THE AMERICAN WASHER!

PRICE, \$5.50! THE AMERICAN WASHER SAVES MONEY, TIME, AND DRUGGERY.

The Fatigue of Washing Day no Longer Dreading, but Economy, Efficiency, and Clean Clothing, Sure.

In calling public attention to this little machine, a few of the invaluable qualities (not possessed by any other washing machine yet invented,) are here enumerated.

It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours' practice, can thoroughly comprehend and effectually use it.

It is as perfect for washing as a wringer is for wringing. The price, another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA VINEGAR BITTERS

Hundreds of Thousands Dear testimony to their Wonderful Curative Effects. WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Bitters," &c., that load the system with crudities and poisons, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants.

FOR FEMALE COMPLAINTS, whether in young or old, from irregularities of the menstrual course, or a disordered state of the system, these Bitters have no equal.

CONSUMPTION. ITS CURE AND ITS PREVENTIVE.

By J. E. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indubitably proven means of cure.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicine is as simple as it is unfeeling. Its philosophy requires no argument. It is self-evident, self-convincing.

The Sea-wood Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here, then, comes the curative power of the Sea-wood Tonic, with all its distressing symptoms.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they are not poisonous.

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are evacuated, and the liver is cleared and wound up. It resumes from its torpidity. The stomach acts responsively, and the patient begins to feel better.

A SUPPLY OF GOOD BLOOD. The Sea-wood Tonic, in conjunction with the Pills, performs the vital and necessary work of preparing a new supply of blood without its previous tortures. Digestion becomes painless, and the cure is seen in a very short time the malady is vanquished, no exacerbation of the stomach. An appetite is restored, and the patient feels better.

Now comes the greatest Blood Purifier ever yet given to the world. It is the most powerful and most efficacious Blood Purifier that has ever been discovered. It is the most powerful and most efficacious Blood Purifier that has ever been discovered.

It enters at once upon its work. Nature can not be cheated. It will not allow the impure and diseased portions of the blood to remain in the system. It purifies the blood, and the patient feels better.

HUMOROUS.

Turkeys on de Fence. A story is told of Dick, a darkey, in Kentucky, who was a notorious thief, so vicious in this respect that all the thefts in the neighborhood were charged to him.

On one occasion Mr. Jones, a neighbor of Dick's master, called and said that Dick must be sold out of that part of the country, he has stolen all his (Jones') turkeys. Dick's master could not think so. The two, however, went into the field where Dick was at work, and accused him of the theft.

"No, I didn't massa," responded Dick. The master persisted.

"Well," at length said Dick; "I'll tell you, massa; I didn't steal them turkeys, but last night I went across Mr. Jones' pasture, and saw one of your rails on de fence, so I brought home the rail, and confound it, when I come to look, dare was nine turkeys on de rail."

Irish Bulls. It was an Irishman who wanted to find a place where there was no death, that he might end his days there.

It was an Irish editor that exclaimed, when speaking of the wrongs of Ireland, "Her cup of misery has been for ages overflowing, and is not yet full."

It was an Irish newspaper that said of Robbespierre that "he left no children behind him except a brother, who was killed at the same time."

It was an Irish coroner who, when asked how he accounted for an extraordinary mortality in Limerick, replied sadly, "I cannot tell. There are people dying this year that never died before."

It was an Irish handbill that announced with boundless liberality, in reference to a great political demonstration in the rotunda, that "ladies without distinction of sex, would be welcome."

Didn't Understand. While a boy of fourteen was fishing for trout in a deep brook, a stout darkey commenced teasing the lad by throwing mud at him. The boy, although little, was as "smart as a steel trap," and swinging the butt of his fishing-rod around, Cuffee found himself in deep water, struggling, upon which the boy left him and ran home.

His dirty appearance attracted the attention of his mother, who was highly indignant to think her son had been so treated by a black boy, and demanded:

"Did you brook the outrage?" "No, mother," replied the youngster, who didn't exactly understand the word, "but I brooked the darned nigger."

An old lady who was not much accustomed to attend church, finally went one Sunday. During prayer time, while she was on her knees, her old cat which had followed her unnoticed, came purring around her when she broke out, "Why, poosey—what you come ter meetin', to? Hy-ee! I spoke out in meetin'! Why-ee, I spoke again! Why, laddy guddy, I keep a spoken all the time."

This is of a 15th amendment friend: A gentleman traveling homeward from Atlanta, met an old negro on whose hat was encircled the crape of grief. The gentleman said: "You have lost some friend, I see?" Yes, massa.

"Was it a near or distant relative?" "Well, pretty distant, massa—'bout twenty miles."

Two California barbers quarreled and arranged a duel. They were to walk around a block in opposite directions, and each was to fire at sight of his antagonist. They started, and as soon as the block intervened, each took the shortest cut for home, complaining that his adversary didn't come to time.

An Irishman noticing a lady pass down the street, espied two strips depending from under her mantle. Not knowing that these were styled sashes, and were hanging in their right place, he exclaimed, "An' faith, ma'am, yar galluses are loose."

"Do you keep matches?" asked a wag of a country grocer. "O, yes, all kinds," was the reply. "Well, I'll take a trotting match," said the wag. The grocer immediately handed him a box of pills.

"Can you tell me how old the devil is?" asked an irreverent fellow of a clergyman. "My friend you must keep your own family record," was the reply.

Johnson was right
