THE AMERICAN WASHER! PRICE, \$5.50!

THE AMERICAN WASHER SAVES MONEY, TIME AND DRUDGERY.

The Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.

ned, but Keonomy, Efficiency, and Clean Clothing, Sure.

In calling public attention to this little machine, a few of the invaluable qualities, (not possessed by any other washing machine yet invented.) are here enumerated.

It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours' practice, can thoroughly comprehend and effectually use it. There is no adjusting, no serews to annoy, no delay in adapting! It is alwars ready for use! It is a perfect little wonder! If is a miniature giant, doing more work and of better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one half longer than by the old plan of the rub board. It will wash the largest blanked, or three shirts at a time, washing thoroughly! In a word, the ablution of any fabric, from a Quilit to a Lace Curtain or Cambric Handkerchief, are equally in the capacity of this LITTLE GEM! It can be fastened to any inb and taken oil a twill.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleaning efficacy and utility are banished, and the doubter and detractor at once become the fast friends of the machines.

We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines, which have signally failed to accomplish the object promised in prominent and lond sounding advertisements.

It is as perfect for washing as a wringer is for wringing. The price, another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

### 85.50.

All that is asked for this GREAT LABOR SAVER, is a fair trial. We guarantee each ma-chine to do its work perfectly.

LATERARY DEPARTMENT.

LITERARY DEPARTMENT.

Where so much attention is paid to illustration and get up of the work, too much dependence on appearances may very naturally be feared. To anticipate such misgivings, it is only necessary to state, that, the editorial management of THE ALDINE has been intrusted to Mr. Richard H. Stoddard, who has received assurances of assistance from a host of the most popular writers and poets of the country.

THE VOLUME FOR 1872 Will contain nearly 330 pages, and 250 fine engravings. Commencing with the number for January, every third number will contain a beautiful tinted picture on plate paper, inserted as a frontispiece.

reading his sermons on the ground that he could not remember them, when the old

"The foot is throwed away; "that's just

Being disposed to treat her politely, he replied that there was nothing for anybody's cow. The lady being equally embarrassed, and also disposed to be polite, replied that she inquired for Mike Howe.

A wag passing Main street, Worcester, saw on a sign the following: "Turning of every description done here." Entering the shop he inquired of the proprietor if he could get a job done there .-"Certainly," was the reply, "any kind of turning done on short notice." "Well, then," said the wag, "turn me ten summersets in about one minute."

A young lady sitting at a front window in Danbury, Mass., tossing in her hand what might have been a ball of white yarn attracted the attention of a middleaged chap on the street whose gallantry prompted him to hold up his hands for a catch. She accommodated him. The article proved to be an egg, and alighted on his nose; but it is not to be supposed that the lady knew it was a bid one.

A good story is told of a teacher who was talking to her scholars regarding the order of the higher beings. It was a very profitable subject, and one in which the children took an uncommon interest. She told them that the angels came first in perfection, and when she asked them who came next, and was readily answered by one boy, "Man," she felt encouraged to ask, "What comes next to man?" And here a little shaver, who was evidently smarting under a defeat in the proceeding question immediately distanced all competition, by promptly shouting, "His undershirt, ma'am."
