J. W. G. - Articles on any subject of general interest are always acceptable, but correspondents will please remember to write only one side of the paper.

Wanted !- A sprightly young gent desires correspondence with a number of young ladies. Object-fun and improvement .-Address-"W. B. CATTELL, Box 21, New Bloomfield, Pa."

H. S. Rembaugh, who will be remembered by many of our citizen as a former typo, in the office of the Freeman, is now publishing "The Tribune," at San Louis Obispo, Cal., and a very good paper it is too.

Fishy .- Mr. B. F. Kauffman, of Pfontz's Valley, has four large ponds stocked with bass, suckers &c. The entire cost of these ponds was about two hundred dollars. The experiment has proved favorable and he intends making more ponds and filling them with fish.

Candidates for Congressional honors, are very plenty in this county and are remarkably busy. It is a pity that Hon. R. J. Halderman has determined that they must all be disappointed. But as Dick now owns property in this county he has about as much claim to be a candidate from Perry as he had at the former elections to be a candidate from Cumberland.

A Horse Thief. On Monday of last week rather a fine looking man calling himself Dr. Duncan, and claiming to have come from the west, arrived at Markleville, and proposed to settle there as a physician.

He stayed around until Wednesday afternoon, when he borrowed a fine young horse of Mr. Philip Boyer, for the purpose (as he said) of driving to Samuel Orwan's, but his memory must have been very poor as so far he has forgotten to return. His absence is not so much regretted, but the loss of the horse is a more serious matter. A reward of \$50 is offered for the arrest of the thief and recovery of the horse.

Sudden Death.-We regret to announce the sudden death of Mr. Henry B. Pislee, son-in-law of the late C. Mellinger, of Stoughstown, which occurred at noon on Friday last, Mr. Pislee had been in his field plowing corn, in usual health. Having unhitched his horses, a little before 12 o'clock, he was watering them at the pump in front of the hotel property, when he fell and in a few minutes expired. We persame he died of heart disease. His age was 46 years, 10 months and 28 days .- Vol-

Sunday School Convention. - The Perry Co., S. S., Convention met at Newport on Tuesday last at 10 o'clock. The secretary of the convention Mr. I. G. Black, furnishes the following report of the proceedings:

The first half hour was spent in devotional exercises. The President, Rev. S. E. Herring, iuvoked the blessing of God on the deliberations of the Association.

Rev. Geo. A. Peltz, addressed the convention in a clear, comprehensive manner, finely illustrative of the work for which the body was assembled. His remarks were interspersed with life-like illustrations, vivifying and full of power, and were received by a pleasing and well-informed audience,

The following persons were chosen as ofticers for the ensuing year: For President H. C. Cheston, Newport ; Secretary I. G. Black, Bloomfield.

Rev. S. E. Herring, returned his thanks to the conventon for the honor conferred upon him, in selecting him as the first President of the Association, giving a brief outline of its organization, and the success it has been crowned with thus far, and calling upon the great Master for his blessings upon the deliberations, he retired from the chair.

All friends of the cause, were, on motion of Rev. Herring, allowed to take part in

Afternoon Session .- Convention assembled at 2 o'clock; prayer by Mr. Willis of Bloomfield. In the discussion of the various topics previously arranged, seven minutes were allowed to each speaker. A committee of five was appointed to act on all questions named on the programme and report finally before the close of the session.

On motion of Mr. Willis, the last ten minutes of each session be spent in general discussion.

Evening Session .- The church was filled with a large and appreciative audience. The exercises were interspersed with singing by the Sunday school of Newport, under the leadership of Mr. P. Bosserman. The committee on credentials reported

seventy-six delegates present. The subjects for discussion were well handled by the clergy and laymen, being lengthy and spirited. After singing by the choir, and prayer by Rev. Shaver, the benediction was pronounced by Rev. A. H. Aughe, and the audience dismissed, until Wednesday morning at 9 o'clock.

Wednesday-Morning Session .- Convention assembled at 9 a. m. Devotional exercises of 30 minutes; prayer by Rev. Peltz. The subjects of discussion this morning, were the "Best mode of exercises for the Sabbath school" and "What constitutes success in teaching" were ably discussed by the delegates at large.

A beautiful feature of the discussion was an illustration of Sabbath school work a blending of beautiful suggestions, logical and well drawn, and received with marked

approbation. Adjourned. Afternoon Session .- Prayer by Rev Stokes; Rev. John Edgar answered questions generally proposed, in a concise and able manner. The number of delegates in attendance were 81. Collection of funds by the several schools, amounted to \$29.92.

banner schools was lost by a vote of 15 to The reports of committees in general were

The motion to appoint a committee on

received and filed. Fifty schools were represented in the

convention. Rev. Edgar illustrated practically his

method of working a library successfully. The election of officers was deferred until the Fall session.

The following amendment to the constitution was adopted:

Art. IX. That the regular session of this Association be on the second Tuesday of May, as a convention, and on the third Tuesday of October as an institute.

Duncannon was chosen as the place of holding the next meeting of the convention the third Tuesday of October, 1872, the

time for said meeting.

Rev. A. H. Aughe, Rev. John Edgar,
Wm. H. Bosserman, J.B. Habecker, Miss
Euphemia M'Kee, Miss T. Barnett were chosen delegates to the State Sunday convention, which meets in Pittsburg.

Adjourned.

Evening Session.—Services in the M. E. Church, were conducted by Rev. John Edgar. The audience chamber was filled to overflowing with an intelligent and

appreciative audience.

Rev. Shaver pronounced the benediction, when the audience was dismissed, and the convention adjourned.

Poor House Visitors Report.—We the undersigned, visitors to the Poor House, have endeavored to fulfill the duties devolving on us as such, having visited the Institution at irregular times and intervals, and having made it our business to examine and scrutinize every department very closely, and in our opinion strict economy in the use of the supplies of the Poor House has been observed, and that the inmates are well cared for, both in eatables and clothing, as well as in bedding. The beds though of coarse material, are warm and comfortable and clean as circumstance will adult of Their food has been about a supplier to the coarse material. admit of. Their food has been plenty, well baked and cooked. We have seen them at their meals, and tasted their bread and vegetables. The aged and sick are well cared for, and an air of contentment, as a general thing, is seen on the countenance of the inmates.

The Farm, under the present Board of Directors and Stewart, as well as former ones, has been wisely limed and manured, and it is fast coming into a high state of cultivation, and will soon go far in its way to supply the Institution.

We trust that when the new house now building, (of which our country ought to feel proud,) is finished, and the polluted bedsteads and furniture left out, it will prefactory at Americus, that turns out 1000 clude the repeated allusions that have caused heart-aches to Matrons who were trying to do the best they could. We deem it due to the Matron, Mrs. Trostle, to say that, from our observations,

she is pre-eminently the right woman in the right place, being kind, humane, sympathetic and attentive to the wants of the sick, aged and infirm. The inmates to whom we have spoken, speak in her praise

of the general care bestowed on them.
All which is respectfully submitted.
GEO. HENCH
WILSON MCAFEE WM. W. SNYDER.

April 26, 1872 And now, 7 May, 1872, report approved and directed to be filed, and a copy of the same ordered to be published as heretofore, and that each of the visitors be paid by the

county ten dollars for his service.

And Jacob Bixler, Sr., Honry P. Lightner and John Hager, Esqrs., are hereby appointed Visitors to the Poor House for the ensuing year, notice of their appointment to be given to each of them in writing by the Clerk of the Court. By THE COURT.

DELEVILLE, May 16.

Visitors.

Editor of the TIMES:-I noticed an item in your last week's issue erroneously states that a fire had broke out near Montebello on the 5th inst., and was raging in the sur-rounding woods, from which charred bark and leaves were carried to Shermansdale. Now let me say for the sake of making true statements of events, that your informant was mistaken in reference to the locality

of the fire.

This great conflagration commenced in McIlvains colliery, in the upper end of Allen's Cove—from what cause is not precisely known here.—It broke out on the 5th and raged until the twelfth day of May, over-running many thousand acres of timberland, running many thousand acres of timberland, doing immense damage, defying all attempts to subdue it until nearly all of the mountain on either side of the cove together with some portion of the Pine Hill was overrun. The large amount of dry rubbish upon the lumbering ground of the late firm of Kolter, Latimer & Hoshour caused such intense heat that much of the young growth of timber must be destroyed. The scene of this fire presented at night was grand, and, at times threatened the destruction of fences, and even buildings, which stood near its course.

OCCASIONAL.

For the Bloomfield Times. Mr. Editor.—Having occasion to visit your beautiful little place some time ago, your beautiful little place some time ago, and in making some observations I found quite a number of Waggoners but few teams for them to drive. Feeling somewhat hungry I dropped into a eating saloon for the purpose of getting a sandwich but the Proprietor informed me that owing to there being so few Baker's in the place that they were out of the article, but there was quite a large amount of Rica in the place. From the amount of Rica in the place. supposed they intended to start a mint, I also supposed that work was a little stack, as I saw but two Smith's and a few Weaver's in the place. I think the inhabitants of the place must be the descendants of some Giant for I found but one Small man in the place. While walking up street I was very much surprised by coming in contact with two quite large Bear's I also found it to be two quite large Bear's I also found it to be quite healthy, as I saw but one case of Sucney there, and I suppose by proper treatment he will survive. From the amount of Derrick's in the place, I suppose it is quite an oil producing town. I observed that they were putting up a very fine church if they only do not Burn it be-fore it is completed, but they assured me it was all Wright as far as that was concerned, for they had spoken to the Wise and they assured them there was no danger. You have a nice situation for quite a large town, but according to my estimation the only thing that will improve it much will be the completion of the Duncannon and Bloom-field Railroad which I suppose is not far off. A TRAVELLER.

Letter from Kansas.

TOPEKA, KANSAS, MAY 13th, 1872.

Mr. Editor.-It may be of interest to some of your readers to hear from this part of the world. Topeka is improving more rap-idly and a better class of buildings are being put up, than in former years, no man need be idle that wants to work at good pay. Among other improvements the Washburn College building to cost \$80,-000, is to be put up this summer, also \$10,-000, to be spent on the Capitol grounds in addition to what has been laid out to make them lovely. The Presbyterians are building a church to cost \$30,000. On communion day 92 joined the church, and 84 joined the Methodist at their last communion. So you see we have a church going community here. Emmigration continues and more are coming than any former spring. The sound of the hammer and saw is not only heard in our towns, but also over our beautiful praries continually. We see the white covered wagons in all directions hunting houses in the rich valleys of the Kaw, on the Arkanses river, through which the Atchison, Topeka and Santa Fe R. R. is rapidly making, and along the line and in advance, towns spring up like magic. Huchison the first point beyond Newton, the present termination of the road is already a city of some 100 houses, where last ready a city of some 100 houses, where last ready a city of some 100 houses, where last fall the buffalo and Kiote held peaceful possession. Every quarter section for many miles has a settler on it, and I see by recent reports that still farther up the river on the Big Bend there is a town started with 40 houses. Fort Zana will be the next point. Fortunate is the man who gets land near any of these points, in such a lovely and fertile country. Uncle Sam has from 80 to 160 acres to give to any one has from 80 to 160 acres to give to any one who will come and occupy it, but will not build him a house and plant his corn. There is the trouble, they must work here as well as elsewhere, if they would thrive. Three large herds of Texas cattle reached Caldwell yesterday, the first brought from Texas this season. A gentleman just from Texas, says there are at least 750,000, on the trail between this and Redriver Crossing, all looking fine. The drive this season promises to be quite as large as last year. We will have another R. R., finished to this place next week, that gives us another direct connection with Chicago, us another direct connection with Chicago, and it has been much needed as the Union Pacific imposed on us in freight. Also in the next month we will have another connection south.

libs., of cheese per day. The country is new, with many smaller factories. Butter is made and packed in stone jars to ship and it keeps well. John P. Thompson and family are living at Huchison. His son family are living at Huchison. His son Albannes Thomson had his store burned at Park city last fall, every thing almost was burned. The building being a two story wood, and a strong wind blowing, it burned very rapidly. Crops promise well. Fruit will be abundant, we expect to buy peach-es at 25 cents a bushel this summer; we bought them at 50 cent last summer; we have been having very heavy rains, washing out culverts and stopping trains for a few days.

Yours Respectfully.

J. B. Thompson.

Brief Items.

Juniata County S. S. Convention meets at Perrysville on the 28th and 29th inst. An unusual amount of work is being done on the streets of this borough, this spring. It was badly needed.

The wheat fields in the county look very bad, and the probabilities are, that there will not be half a crop.

The rain of Saturday night and Sunday brightened up the vegetation, considerably About one inch of rain fell, but more is badly needed.

Quite a scare was had in Buttz's store at Newport on Thursday evening by the up-setting of a coal oil lamp, and the taking five of the oil. It was fortunately extinguished before much damage was done. On the evening of the 15th inst., at Me-

chanicsburg the sash and door factory of Miller & King and the spoke factory of Sidle & Co., were burned. It was not known how the fire originated.

Jightning rod swindlers are prowling around the county getting persons to sign contracts for lightning rods at a specified price, say \$30. When they are put up they find the contract roads \$20 per set, and it always takes several "sets" to rod a building.

A team of horses belonging to the upper end of the county were scared so badly by the cars at Leiby's crossing on Thursday that the leaders turned suddenly around, but the breaking of the pole prevented a more serious accident.

Business Notices.

Where to Emigrate.

We answer, go to Southwest Missonri, because the Atlantic & Pacific Railroad Co. offer 1,300,000 Acres of Land to actual settlers, at low price on long credit, besides furnishing free transportation over their road to purchasers; this road extends from St. Louis, through Missouri to Vinitia, Indian Territory, is being pushed rapidly to its destination, the Pacific Coast, will be one of the trunk lines of the country, never blockaded by snow—the lands along the road are in a rich fertile country, as productive as any in the State; the climate combines all the advantages of northern and southern latitudes; good climate, soil, health, water, timber, grazing, fruits and Where to Emigrate. health, water, timber, grazing, fruits and flowers, invite you to go to this region. For further information address A. Tuck, Land Com'r, in 523 Walnut Street, St.

Tuckers Alarm Till Lock should be used by every store keeper, landlord or shop-keeper. They are thief proof! For sale by F. Mortimer, at the city price \$5, for lock and drawer complete.

METAL LINED cucumber wood pumps and also the celebrated Blatchley pumps for any depth of well on hand and for sale at low prices by F. MORTIMER.

when Franklin drew lightning from the clouds. Yet is it not also a great discovery to draw pain from the body pemanently.—Pain Cure Oil will surely do it. Try it and see for yourself. see for yourself.

2-77 Johnson's Anodyne Liuiment may used to advantage where any Pain Killer is de-sirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

Habitual constipation leads to the following results: Inflammation of the kidneys, sick and nervous headache, biliousness, dypapepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of Parsons' Purgative Pills nightly, for four or six weaks.

THE CAUSE OF TEMPERANCE finds some of its most insidious and dangerous foes in the many so-catlled "tonics" and "appetizers," made of cheap whisky and refuse liquors, finished up to suit depraved appetites, under the name of medicines. Dr. Walker's California Vinegar Bitters are none of these. They are not a beverage, but a genuine medicine, purely vegetable, prepared from California herbs by a regular physician. For all diseases of the stomach, liver, kidneys, bladder, skin and blood, they are an infalliable and unrivalled remedy.

TO CONSUMPTIVES.

The advertiser, having been permanently curred of that dread disease, consumption, by a simple remedy, is anxious to make known to his fellow sufferers the means of cure. To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for consumption, asthma, bronchitis, etc. Parties wishing the prescription will please address (1 y Rey, EDWARD A. WILSON, 194 Penn St., Williamsburg, N. Y.

MEDICAL MONITOR.

A Physician of many years practice in chronic disses, and graduate of best Medical College in the U.S., has written the above medical work, which explains to those suffering from diseases produced by excesses, etc., etc., the manner by which they may be restored to health. A copy will be sent FREE, by sending name and address to M. LAFAYETTE BYEN.

No. 80, Cedar St., N. Y. Church Notices,
