#### OUR OFFER FOR 1872!

The subscription for single copies of THE TIMES for the year 1872, will be \$1.25. All subscribers remitting their subscription between this time and January 1st., will receive the paper for the remainder of this year FREE OF CHARGE.

#### TO CLUBS:

We offer the following terms :

and an extra copy to the person getting up the Club,

For \$20 we will send twenty copies to one office, and an extra copy to the person getting up the club.

PETERSON'S MAGAZINE and THE TIMES, will both be sent to any address for the year 1872, on receipt of \$2.75.

This magazine is so well known throughout the country, as the best of the monthly periodicals, and is such a great favorite with the ladies, that we need say nothing in its praise .--Subscriptions for the magazine will commence with the January number.

THE PRESIDENT has appointed James N. Kerns as U. S. Marshal of the Eastern District in place of General Gregory, deceased.

THE President has appointed Col. Horatio G. Siekel, collector of internal revenue for the Fourth Pennsylvania District, Pension Agent at Philadelphia, vice, Forbes, removed for embezzlement.

Hon GEORGE TAYLOR, judge of the 24th judicial district, died at his residence in Huntingdon, at 9 o'clock on the morning of the 14 inst. The judge received a paralytic stroke whilst attending court in Hollidaysburg on the 24 ult., and has been failing over since.

#### Interesting to Supervisors.

In 1866 a teamster employed by Michael H. Moore, of Lancaster county, drove over the bridge in Rapho and West Hampfield townships, that county, and the team broke through, killing a horse and breaking the wagon. Suit was instituted.

The court charged that the townships were liable-the question being referred to the jury. The jury found \$378,03 for the plaintiff. On a suit of error to the supreme court the judgment below was affirmed and the liabilities and duties of supervisors were thus defined :

1. Bridges are treated as portions of the highways which cross them, and are to be maintained and kept in repair by the supervisors of the township. 2. The neglect of the supervisors to keep

them in repair, subjects them to a personal liability; but does not lessen the primary Hability of the townships to those who suffer injury from their neglect. \* \* \* This being the case, it is clearly the duty of the This supervisors, having thus reason to believe that defects may exist, to call to their sistance those whose skill will enable them to ascertain the true state of the structure duty to the public is not performed; not to do it, is therefore negligence, and this is the point on which the case went to the jury. There is, therefore no error in the aubmission.

Perry County Sabbath School Convention. To use a word not quite Websterian, Perry county has a "plucky" S. S. Association; for in spite of the terrible weather of last Tuesday, the convention assembled according to previous announcement, in the Court House in Bloomfield, at 10 o'clock a. m., and although but few began the meeting there were about forty delegates present during the entire session, and, with the Sabbath school children and people of the town, they filled the Court House both afternoon and evening-notwithstanding the weather-and continued in session until Wednesday noon. "If the same "pluck" pervades the county, it is not hard to see that a few years more will give every country school a winter session, instead of freezing up half the year from weather too bad for Sunday schools, but considered the best weather of the whole year for week-day schools

The convention was opened by the President, Rev. S. E. Herring, and in the absence of Secretary, Mr. Isaac G. Black, was appointed Secretary pro tem. The townships and boroughs were called for their delegates, many, even of the distant ones responding with good delegations, and soon For \$11, we will send ten copies to one office, after the speeches began to rattle. To sum up the results of the convention as briefly as possible, it has been thought best to publish the conclusions arrived at and endorsed by the convention on the six questions discuss ed, and if "ye" absentees do not agree with said conclusions, write to your Pet Editor and see if he will publish, or else come to the Newport convention, the 2d Tuesday of May next, and fight the battles over again then and there. Remember one and all that the last Sabbath of November is appointed for a collection in the Sabbath schools of the country for Chicago and the North West, the money to be sent to Win. Weir, Esq., of Harrisburg, as per the county papers of Nov. 1st and 14th.

Question 1. What about teachers meetings?

Resolved. That the convention carnestly urge on all Sabbath Schools, the practice of weekly meetings of the teachers, presided over by the Superintendent or Church Pastor, for preparation of the lesson for the following Sabbath. Also, the convention believe that where it is convenient, much good may be done by making such meet-ings Congregational, and inviting all church members to prepare in the same strate members to participate in the same study of God's word as the Sabbath school is engaged in, and such meetings may be held immediately after and on the same evening as the usual weekly prayer meeting.

Resolved, Also, that the convention ad-vise in addition, a regular monthly or bi-monthly business meeting of the teachers and officers of the school, conducted according to the form of some written but brief constitution prepared for the school. Question 2. What is the definite object

of the Sabbath school teacher? Resolved, That the definite aim of the Sunday school teacher should be to lead the child to a practical experimental, christian knowledge.

Question 3. On the subject of anecdotes and illustrations in the Sunday schools. Resolved, That anecdotes and illustra-tions are beneficial in the Sunday schools,

when properly and practically employed, Question 4. On Sabbath school books. --

This convention believing that there is nothing requiring the vigilant care and su-pervisions of Sunday school teachers and offi-cers more than the selection of books for Sunday school libraries, that the poison of infidelity and other errors be kept from the children, gives this as its deliberate opinion: that no books should be allowed in the library that fails to set forth Christ or belief in

Him as its prominent and leading feature. And without indulging in the customary all tirades against novel literature, when agree that it should not enter a Sabbath school library; the committee seek to define this injurious literature and to point a remedy therefor. They define a novel as being not merely a work of fiction, but one that has no moral aim. A moral may be appended to force the book on Sabbath school library shelves, but, for all that, moral and spiritual teaching is not the life and substance of the book as with Christ's parables and Bunyan's Pilgtim's Progress, in which what is fictitious is merely the garb or the dress in which the truth is clothed, and the crack is a mere accessory but the main garb is a mere accessory, not the main thing as in works commonly called nov-els. And as a remedy for literature of an opposite character the committee recommend as the only efficient remedy, that each denomination should have at the head of its publishing department a responsible committee for the purpose of endorsing the works proper for its Sabbath school li-braries and only such should be used by the Sabbath schools of that denomination which would then have works not only in accord with its recognized system of faith, but also suitable for the shelves of its Sabbath school library. Question 5. What relation does the pas-

grammes, hymns, &c., for the next Conassociation's secretarys. Resolved, That this convention return its

sincere thanks to the citizens of Bloomfield and vicinity, for the hospitality shown its delegates during the sessions of this con-vention; and that the resolutions be pub-lished in all the Bloomfield papers.

Respectfully, S. E. HERRING, President. ISAAC G. BLACE, Secretary.

#### A Family Murdered.

On the morning of the 13th inst., a family named Parks was found murdered in their houses near Henryville, Indiana. The family consisted of Cyrus M. Parks, his wife Isabella, his son John aged ten years, and his daughter Eveline, aged seventeen, and Ellen aged twelve. The heads of all were terribly beaten and crushed by some blunt instrument. The brains of Mrs. Parks and her son were scattered about the room, while the other bodies were lying in beds. The daughters were found sitting in the kitchen, alive, but were delirous and fatally, hurt. The neighbors heard shots in the night, but the bodies bear no bullet marks. Mr. Parks was a leading member of the church, and was much esteemed in the community.

On the next night the citizens of Henryville, near where the brutal murder or curred, put a rope around the neck of George Johnson, a negro implicated in the murder and telling that him that the crime had been traced to him, demanded to know his accomplices. Johnson, thinking that that all was discovered, made a full confession, stating that two negroes, named Davis and Taylor, with himself, planned the murder, believing that Park had four or live hundred dollars of church money in his house. Johnson says that he watched outside, Davis held the light and Taylor committed the bloody deed. He says that his partners refused to divide the plunder fairly with him. They only got \$110. The whereabouts of Johnson's accomplices became known, and a party of the citizens immediately went and effected their arrest. The police took the three prisoners through the woods to avoid the mob, and commit them to jail.

137 The latest wrinkle in fashionable weddings in New York is for a black page, in livery, to walk into the church before the bride and groom, carrying a small white satin cushion, on which is embroidered a monagram in gilt\_letters, which he places in front of the couple to kneel on, and carries it out at the close of the ceremony.

#### FOREIGN NEWS.

It has transpired that the Pope a short time ago desired to quit Rome. He com-municated his decision to President Thicis, asking that an asylum be provided for him within French territory. Thiers replied, offering him a residence at Chateau Pau, but the Pope has not yet signified his ac-ceptance. The Castle of Pau is situated in the Department of the Lower Pyrenees, on the Gavede Pau river.

Hon. Tom Hughes, the well-known author and M. P. from Frome, is heading a movement in London, to replace the Chicago library, which was destroyed during the recent fire. Several well-known members of the *literati* are interested in the movement and it is anticipated that a sufficient sum will be realized from subscribers to materially aid in replacing the lost library.

A fire has devastated a large portion of the city of Geneva, in Switzerland. It raged two days and destroyed a great amount of valuable property.

#### THE CAUSE AND CURE OF CONSUMPTION:

THE primary cause of Consumption is de-rangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation, I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus im-paired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms ; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot per-form their functions, and then rouse up and clogging these organs so that they cannot per-form their functions, and then rouse up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schencl.'s Mandrake Pills. These Pills clean the stom-ach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and rouse it up to a new and healthy action, by which natural and healthy bile is secreted. The stomach, bowels, and liver are thus

which natural and healthy bile is secreted. The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an ex-cess of acid, the organ is torpid and the appe-tite poor. In the bowels the incteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Scaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permawith neutraine an excess of leads, intering the stomach sweet and fresh; it will give perma-nent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of good digestion, and, ul-timately make good, healthy, living blood — After this preparatory treatment, what remains to cure most case of Consumption is the free and memory use of Schenk's Principle and persevereing use of Schenk's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distrib-uted to the diseased lungs. There it ripens all morbid matters, whether in the form of abscessees or tubercles, and then asalsts Nature to ex-pel all the diseased matter, in the form of free expectoration, when once it ripens. It is then by the great healing and puryfying properties of Schenk's Pulmonic Syrup, that all ulcers and cavities are bealed up sound, and my pa-tient is cured. tient is cured.

The essential thing to be done in curing Con-The essential thing to be done in curing Con-sumption is to get up a good appetite and a good digestion, so that the body will grow in fiesh and get strong. If a person has disensed lungs—a cavity or abscess there—the cavity cannot heal, the matter cannot ripen so long as the system is below par. What is necessary to cure is a new order of things—a good appe-tite, a good nutrition, the body to grow in fiesh and get fat; then Nature is helped, the cavities will heal, the mater will ripen and be thrown

tite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the cavities will heal; the mather will ripen and be thrown off in large quanties, and the person will regain health and sterength. This is the true and only plan to cure Consumption, and If a person is not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope.
I have seen many persons cured with only one sound lung, live and enjoy life to a good old age. This is what ScheneC.'s Medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion, and give Nature the system of all the disease she needs to clear the system of all the disease that is in the lungs, whatever the form may be.
It is important that while using Schenek's Medicines, care should be exercised not to take cold : neglial and warm sunshine.
I wish it distinctly nobersion distinct the synatic to be careful in regard to take it. In expendit a patient to be careful in regard to take it. In cold, while using my Medicines, I do so for a special reason. A man who has bot partially recovered from the effects of a bad cold is far more liable to a relapse than one who hus been entirely cured ; and it is precisely the same

far more liable to a relapse than one who has been entirely cured; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleas-aut. Confirmed Consumptives' lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my abil-ity to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed

127" William C. Scott is soon to be tried at Lawrence, Mass., for manslaughter, "This is the case," says the Boston Transcript, "where a young man and girl agreed to poison themselves on Prospect Hill, in Lawrence. The latter, Emma Homer, succeeded, but Scott made himself only slightly sick. The affair took place last May, and Scott was committed to jail on the charge of murder, and has remained there ever since."

137 This curious incident of the Chicago fire is related : An old lady in a German family lay at the point of death. Her relations, knowing that they could not hope to escape themselves and carry her, held a hurried consultation, and, to save her from the horrors of death by fire, decided to and did tumble her into the river, to find a quicker and easier release by drowning.

137" Elder Lindsley, of Utab, in a sermon at Williamsburg, N. Y., last Sunday week, referring to the prosecution of the Mormons, made use of the following words: "We are God's chosen people. He is working. A few weeks ago Chicago was destroyed. This is but a drop of water to what will soon happen. We are driven from that State and God said they should not live there."

137 J. J. Taylor postmaster at Kersey Eik county, has been arrested and bound over on the charge of tampering with letters telonging to others.

Question 5. What relation does the pas-tor sustain to the Sunday school  $2^{\circ}$ Resolved. That the pastor is *ex officio* i. e. by virtue of his office, superintendent of the Sunday school, and should exercise a general supervision over the children as well as over the adults. Resolved 2d. That whenever it is possi-ble band to be the the school to be possi-ble band to be the the school to be possi-ble band to be the deschool to be possi-ble band to be possi-to band to be possi-ble band to be possi-to band to be possi-to band to be possi-ble band to be possi-ble band to be possi-to band to be possi-to band to band t

ble he should be in the school to see that all things are done decently and in order, in accordance with the requirements of the word of God.

Question 6. On the relation which pa-rents sustain to the Sunday school.

Resolved, That it is the duty of all pa-rents to be present with their children whenever possible, but more especially christian parents, either to instruct or to receive instruction.

Something else of what the convention did may be published again, as we have giv-en the papers enough to do for one week, but these last resolutions the convention commanded us to publish and so we obey. Resolved, That in addition to the Chica-ro and North West contribution of Novem.
