FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

PRAIRIE CITY, Iowa, May 20, 1872. Mr. Editor.-The word "Iowa" is said to mean in the language of the Indian tribes, "The beautiful land." A band of Indians journeying towards the setting sun, reached the banks of the great River that washes our eastern border, and looking across the broad waters, beheld for the first time the green slopes of our beautiful Prairies, stretching afar in the distance. Their exclamation was "Iowa"-The beautiful land. It is a well attested fact that these sons of the Prairie and the forest, rude and uncultivated as they are, have a mind appreciative of the grand and beautiful in nature, and it is not unreasonable to presume that such was the origin of the name, although it comes down to us as a tradition. Iowa embraces an area of nearly fifty-six thousand square miles and over one million two hundred and fifty thousand souls. When it is understood that all this extent of surface, except that which is occupied by our rivers, lakes and peat beds of the northern counties, is suseptible of the highest cultivation, then some idea may be formed of the immense agricultural resources of the State. Iowa is as large as England, and twice as large as Scotland; but when we consider the relative area of surface which may be made to yield to the wants of man, those countries of the Old World will bare no comparison with Iowa. The surface of the State is remarkably uniform, rising to nearly the same general altitude. There are no mountains, and yet but little of the surface is level or flat. The whole State presents a succession of elevations and depressions, with the same bold and picturesque bluffs along the principal streams. The western portion of the State is generally more elevated than the eastern, the northwestern part being the highest. Nature could not have provided a more perfect system of drainage, and at the same time leave the country so adapted to all the purposes of agriculture.

I shall proceed to speak of some of the leading productions of our agriculture; beginning with those which may be regarded as the staples. Wheat-This is a leading and staple crop in every county in the State, but the northern counties are best adapted to it. So far, our farmers, except in a few of the southern counties, have raised chiefly the spring varieties. An average of from fifteen to twenty bushels per acre, however, is not unusual, and many a man has more than payed for his land and all the expenses out of the proceeds of his first crop of wheat.

Corn-This crop is successfully raised in all parts of the State, but the southern portion is best adapted to it. Under favorable circumstances the yield is from fifty to one hundred bushels per acre. This crop, as well as others, is raised with less than half the labor usually required on the wornout soils, or among the stones and stumps, with which the Eastern farmer has to contend. Our prairies admit of all kinds of improved machinery, rendering all farm work comparatively easy, as well as expe-

Oats-This crop rarely fails to yield abundantly in all sections of the State, though perhaps the northern portion is best adapted to it. The yield has often been as high as ninety bushels to the acre, but from forty to sixty bushels is the common crop.

Irish Potatoes, usually yield well throughout the state. It is not uncommon, with careful cultivation, to raise as high as three hundred bushels per acre. Our Iowa potatoes are superior in size and 0000000 flavor, and the crop is becoming one of 000000 great importance.

Our soil is also well adapted to the profarmers have not given them so much attention as they have other crops.

In no other country in the world have so large a proportion of the citizens an absolute interest in the soil, and indeed history furnishes no parallel. This distribution of the land proprietorship of the nation, places in the hands of a free people the complete control of their own political and social 0000 F. MORTIMER'S. 0000 destiny. In Iowa there is still room for many thousands more who may come and secure new homes at low prices on our broad rich prairies, with every reasonable assurnuce of health, wealth, education and freedom for all who will only exercise ordinary industry. There is still in Iowa uncultivatvated land enough for three hundred and sixty thousand farms, of eighty acres each. If the toiling millions of the East who are doomed to incessant labor and the strictest economy to secure the absolute necessaries of life, could only behold the millions of acres of rich untilled Iowa prairies, they would certainly spare no effort to place themselves in positions of independence.

Yours Truly. . J. W. G.,

Vinegar Bitters are not a vile Farcy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler ou to drunkenness and ruin, but are a true Medicine, made from the native rous and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poissonous matter and restoring the blood to a healthy condition, enriching it, refrealing and invigorating both mind, and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poisson or other means, and the vital organs wasted beyond the point of repair.

means, and the vital organs wasted beyond the point of repair.

Dyspepsin or Indigrestion. Headache, Pain in the Shoulders, Googhs, Tightness of the Chest, Distincts, Sear Eractations of the Stomach, Bad Taste in the Mouth, Billions Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the oligpings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Fernale Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rham.

tible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepais or Indigestion, Billous, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vintated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Billous Diseases.

Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pastules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysspelas, Itch, Scurfs, Diseolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

traive effects.
Cleanse the Vitlated Blood whenever your cleanse the Vitlated Blood whenever you In the title Villated Hood whenever you find its imporities bursting through the skin in Pimples, Lingtions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim Visuogan Birrans the most wonderful Invigorant that ever sustained the ainking system.

reas the most woncern invigorate that the sinking system.

Pin, Tape, and other Worms, larking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose hody is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vernifuges, no anthelimities, will free the system from worms like these livings.

thes, with the the systems. Persons engaged in Mechanical Diseases. Persons engaged in Paints and Minerals, such as Pinmbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against this take a done of WALKER'S VINKOAR BITTERS once

this take a done of Walker's Vinegare To guard against this take a done of Walker's Vinegare Bitters once or twice a week, as a Preventive.

Hillous, Remittent, and Intermittent Pevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississup, Ohio, Missouri, Blinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Braros, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roander, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable stato of the stomach, and great toppor of the bowels, being cloged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the directive organs.

Scrofuls, or King's Evil. White Swellings,

of the digestive organs.

Secofala. or King's Evil, White Swellings,
Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous
Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes,
etc., etc. In these, as in all other constitutional Discases, WALEKE'S UNDEAR HET-FIRS have shown their
great curative powers in the most obstinate and intractship cases.

able cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure inflament.

the effected parts receive health, and a permanent cure is effected.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic and Carminative, Nutritious, Larative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Apericut and mild Laxative properties of Dr. Walker's Vinegar Bitters are the best safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Durette properties at the one of the fauces of the fauces of the fauces of the fauces of the fauces. Their Counter-Irritant influence extends throughout the system. Their Durette properties at on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties attimulate the liver, in the secretion of bils, and its discharges through the billary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with Vinegas Bitters. No epidemic can take hold of a system thus forcarmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed

nerves are rendered disease proof of orant.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good neurishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take ont-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.
