The Boarding Department is at the institution, under the supervision of William Grier, Esq., by whom good and substantial board will be furnished; and the pupils will be under the strict care of the Principal.

Address—
W. H. DILL, A. M. Principal,
or
WILLIAM GRIER,
411 New Bloomfield, Perry county, Pa.

THE AMERICAN WASHER!
PRICE, \$5.50!

THE AMERICAN WASHER SAVES MONEY, TIME, AND DRUGGERY.
The Fatigue of Washing No Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.
In calling public attention to this little machine, a few of the invaluable qualities, not possessed by any other washing machine yet invented, are here enumerated.
It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours' practice, can thoroughly comprehend and effectively use it. There is no adjusting, no screwing to annoy, no delay in adapting! It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blanket, or three shirts at a time, washing thoroughly! In a word, the abolition of any fabric, from a quilt to a Lace Curtain or Cambric Handkerchief, are equally in the capacity of this LITTLE GEM! It can be fastened to any tub and taken off at will.
No matter how deeply rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleaning efficiency and utility are banished, and the doubter and detractor at once becomes the fast friend of the machine.
We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines, which have signally failed to accomplish the object promised. In prominent and loud sounding advertisements.
It is as perfect for washing as a wringer is for wringing. The price, another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

\$5.50!
All that is asked for this GREAT LABOR SAVER, is a fair trial. We guarantee each machine to do its work perfectly.
SOLE AGENTS FOR THE UNITED STATES,
A. H. FRANCIS & CO.,
53 MARKET ST., PHILADELPHIA, PA.
The largest and cheapest WOODEN WARE HOUSE in the United States—53, 55, 57.

Photographs! Photographs!

A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY?
They are the Great Purifiers of the Blood, the Great Tonic, and the Great Restorer of the System.

THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirit and Refuse Liquors, distilled, spiked and flavored to please the taste, called "Tonic," "Appetizer," "Restorer," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, Free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE GIVING PRINCIPLE in perfect harmony with the laws of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell.
\$100 will be given for a cure of any case, provided the bones are not destroyed by mineral acids or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia, or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Bileases are cured by Vitriolated Blood, which is generally produced by derangement of the Digestive System.
DYSPEPSIA OR INDIGESTION, Head ache, Pain in the Stomach, Bileases, Constipation, the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the Stomach and stimulate the liver and bowels, which render them of unequalled efficiency in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Itch, Scald Head, Ringworm, Boils, Carbuncles, Ringworms, Head-ache, Ears, Erysipelas, Itch, Scurvy, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally cut up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Skin in Pimples, Eruptions, or Itch; cleanse it when you find it clogged and sluggish in the veins; cleanse it when it is full and your feelings will tell you when. It cures the impure and it cleanses the system.
FOR RHEUMATISM, GOUT, &c. Inflammation of the system, of so many kinds, is generally distinctly marked and removed. For this condition, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

The Pennsylvania Cattle Insurance Company.
Capital and Assets, \$150,000.
Incorporated by the Court of Common Pleas of Schuylkill Co., Nov. 27, '69.
Incorporated by Legislature May 10, 1871.

It has now full power to insure Buildings, Merchandise and all kinds of Property against Fire, Storms or Tempests. Also, to insure Horses and Cattle against Death or Theft. The rates on Loan or Preferred Policies are a little higher than any other company doing business in the county; but this class of policy holders can borrow money any time the Company can spare it out of its surplus assets, and the money will be loaned in rotation, so that the first persons procuring loan policies can be the first to borrow money if they need it.
Only SIX PER CENT INTEREST
will be charged for money, and loans will be made at all places that good agencies can be established, so that the Company will be a Home Company wherever it does business.
The Company will also take risks on the common cash and mutual plans as cheap as other reliable companies.
The Directors meet regularly on the second Monday of every month.
JOHN D. HADESTY, President,
JAMES H. GRIER, Secretary.
Office,—308 Centre St., Pottsville, Pa.

CONSUMPTION.
ITS CURE AND ITS PREVENTIVE.
By J. H. SCHENCK, M.D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and judiciously prescribed means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they early adopted the cure, they might have been saved.

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT.
and availed themselves of the wonderfully efficacious medicines, they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.
The faith of the invalid is made no representation that is not a thousand times substantiated by living and visible results.

THE SEA-WEED TONIC AND MANDRAKE PILLS are the first two weapons with which the citadel of the malarial disease is assailed. Two-thirds of the cases of consumption originate in the liver and are functionally disordered liver. With this condition the bronchial tubes sympathize with the stomach. They respond to the morbid action of the liver. For men comes the consumptive result, and the setting in, with all its distressing symptoms.

THE MANDRAKE PILLS are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the beneficial and active properties of calomel, but, unlike calomel, they are not a poison, and do not produce any of the deleterious effects of that drug. The liver, like a clock, when fresh air and food are especially in the stomach acts respectively, and the patient begins to feel that he is getting, at last, relief.

THE SECOND THING the patients must stay in a warm room until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure can not be effected. Fresh air and riding out, especially in the sections of the country, in the fall and winter season, are all wrong. Physicians who recommend the patient to fresh air and riding out, especially in the sections of the country, in the fall and winter season, are all wrong. Physicians who recommend the patient to fresh air and riding out, especially in the sections of the country, in the fall and winter season, are all wrong.

NEW YORK CONTINENTAL
Life Insurance Company, OF NEW YORK. STRICTLY MUTUAL! Assets, \$4,500,000!

English Roofing Felt
Is found to stand well in all climates, being extensively used for Roofing Houses, Out-Buildings and Sheds; for Laying Flat Roofs, Gutters, Lining Granaries, Storehouses, or Walls, (either outside or inside), and for placing under Iron Roofs, counteracting Heat, Frost, and Condensation of Moisture.
The English Felt is put up in rolls of 25 yards in length, by 33 inches in width, and containing a surface of 200 square feet.

THREE-PLY FELT FOR ROOFING.
In Rolls, 26 inches wide, by 50 feet in length; each roll will cover a surface 10 feet square, or 100 square feet.
It is to be laid across the roof, shingle fashion, with a lap of two inches, and secured by nailing the edges with 3d nails and the caps.
When laid, the Felt is to be painted with Mastic Roof Coating, and Sanded. The Mastic Roof Coating is mixed, ready for use, and is applied with a brush.

TARRED ROOFING FELT.
Used extensively for Sheathing Houses, and for Tar and Gravel Roofing, also for placing under Slate, Tin and Shingle Roofing.
It is used in packing Woolens and Furs to protect them from moths.
Put up in rolls weighing 45 pounds each.
15 pounds Felt will cover a surface of 100 square feet.

MICA CANVAS ROOFING.
In rolls containing 250 square feet. Is to be laid across the roof, and lapped shingle fashion with a lap of two inches, and secured by nailing the edges with 30 oz. tacks.
This is the only Composition Roofing that does not require a finishing coat of paint or cement.
UNTARRED SHEATHING FELT,
For Carpet Lining, Deadening Floors, and for putting under Slate, Tin and Shingle Roofing.
Put up in rolls weighing 100 pounds.
10 pounds Felt will cover a surface 10 feet square, or 100 square feet.
MANUFACTURED BY THE
PENN ROOFING CO.,
103 South 2nd Street, PHILADELPHIA, PA.

LEWIS POTTER,
Attorney for Claimants,
NEW BLOOMFIELD, PA.

Humorous
A Patent Medicine.

We had a lieutenant in our company by the name of P—. He was a genial, noisy fellow, but he was not much in the way of reliability. In fact it might have been said with great truth, that he did no duty at all, if we except the drawing of his pay with strict punctuality.—Whenever a movement was to be made, P— moved himself upon the "sick report."
One day it was rumored that the regiment would march to the front the next morning. P— as usual appeared at the surgeon's tent.
"Oh! doctor," said he, "I feel very sick."
"What's the matter?" asked the surgeon with a sly leer at those present.
"Oh! great pains in my bowels," replied P—, "and a giddiness in my head."
"All right," said the surgeon, "I'll put you on the sick report, and send you some pills. Take them all at once."
P— went to his tent and commenced to smoke his pipe. By-and-by some brother-officers came in, and after awhile the hospital steward came over with a box containing three large pills, which the surgeon had manufactured out of gunpowder.
"Better put them in your pipe and smoke them," said Captain H—, "hang me if I'd take them."
P— hesitated for a moment and then said, "it would be a good joke; I believe I'll take your advice."
Picking up the pills he dropped them all into the bowl of his pipe. The next instant an explosion took place that shattered the pipe into a hundred fragments, and sent P—'s friends flying out of his tent.
The next day he met the surgeon and accosted him thus:
"I say, doctor, what effect did you intend those pills to have on me?"
"To clear you out!" growled the surgeon.
"Faith," replied P—, "they were very efficacious, for if they didn't exactly clear me out, they did a half dozen of my victors."
Uncle Peter, who flourishes in the mountains of Vermont as a horse-dealer, was called upon the other day by an amateur of "equine" who was in search of something fast. The result is told as follows:
"There," said Uncle Peter, pointing to an animal in the meadow below the house; "there, sir, is a mare who would trot her mile in two minutes and seventeen seconds were it not for one thing."
"Indeed!" cried the companion.
"Yes," continued Uncle Peter, "she is four years old this spring; is in good condition; looks well; is a first-rate mare; and she could go a mile in two seventeen were it not for one thing."
"Well, what is that?"
"That mare," resumed the jockey, "is in every way a good piece of property. She has a heavy mane, a switch tail, trots fair, and yet there is one thing only why she can't go a mile in two-seventeen."
"What in the Old Harry is it then?" cried the amateur, impatiently.
"The distance is too great for the time!" was the old wag's reply.
"Caesar," said a negro to a colored friend of his, "what do you tink is de most useful ob de comets—de sun or de moon?"
"Well, Clem, I don't know dat I should be able to answer dat question, seein' as how I neber had much book-learnin'."
"Well, Caesar, I spec' de moon orter take de first rank in dat partikular."
"Why so, nigger?"
"Because de moon shine in de night when we need de light, and de sun shine in daytime when de light am ob no consequence."
"Well, Clem, you is de most larned darkey I eber seed. I guess you used to sweep out a school-house for a libbin'."
A Yankee in Texas, who sat listening to the stories of a Louisianian, in regard to the marvelous growth of sugar-cane on his plantation, near New Orleans, finally said:
"That ain't nothing. I've seen cane in old New England more'n a mile long!"
"What kind of cane was it?" was the general inquiry,
"A hurricane!"
Aunt Rosy was dividing a mince pie among the boys, and when Jim, who had wickedly pulled the cat's tail, asked for his share, the dame replied:
"No, Jim, you are a wicked boy, and the Bible says there is no peace for the wicked."
When you want to get rid of the rheumatism persuade a wild steer to chase you. A Savannah man who gave it a fair trial and had a hot race of forty rods to a tree and up it, certifies that he has not had a rheumatic twingo since.
A new stove has been invented for the comfort of travellers. It is to be put under the feet with a mustard plaster on the head, which draws the heat through the whole system.
In Japan a paper coat costs ten cents; and a complete suit only a quarter of a dollar. What a paradise for an editor.

TWO-PLY FELT,
For Sheathing Houses, Roofing Temporary Buildings, making Water, Tight Floors, and for placing under Slate and Shingles.
In rolls, 26 inches wide by 50 feet in length. Each roll will cover a surface of 10 feet square or 100 square feet.
For Sheathing it can be nailed upon the stud-ding, making a perfectly air tight sheathing, and sure protection from dampness. Rats, mice, or vermin will not go near it.
