We intend to stop every subscriber's paper when the subscription expires, for if not noti-fied to the contrary, we take it for granted that he wishes it discontinued. With the large that he wishes it discontinued. With the large number of papers mailed from this offlee, mistakes will sometimes occur, and a paper be continued beyond the time for which payment is made, and in that case, it will be sent until all arrears are paid. The date on the direction label tells every subscriber when his subscrip-tion rune out. tion runs out.

THE DEATH of Senator Evans of the West Chester district is reported. This death again leaves the senate a tie, but as an organization has been completed, the effect will be only to retard legislation. Senator Knight, of the 7th district is also reported very ill.

HARRY WARD, who shot and killed a man who was dining with him, and was convicted of murder in the second degree, was refused a new trial, and sentenced to only a few months imprisonment in the conty jail. If any one wants to commit murder, Towanda is the place to go to.

#### The Evans Investigation.

The legislative investigating committee has been taking testimony regarding the Evans fraud, and have brought out the fact that the Governor paid out \$5,000 to W. F. Forney, who stated that he had been promised \$10,000, and consequently had been cheated out of half of his share. The testimony of Col. J. W. Forney, is a curiosity, and proves that though he knows much, he is disposed to tell little. What has already been brought out, shows that Jos. M. McClure, Esq., did the State good service when he first started this expose. The end is not yet.

#### Candidates for Governor.

The different political factions in the State are busily engaged in bringing out their favorite candidates for the office of governor. Each faction claims that their choice is the most available man, and in most cases availability is the ONLY recomendation the candidate can claim. To this however there is one notable exception. The friends of General Hartranft, can claim for him in addition to availability, QUALIFI-CATIONS FOR THE OFFICE, which are possessed by no other man who is spoken of as a probable candidate before the Republican convention. If the Republican party is to furnish the next governor of the State we hope and expect that the man who will fill that office will be GENERAL JOHN F. HARTBANFT.

#### How Is It?

An exchange says the law of the State

At the Monday session, nothing of interest to this locality was done in either house. In the Senate Mr. Crawford on Tuesday presented petitions for a local option law, which various other petitions in favor of local option or prohibitory laws were presented. Mr. Crawford also introduced the following:

An act supplemental to the act of March sth, 1871, to authorize the commissioners of Perry county to borrow money for the erection of a new poor house. An act to regulate proceedings in relation to the erection and repair of bridges in the county of Perry, and repealing all former acts inconsistent therewith. And an act to enable the legal voters of the borough of Perrysville, Juniata county, to determine by ballot, whether houses for the sale of intoxicating drinks shall be licensed within the limits of the same.

The supplement to the act providing for the selection of jurors was passed after being amended to provide for suspension of the drawing by the judges of the courts and in the presence of such citizens as may desire to attend; or the judges may appoint two disinterested citizens to inspect the same; provided, that the act shall not apply to Philadelphia.

During the Wednesday proceedings a long discussion was had over an act regulating the salaries of county superintendents. By the proposed bill the salary is fixed at two dollars for each school and one dollar for each square mile. No salary shall be less than \$1,000, except where there shall be less than a hundred schools, when it shall be \$800. The further consideration of the bill was postponed for the present.

A bill was introduced somewhat changing the law of libel and allowing the truth of the matter published to be given in evidence and to operate to the acquittal of the accused.

On Thursday the petition of Col. McClure and other citizens, complaining of fraud in the election of H. W. Gray was presented and was referred to the committee with instruction to report on Monday.

On Friday Mr. Weakly introduced a bill to authorize the court of Cumberland county to open the judgment in the case of Paul Shoppe, convicted of murder in the first degree, and to grant a new trial.

Eulogies were offered upon Senator Connell, whose death was appropriately referred to when the Senate adjourned until Monday at 11 o'clock.

IN THE HOUSE the committee on constitutional reform reported a bill to provide for the calling of a convention for amending the Constitution, and 1,000 copies were ordered to be printed for the use of the House. The amendments provide for the election on the 14, of May, the convention to meet on the second Tuesday in June. The number of members is fixed at ninety-nine, sixty-six to be elected as State Senators are elected, two for each Senator, and thirty-three to be elected at large, each elector to vote for eighteen, no person to cast more than one vote for each person. One-third of the members may require any amendment to be submitted to the people separately. Pay for the whole term, one thousand dollars, with mileage.

On Wednesday Mr. Shuler introduced the following bills: A bill repealing an act relating to the fees of sheriffs, so far as relates to Perry county.

in reference to contesting the electron of members of either branch of the Legislature, requires the petition to be presented " within ten days after the organization, of the Legislature, next succeeding the election." This will leave Alec. McChure out in the cold until next winter.

If the law should be construed in this manner, in cases of special elections for members for the House, there would be no chance for a presentatation of a petition during the time for which the member was elected. Consequently all that would be necessary to secure the seat for the session, would be to get the certificate of the election.

#### Lynched.

At Richmond, Ky., recently, a party of twenty-five or thirty masked men went to the jail where Stough, who murdered his wife, was confined, and overpowered the sheriff, took the keys of the jail, and proceeded to Stough's cell and marched him out a short distance, where they hung him to a tree. The mob then quietly dispersed. The circumstances attending the murder are so brutal that the action of the mob seems to meet general approval.

The first railroad in this country was that which connected the Quincy (Mass.) granite quarries with tide-water. It was built in 1826, and its decided success soon prompted the construction of other roads. This pioneer thoroughfare has been idle for some years, but it is now undergoing repairs, and will soon be in operation again for the conveyance of freight and passengers.

13 A company are putting up a large factory in Fairfield, Conn., and will shortly engage in the building of carriages made entirely of India rubber, except in the axles and tires. A decided superiority is claimed for the material over wood.

A train of over a dozen camels recently arrived in Virginia City, Nevada, from the valley of Carnon river, loaded with hay in bales.

Also, repealing an act regulating peddling and auctions, and fixing the amount of the license for the same, so far as relates to Perry county.

Also, repealing an act relating to huckstering, so far as relates to Perry county.

On Thursday the house passed an act to provide for a tri annual enumeration of the children of school-age in the state; also, an act to increase the school term 'to five months in a year. Further petitions favoring local option were presented on Friday, and after a short session the house adjourned till Monday evening.

#### From Washington.

137 The House Naval Committee has agreed to report a bill authorizing the Secretary of the Navy to construct ten steam sloops-of-war. He is authorized to offer for sale the useless vessels of the Navy, and to appropriate the fund therefrom to aid in the construction of new vessels. Besides this the bill appropriates three millions of dollars for the same purpose.

17" Mr. Hoar, from the Election Committee, made a report in the Pennsylvania contested election case of Mr. Cessna agains! Mr. B. F. Møyers, that Mr. Cessna is not entitled to the seat, and that Mr. Meyers, the sitting member is. The report was ordered to be printed.

137 There is now confined in the Mecklenburg (Va.) county jail a man who beat to death his little son, aged fourteen years, with tobacco sticks, and then buried him with his own hands. Immediately afterwards he took his little daughter, who he feared would betray him, tied her with ropes and proceeded toward the river with her, with the intention of drowning her. Before he succeeded in perpetrating the second murder, he was discovered and arrested by a neighbor, who heard the screams of the girl.
