WILL YOU READ THIS!

We intend to stop every subscriber's paper when the subscription expires, for if not notified to the contrary, we take it for granted that he wishes it discontinued.

The House last week adopted the report of the committee declaring the Hon. B. F. Meyers entitled to his seat from the Sixteenth Congressional district of this State.

The Election in New Hampshire resulted in the election of Mr. Straw the Republican candidate for Governor by about 1200 majority. The legislature is also largely Republican, which is considered of considerable importance from the fact that they elect a United States Senator to succeed Mr. Patterson.

It was generally considered that the death of Dr. Stanton the Auditor General elect, having taken place before he was sworn into office, there was no vacancy, and that the office would therefore have to be filled by special election, or by some act of the Legislature.

TROUBLES are continually occurring on the border between Mexican and American citizens. Despatches from Arizona on the 13th inst., says William McFarland was recently found murdered and horribly mutilated.

SOME of the religious papers are discussing the question of centre aisles in churches. An "elder," writing to a Western journal, says: "That aisle running down the centre is an impertinence—a blunder.

Postage Stamp Poisoning Case. The Nashua, N. H., Telegraph says that a few days since Dr. L. Chesly, of Nottingham, a well known and prominent physician in Rockingham county, received a letter from an unknown source containing two postage stamps, with an urgent request that he should send by return mail a letter to a given address in New York city.

The Doctor complied with the request, using one of the stamps just received in mailing the return letter, wetting the stamp by laying it upon his tongue, whereupon he was instantly seized with a mysterious fainting sensation, accompanied with severe convulsive action of the heart, difficulty of breathing, and a prickling numbness of the whole system.

His wife was seized with like symptoms on applying a small piece of the other stamp to her tongue, and has been prostrated ever since. Dr. Chesly speaks of the Ku Klux in connection with the affair, and has sent the remaining stamp to this city for analysis.

On Saturday as a freight train was running over the Toledo, Wabash and Western railroad, when near Mendoza, some straw on the floor of a freight car loaded with twenty large mules ignited by sparks from the locomotive. The flames instantly set fire to the hair of the animals which were burned almost to a crisp.

THE DOINGS of the Legislature has not generally been of much interest to this section of the State during the past week. On Thursday the Governor sent the following message to the Senate.

To the Honorable the Senate of Pennsylvania—GENTLEMEN: You are hereby notified that in compliance with the third section of the act approved 9th April, 1850, I have this day appointed C. D. Brigham, of the county of Allegheny, Auditor General, the commission to take effect on the first Tuesday of May next; this appointment being made to fill the vacancy caused by the death of the late Dr. David Stanton, elected to that office on the second Tuesday of October last.

This appointment, though good for three years, under existing laws, is subject to the action of the Legislature; and I recommend that provision be made for an election on the second Tuesday of October next, and that the party thus chosen may assume his duties on the first Tuesday of May thereafter, in conformity with the provisions of said act.

JNO. W. GEARY.

Mr. Rutan offered a joint resolution approved of the appointment and authorizing the said Brigham to hold the office three years. This was referred to the Judiciary Committee.

An act was also passed to require the courts of Juniata county to appoint auditors to re-audit and settle the accounts of the township officials of Delaware township, Juniata county.

The Senate also passed the bill providing for a convention to amend the constitution. Under this act the number of delegates is 152, and they are to be elected at the general election on October next. The pay of the members of the convention is to be \$750, and 10 cents per mile mileage, and \$50 for contingent expenses.

In the House a bill was introduced by Mr. Shuler to establish a ferry over the Susquehanna from Crow's Landing in Buffalo township.

A Terrible Ride.

The Bangor Whig tells a story of a terrible ride which Mr. Rufus Kilgore, a man living in Oldtown had. It seems he was walking on the railroad track in the direction of his home when he was overtaken by a train, which was moving slowly on account of the deep snow. It was close upon him when he discovered it, and a moment's deliberation convinced him that his only course was to jump for the cow-catcher.

Nearly Buried Alive.

The Milford, Del., News relates the following: During the late epidemic of small pox in Philadelphia, a young lady, formerly of this town, and living in Catharine street, Philadelphia, Miss H., was attacked with the disease and apparently died therefrom.

Every preparation was made for her interment, which was only delayed on account of pressure of business on the hands of the undertaker in charge. This providential delay was all that saved her from being buried alive. During the interval between the time appointed for the burial and the time which the undertaker appeared, Miss H., had shown such signs of life that this last sad rite was further postponed when her entire recovery ensued, and she is still among the living.

More than Bargained for.

A gang of burglars recently met with a singular mishap in Manchester, Ohio. Eleven in number they went at midnight to rob the first National Bank. Entering the building with a false key they proceeded to open the door of the safe with powder. While lighting the fuse a spark fell upon a keg of powder which they had brought, and an explosion of unexpected proportions followed.
