, and as a Ceiling to Iron Roofs, counteracting Heat, Frost, and Condensation of Moisture.

The English Felt is put up in rolls of 25 yards in length, by 32 inches in width, and containing a surface of 200 square fect.

THREE-PLY FELT FOR ROOFING. In Rolls, 26 inches wide, by 50 feet in length; each roll will cover a surface 10 feet square, or

each roll will be 100 square feet. 100 square feet.

It is to be hid across the roof, shingle fashion, with a lap of two inches, and secured by nailing the edges with 3d nails and tin caps.

When laid, the Felt is to be painted with Mastle Roof Coating, and Sanded. The Mastic Roof Coating is mixed, ready for use, and is applied with a brush.

TARRED ROOFING FELT.

Used extensively for Sheathing Houses, and for Tar and Gravel Roofing, also for placing under State, Tin and Shingle Roofing. It is used in packing Woolens and Furs to protect them from moths.

Put up in rolls weighing 45 pounds each.
15 pounds Felt will cover a surface of 100

TWO - PLY FELT.

TWO-PLY FELT,
For Sheathing Houses, Roofing Temporary
Buildings, making Water, Tight Floors, and for
placing under State and Shingles.
In rolls, 26 inches wide by 50 feet in length.
Each roll will cover a surface of 10 feet square
or 100 square feet.
For Sheathing it can be mailed upon the studding, making a perfectly air tight sheathing,
and sure protection from dampness. Rats,
mice, or vermin will not go near it.

MICA CANVAS ROOFING,

In rolls containing 250 square feet. Is to be laid across the roof, and lapped shingle fashion with a lap of two inches, and secured by milling the edges with 20 oz. tacks.

This is the only Composition Roofing that does not require a finishing coat of paint or cancers.

UNTARRED SHEATHING FELT, For Carpet Lining, Deadening Floors, and for putting under Slate, Tin and Shingle Reofing.
Put up in rolls weighing 100 pounds.
10 pounds Felt will cover a surface 10 feet square, or 100 square feet.
