NEW BLOOMFIELD, PENN'A.

Tuesday, October 31, 1871.

GOVENOR GEARY has appointed Thursday, the 28d of November, as a day of prayer and thanksgiving in this State.

THE official majority of Stanton for Auditor General is 14,490, and of Surveyor General 20,370. The temperance vote of the State for Auditor General was 3,175,-The vote for convention 332,231; against convention 73,073.

On the night of the 14th inst., the steamer "Colburn" en route from Duluth to Buffalo, was wrecked on Lake Superior, and about fifty persons were lost. The steamer also had a valuable cargo of wheat, flour, and silver ore.

THE New Yorkers are making fools of themselves over the arrival of the Russian Prince Alexis. Various committees were appointed to tend to his wants, and ten thousand militia were drawn up in line to receive him. A palace has been fitted up for the especial occupancy of the Grand Duke and his suit. A ball is to be given in his honor, and two thousand tickets have been sold at \$10 each, while the private boxes of the Academy of Music, where the ball is to be held, are rented at fabulous prices. In fact no pains have been spared by the New Yorkers to show their dislike to Republican simplicity and their toadyism to Royalty.

Pardons.

The "peculiarities" so frequently exhibited in the exercise of the pardoning power, lead many persons to believe that justice is not the blind goddess that she is usually represented to be. Another instance of the peculiar manner in which this power is used-or rather abused-is well set forth in the following extract from a Harrisburg letter in the Altoona Radical:

"Governor Geary has pardoned Neeley, the other Alleghany county Commissioner, convicted for bribery. When M'Gee was pardoned, the Governor's friends attempted to excuse the outrage by a statement that the convict's health was in such a condition that further confinement would positively result in death; but that flimsy excuse even, is not left them now. These secondrels, it was plainly proven, licensed drinking holes that did not pretend to come within the provisions of the law, for \$10 a piece, and so well satisfied was the Court that they were fit subjects for the Penitentiary, that they declared from the bench that if it had been clear under which statute the offense came, they would have sentenced them to a much longer term than one year, and to a different place than the county jail. And yet our communing Presbyterian and loud-mouthed Temperance Governor pardons them! With such precedents, what checks have we upon bribery, perjury and fraud in public officers? It requires more charity than God has given me, to resist the conviction that there is money in the pardoning business."

Fish Baskets.

The State Journal says that "a basket between the island and the Perry county shore, just above the P. R. R. bridge needs special attention. Our informant saw, the latter part of last week, a man throwing nearly a bushel of young shad, caught in one of these baskets, upon the river shore, to rot, and others have captured numbers of black bass, put into the river at various points, at a great expense." People cannot expect to have shad or bass, increase in our rivers until such violaters of the law are punished.

A terrible riot occurred last week at Los Angelos, California between citizens and the Chinese. The mob surrounded the Chinese quarters and succeeded in hanging fifteen of the Chinese, and burning many of their houses. The riot originated in the attempted arrest of a Chinaman, who resisted and killed the officer.

The Forest County Republican of the 17th says : Miss Sarah A. Dalis lost \$650 in greenbacks, by fire; her house having burned and the money being concealed in carpet rag balls. This is the reward of concealing and boarding money, instead of keeping it in circulation.

The Chicago fire not only burned up the records of courts, and the indictment of rogues, but the libraries of the lawyers! That is what may be designated as "cleaning the docket."

Governor Hoffman has appointed the 28d day of November as Thanksgiving day in the State of New York.

The Ku-Klux.

The Ku-klux seem to be mostly confined to Georgia and South Carolina. Advices received from Spartanburg in the latter State, say that on the evening of the 18th inst., a Ku-klux "den" consisting of a chief and twenty members surrendered to United States Marshal Johnson, with their arms and disguises. Up to Friday morning seventy arrests had been made in the vicinity of that town alone. Spartanburg is known to be one of the headquarters for that Congressional district. Arrests have been made in other counties, but the number is not known here. A number of wellknown citizens are missing, including Mr. Lyle, a member of the Legislature, who is reported to be the chief of the Klan for that district. Among those who have dispeared are two or three clergymen, known for their strong rebel proclivities.

The officers of the law are proceeding steadily with their work, and before the arrests are all made they will, it is affirmed, show the existence of a deep and wide conspiracy against the State, the laws, and all who sustain them. Most of the Ku-klux refugees are known to have fled to Georgia. where the order is quite strong. The Grand Cyclope for that State is believed to be a son-in-law of Robert Toombs.

The Hon. J. B. Beck, of the Congres sional Ku-klux Committee, has returned home after a personal investigation of the state of affairs in Alabama, and represents the condition of things there as perfectly quiet and orderly. The Louisville Ledger says that the Committee examined the United States District Attorney, the United States Commissioner, and other leading men of both parties, who all concurred in the conclusion that no State in the Union exhibits a more satisfactory coudition. Gen. Crawford, in command at Huntsville, assured Mr. Beck that he found everything quietly and orderly; that he was most agreeably surprised at the perfeet order he found there. Similar evidence was furnished by the most respectable men of all shades of politics.

Melted Coin from Chicago.

A few days since the counting of the melted coin from the Assistant United States Treasurer, at Chicago, was begun at the Mint, in Philadelphia.

The coin was taken from the large iron chests in which it had arrived, and spread upon tables where it was examined. By instructions received from Secretary Boutwell, an accurate count of this money must be made. To perform this duty Messrs. James C. Eyster, O. B. Jones, William M. Runkel, Wm. S. Steel and Levi C. Cowperthwait were detailed, and a little after nine o'clock in the morning the work commenced. The coin had evidently been shoveled up from the ruins of the vaults, and as it was poured forth from the bags was found to be mixed with particles of stone, mortar, and burned rags. In many cases the silver and nickel coins, which melt much easier than gold, were found to have been run down by the heat, and in their melted condition had so fused with the gold as to render hundreds of dollars into one solid mass, which could not be separated except by the action of chemicals.

Considerable of the gold and all of the silver will have to be re-melted and re-coined before it can again be used by the Government. Most of the gold has been badly oxidized by the action of heat and water, of the whole mass can be cleared and re-issued without going through the process of melting and re-coining. This will be accomplished by the action of chemicals and washing; and will be more economical for the Government than the process of melting would be. The coin, so far as has been examined, consists of \$20s, \$10s, \$5s, \$2½s and \$1s in gold, and all denominations of of silver pieces, from the half dollar down to three cents. A few nickels and copper things. pieces have also been found.

Hurrah for "Free Speech."

The Catholics of Scranton on Bunday a week, showed their opposition to free speech in attacking an Anti-Catholic speaker, who was announced to preach in that place. He had engaged Perfer's Hall, but the threats of the Catholics scared the proprietor so badly that he refused to open the room .-The Rev. H. P. Devlin, however, was not so easily deterred from his purpose, and made an effort to speak in the street. He had hardly commenced, before a large crowd of men appeared, armed with stones and, had it not been for the assistance of the police would have killed him. As it was, he was badly hurt, but the officer was enabled to get him into the Wyoming House, from where he was taken by a side door to another hotel, and afterwards from town. Hurrah for a free country, and free speech!

A thief was arrested in the town of Braidwood, Illinois, the other day, and, for want of a prison, was locked up in an empty freight car standing on the Chicago and Alton Railroad track. That night a freight train came along attached the prison car, and whirled it away. Next morning the Braidwood people found that their prisoner had not only escaped, but had taken his jail with him.

The President has appointed General

A Respectable Farmer Arrested on Charge of Murder.

Considerable excitement was occasioned in parts of Lebanon and Dauphin counties, last week, by the arrest, of Emanuel Shaffner, a respectable farmer, of West Hanover, Dauphin county, on the serious charge of the muder of his wife by poison. And on Friday Mrs. Shaulock, who had been raised by Shaffner and had kept house for him, was arrested in Annville, Lebanon county, as an accomplice. Some of the circumstances in the case, as we have learned them, are these: Some time last Summer, probably in June the mother of Mrs. Shaffner died, leaving a considerable estate. A few weeks thereafter Mrs. Shaffner, who had no children, and who was the second wife, took suddenly sick and died. In the settlement of the estate of the old lady by the heirs, John Benson, Esq., of Lebanon, was consulted by them, and some of the facts stated to him, led him to believe that there had been foul play in the death of Mrs. Shaffner, and he advised an investigation, and instructed his clients also to consult legal advice in Dauphin county, as being more convenient for them. Some time thereafter, probably in September, the body of Mrs. Shaffner was disinterred and the stomach sent to a noted chemist in Philaphia for examination, and after investigation he reported that a large quantity of arsenic was found in the stomach. On the head of this, Mr. Martin Good, a nephew of the deceased, made information against Shaffoer, and he was arrested .- Lebanon

After the Mormons.

On the 21st inst., in the United States Court at Salt Lake City, the jury in the complaint against Hawkins, the Morman, who was accused by his first wife of adultery, came in with a verdict of "guilty." The court-room was crowded, and the announcement created much excitement .-The counsel for the prosecution moved that the defendant be taken into custody, which motion was stoutly resisted by the defendant's attorney. The prosecutors, however, were firm in their demand that the case should take the ordinary course, and the United States Marshal was accordingly directed to hold Hawkins as a prisoner .---Time was allowed, to prepare a motion for a new trial and arrest of judgment. The penalty prescribed by the Utah statute for adulteay is imprisonment for a term of not over twenty years nor less than three years, or a fine of not over \$1,000, or both fine and imprisonment, at the discretion of the Court. A notice of appeal to the Supreme Court of the Territory was given.

This is a test case, and virtually places all polygamists at the mercy of the first wife, who, under the act, is the only party who can institute proceedings against the

The result of this trial will, it is thought, occasion a good many others, as many first wives have already applied to the prosecuting attorney to commence criminal proceedings against their husbands, and may, we hope, prove the downfall of Mormon-

Dreadful Careless.

The St. Peter, Minn., Tribune says : On the last day of the State Fair, the evening train from St. Paul was delayed to accommodate the great crowd in attendance. Several hundred people were aboard, seven but from a test made on Wednesday by the cars being jammed full. In crossing the Assayers it is thought that a greater part railroad bridge the engineer discovered that the draw was open.

He instantly reversed the engine, but before he could stop it, he was within four feet of the opening! The bridge tender's orders are to leave the bridge open at night, and not knowing or thinking of the train being some three hours later than usual, had turned it. The night being very dark, the engineer had approached within twenty feet before discovering the condition of

13" Mr. George F. Lincoln of Hartford, was visiting in Chicago, with friends, (three miles from where the fire originated.) The warmth of the locality may be estimated by the following incident: "A large quantity of silver, consisting mostly of wedding presents, was packed in a trunk and placed behind a brick wall, it being impossible to remove it to a place of safety. At 3:30 a. m., the fire swept over the house, destroying everything. The next morning the place was visited, and the silver found on the ground melted and fused with the nails of the trunk and a small quantity of gold which had been left with the silver."

图 A reward of \$3,000, has been offered for the recovery, dead or alive, of Wm. J. Slauson confidential clerk of Thomas P. Simpson, contractor on the Midland Railroad at Franklin Furnace N. J. The last seen of Slauson was on Thursday the 12th inst., at 3:30 P. M., in George Opdyke and Co.'s banking house. When he went thence he carried a small leather travelling bag, marked "Simpson" on the outside, containing \$30,000 in currency. Slauson is 27, 5 feet 9 inches, light brown hair, blue eyes, and pale complexion, slim build, and looks consumptive.

Botts who has been on trial for the murder of Pet Halstead at Newark N. J., Thomas W. Bennett, of Indiana, Governor has been convicted of murder in the first A Remarkable Robbery.

On the night of the 22d inst., at Union City, Tenn., while the passengers of a Mobile and Ohio Railroad train were at supper, three men jumped upon the engine and ran the train back on the track for two miles, while two others entered the express car and robbed the safe of about \$4,000. The messenger was at supper and had left on guard one man who was overpowered by the robbers. The thieves escaped.

The statement which has been made that all the prisoners in the jail under the court house in Chicago, including five murderers, were allowed to escape when the court house was burned, proves incorrect. At the approach of the flames fifty of the worst characters in the jail were placed in charge of the police. During the transfer thirty-six of the prisoners escaped. Five murderers are still in custody.

The aggregate value of the churches destroyed at Chicago, is \$3,000,000.
