FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Letter from Kansas.

GARNETT, Kansas, May 5th, 1872.

Mr. Epiron.-Thinking that a few lines from Kansas, would not come amiss, I will devote a little time this afternoon to the readers of the TIMES. Well, merry May has come once more, and with it plenty of work for us Kansas farmers. I just finished planting corn to-day, many of the neighbors are not near done, and some have not commenced yet. This has been a very late spring; I did not get my oats in the ground until the 18th of April, and there was a great deal of oats sown as late as the 28th of April, although some farmers sowed oats earlier, but on account of so much rain from the 1st to the 15th of April, they were obliged to sow in the mud, but for me I let my ground be until it is in proper order and then go ahead and put in my crop, and invariably meet with success; as a young farmer in a new country I mean to live and learn, for we must keep moving to keep up with the times. The farmer being intimately associated with nature, should be well acquainted with her laws, and if he would act upon the lessons she teaches he would be better off in body, mind and purse; one of the first as well as one of the most important of these lessons is growth. In all animal and vegetable nature there is a continued growth, only checked by short seasons, to enable nature to recuperate her energies. So it should be with all mankind especially farmers, no man can hope for success in life, nor can be expect to accomplish anything worth living for unless he grows. In a pecuniary point of view, the farmer connot afford to stand still, his whole success in life depends upon his active exertions, he must read and study well all that pertains to his calling, or he will be left behind in the race of life.

The Prairie's are once more decked in living green, inspiring every thing with new life. This spring I set out an orchard of 125 Apple tree and 78 Peach trees; I have also a small nursery of about 1000 peach, sever-

hundred cherry, plum and apple seedling which I intend to graft when they are two years old. I have also about 1600 Cottonwood and Lombardy poplar cuttings, that are growing nicely, and about the 15th of this month when the seeds are ripe I will get enough seeds of the soft Maple and Elm, to make several thousand more trees. I believe in forest tree plantingand on the Prairie, nearly all the farmers are doing the same. I have also more than a hundred young Chestnut trees that I am raising from the seed. Chestnut does not grow well here, I have not seen a chestnut tree since I left Pa. I have also some Walnut trees I am raising from the seed, and a few Buckeys. I wish some of my friends and acquaintances would come to Kansas, and see the beautiful Prairie flowers that we have now, and hundreds more that will be in bloom through the summer. It is the most beautiful sight imaginable to look over one vast flowerspangled plain as far as the eye can penetrate, over the undulating Prairie with rising ground on this side, and gradual slope on the other. My dear readers some of you have I can safely say never been where you could see five miles a head of you, unless it were from some towering mountain. Let me invite you to a place where you may strain your eyes to see the end, and then not near see the end of these delightful Prairies of Kansas. I will close hoping to see folks here that are as yet living among the mountains of Perry County. Yours Very Respectfully.

B. F. REIBER.

New Way of Keeping Grain.

Some time ago Dr. Louvel suggested the idea of keeping grain in a partial vacuum, by introducing it into air tight vessels and exhausting the air, this being intended to prevent injury from dampness, and to secure it from the attacks of insects as well as vermin. We now learn that this idea has been brought to a practical test, and it bids fair to enter largely into the operations of grain-dealers. For the purpose in question, vessels are made of boller-iron, to contain about twenty-seven bushels; and after the grain is introduced and the cover applied, a vacuum is effected, which, for this purpose, need not involve a reduction of pressure of over one-sixth to one-seventh of the ordinary atmosphere. Any number of these receptacles can, of course, be made, and can be used over and over again indefinitely.

Silver Polish.

To one quart of rain water add two ounces of hartshorn and three ounces of precipitated chalk; put in a bottle, keep well corked, and shake before useing.

Keeping Iron Vessels from Rusting. A thin film of beeswax has been recommended. Heat the vessel and rub on enough wax to fill the pores.

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refinas Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," Appeliaers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renevator and Invigorator of the System, carrying off all poissonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, ask and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poism or other means, and the vital organs wasted beyond the point of repair.

means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dissiness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bittons Attacks, Palpitation of the Heart, Indianmation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the oliprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanbood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

tible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious,
Remittent and Intermittent Fevers, Diseases of the
Blood, Liver, Kidoeys and Bladder, these Bitters have
been most successful. Such Diseases are caused by
Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Genile Purgative as well as
a Tonic, possessing also the peculiar ment of acting
as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious
Diseases.

Diseases

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pastules, Boils, Carlmacies, Ring worms, Scald-Head, Sore Eyes, Eryssipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim Vinngar Birrers the most wonderful Invigorant that ever austained the sinking system.

Pin, Tape, and other Worms, lurking is the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is exercely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vermitings, no anthelminities, will free the system from worms like these Bitters.

Mechanical Diseases. Persons caused in

ters.

Mechanical Diseases. Persons engaged in Mechanical Diseases. Persons engaged in Paints and Minerals, such as Piumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against this take a dose of Walkers & Vinegar Bitters once

be subject to paralysis of the Bowels. To guard against this take a dose of WALKER'S VINEGAR BITTERS once or twice a week, as a Preventive.

Hillous, Remittent, and Intermittent Pevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Braros, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumi, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more of less obstructions of the iver, a weakness and irritable state of the stomach, and great torpor of the bowels, heing clogged up with viriated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

of the digeative organs.

Serofula, or King's Evil, White Swellings.

Ulcers, Evajuejas, Swelled Neck, Gotter, Serofulous
Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Empirions of the Skin, Sore Eyes, etc., etc., In these, as in all other constitutional Discases, Walking's Vinegas Birthess have shown their eat curative powers in the most obstinate and intract-

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

the affected parts receive health, and a permanent cure is effected.

The properties of Dr. Walker's Vinkoar Bitters are Aperient, Diaphoretic and Carminative, Nutritions, Lazative, Diaretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Billious.

The Aperient and mild Lazative properties of Dr. Walker's Vinkoar Bitters are the best safeguard in all cases of supptions and malignant fevera, their balsamic, healing, and southing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diurenc properties act on the Kidneys, efferecting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Billous Fever, Fever and Ague, etc.

Fertify the body against disease by purifying all its fluids with Vinnoan Bitters. No enidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed

orant.

Directions.—Take of the Bitters on going to bed at hight from a half to one and one-half wine-glassfull. Eat good mourishing food, such as beef steak, mutton chop, venison, roast beef, and tegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no opirit.
