FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Importance of a Frequent Change of Seed.

It has long been observed by intelligent farmers that seed or plants procured from distant places, within the same collateral parallel of latitude, appear to grow with more strength and vigor in their new stations, than when kept and cultivated in their native place. On this fact all the rules for a change of seed, or of one species of plants for another of the same genus, are founded. A change of seed is most always practically safe and eminently beneficial. A change of seeds, sets, or plants from one description of soil to another, or from valley to mountain, or vice versa seems to possess a renovating influence on the crops. It is on this principle that the practice of rotation of crops is based. Plants appear to become tired of an old station, except aquatic plants, which are constantly receiving new elements of nutrition from fresh supplies of water.

Land plants as trees for instance, occupy the same spot for ages, but they at last decay from sheer decrepitude. The lateral extension of the roots—the lateral runners or offsets with which many of them are furnished, some above ground, as the strawberry, others under ground, as the couch grass, thistle, etc.—shows that plants like animals, require a change of pasture as well as a change of air.—Every one well acquainted with the growth of plants know that they require a frequent change of soil, though but few consider that a change of air is also beneficial. It is well known that some plants thrive much better in one locality than in another.—There are many plants that never thrive or scarcely live in the smoky atmosphere of London but when removed to a distance of twenty or thirty miles from the city, grow luxuriantly.—Western Rural.

To Keep Nails From Rusting.

A scientific journal says: When nails are used in a position in which they are greatly subject to air and moisture, it will always pay to prepare them in such a manner that they will not rust. This may be accomplished without any difficulty by heating a quantity of nails on a shovel, and throwing them while quite hot, into a vessel containing coarse oil or melted grease. The nails should not be so hot that the grease will be made to smoke freely. Cut nails prepared in this manner are improved in every respect. They are rendered tougher and they will outlast any kind of wood, even though buried in the ground; while unprepared nails are completely destroyed by rust in a very short time.

Value of Alaska.

It has been generally supposed by scientific men that the fossil elephant of Siberia, had no representative in the same latitude on this continent. Recent examinations on the Yukon River, in Alaska, however, have established the fact that the remains are even more plentiful on the west than on the east side of the North Pacific. Enormous quantities of bones are found, and a supply of ivory sufficient to last the world for centuries. The valleys of all the streams and all the low grounds are filled with bones and tusks, so that every vessel now arriving from those remote possessions has part of its cargo made up in part of these new found remains. The elephant, whose range was formerly almost universal, is now confined to a small portion of Africa and Asia, and it would seem as if the species was in process of slow extinction. Neither Europe nor America, which once swarmed with them, has now either climate or vegetation fitted to their existence. Their remains, however, are likely to give Alaska a value not previously suspected.

Prejudice Against Vaccination.

The colored people of the South appear to have an absurd prejudice against vaccination. They have a notion that the object of the doctors is to inoculate them with small-pox, and resist and defy them when they attempt to vaccinate them. In Charleston S. C., one of the physicians appointed by the board of health to perform this duty had to employ the services of a policeman, and succeeded with the aid of the officer in vaccinating several negroes. Ludicrous scenes occur when a physician visits some of the lanes where the negroes live. The inmates of the house bar their door, and retreat to the upper floor, defy the efforts of the doctors to reach them. No argument can convince them that the object of the doctor is to save them from contracting diseases.

To Remove Lime Spots from Cloth.

First use a stiff, dry brush to remove any adhering lime, then rub the spots with a cloth wet in cold vinegar and dry the garment.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.

Dr. Radway—I have had a tumor of the breast, which had been growing for twelve years, and which was so large that it was necessary to use a crutch to support me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years. I took six bottles of your Resolvent, and there is not a sign of tumor to be seen of, and I feel better, and happier than I have felt for many years. The tumor was removed, and the blood is pure, and the system is healthy. You can publish it if you choose. HANNAH P. KNAPP.

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM SPOON-POISONING CALIFORNIA VINEGAR BITTERS

Vinegar Bitters are not a Fancy Drink, made of Poor Rum, Whiskey, Proof Spirit and Refuse Liquors, distorted, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition, enriching, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merit than any advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Liver, Kidney and Bladder, these Bitters have been most successful. Such Diseases are caused by vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle and Negative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

Skin Diseases, Eruptions, Tetter, Salt-Rheum, Itches, Spots, Pimples, Scald-head, Sore Eyes, Ringworms, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug out and carried off by the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Because the Vitiated Blood whenever you find its impurities lurking through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will be renewed. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

Pins, Tapes and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no verminifuges, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Painful and Menial, such as Plumbers, Type-setters, Gold-beaters, and Miners, are especially liable to be subject to paralysis of the Bowels. To guard against this take a dose of WALKER'S VINEGAR BITTERS once or twice a week as a Preventive.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Rio Abasco, Rio Colorado, Sacramento, San Joaquin, James, and many others, with their tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangement of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with accumulated bile. A powerful purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c., &c. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act after a certain and uniform manner. By purifying the blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic and Carminative, Nutritive, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative properties of Dr. WALKER'S VINEGAR BITTERS are the best safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the system. Their sedative properties soothe the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diuretic properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents for the cure of Bilious Fever, Fever and Ague, &c.

Purify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef-steak, mutton, chicken, veal, or pork, and vegetables, and take outdoor exercise. They are composed of purely vegetable ingredients, and contain no spirit.
