Accident .- On Sunday afternoon the 15th inst., a son of Joseph Dysinger residing in Walker township, Juniata Co., aged about 7 years, fell from a heifer, fracturing his right arm below the elbow. Dr. Banks reduced the fracture and he is doing as well as could be expected.

Dedication .- The Reformed church at Elliottsburg, Perry county, Pa., will be dedicated on Sunday, the 13th of October, 1872. Several ministers from a distance will assist in the services. The public are invited to be present. By order of the Building Committee.

Mass Meeting .- The Liberal Republicans and the Democrats will hold a mass meeting, at Newport on the 3d of October.

Among the speakers secured for the occasion are CoL. ALEX. K. MCCLURE and Hon. C. R. BUCKALEW.

The president of the meeting will be CHARLES A. BARNETT, Esq., and among the list of Vice Presidents are the names of several other well known Republicans.

X Bloomfield Schools .- The Board of Directors of Bloomfield Borough, have employed the following Teachers for the ensuing winter. The High school has been allotted to A. M. Markle, Esq., at \$38 per month. The secondary to Mrs. H. H. Pine at \$33 per month, and the Primary to Miss Mary E. Drumgold, at \$38 per month, Term 5 months, to ommence 30th inst.

Too Bad .--- It is too bad that Judge Ba-ker, should have imperiled his re-election by failing to call at the News office, as we presume by the following, he neglected so

to do. "We noticed Hou. John A. Baker, candidate for re-election to the office of As-sociate Judge, in town this week. We suppose the Judge does not desire an elec-As-We tion, as there are some Republicans in Newport he did not call to see."-News.

Improvements .- We are glad to see that bricks are taking the place of wood, in the buildings now being erected in this bor-ough. Mr. Thomas Sutch is putting up a pretty brick, cottage style of house, north of the Insurance building, and a fine law office built of bricks, is being erected by Wm. A. Sponsler Esq., on Main street, adjoining his residence. The brick work on these buildings is done by Mr. Steven Losh of Landisburg, and is far better work than was done on the Court House, and Bank, by the Harrisburg masons.

Drowned .- A man named John Callen, of Buffalo township, was drowned in the canal, between Mt. Patrick and Montgomery's Ferry, on Thursday last. Mr. Callen, was driving a blind horse, and while his attention was occupied by fixing something in his cart, the horse walked so near the canal that the vehicle was upset, throwing it and the occupants into the water. A boy who was in the cart, with him succeeded in getting out, without injury. Some boatmen near by got the horse and cart out. KHorace Greeley at Newport .- On Thursday evening last, Hon. Horace Greley, passed through Newport on a special train en route to Indiana, where he had an engagement to address the agricultural association. The train stopped a few minutes during which time Mr. Greeley made a short speech. As the train moved away three cheers were given for Greeley and Brown. The political opponents of Mr. Greeley, then gave three cheers, for Grant and Wilson. At various stations along the route, large crowds had assembled to see the Presidential candidate, and hear the remarks he had to make.

Water Smelling .- The Lewistown Dem erat says: About a year ago, Mr. D. M. Contener, of Menno twp., Mifflin county wishing to dig a well near where he intended to erect a house and barn, called upon a certain Mr. Johnson, who lives near Altoona, who had the reputation of a " water smeller," to locate his well. Accordingly Mr. J. came, and having gone through "the motions," located the well; but not in the place where Mr. C. wished it; and he not having strong faith in the " smelling," process, concluded not to dig at Mr. J's location, but dug where he wanted the well, although Mr. J. told him he would not get water there should he dig a hundred feet deep, but guaranteed water where he (J.) located the well, within 85 feet. After Mr. C. at a heavy expense had dug 40 feet, he abandoned the well, and commenced on the location of Mr. Johnson. He has just now finished the well, and has water at the depth of 88 feet. He is fully converted.

Mr. Johnson's modus operandi is as follows: He cuts from a peach limb a forked branch, the branches about 15 or 20 inches long, the butt 3 or 4 inches. He takes one branch in each hand, holding his hands about a foot apart, the butt standing upright before him, and walks slowly and steadily over the ground. Presently the butt turns down toward the ground. He goes back a few steps, erects his branch again, and resumes his walk; and at the same place where it turned down, down it goes again. Here's the stream, certainno fail. So much for the place. Now for the depth. He goes back a step or two, erects his forked branch, and comes slowly up, and down it goes again. Now he stands still. He turns the branch up, tries to hold it, but down it comes. He stands and repeats the experiment until the branch refuses to turn down any more. He now multiplies the number of times it turned down by seven, and he has the depth of the well in feet.

House Burned .-- On Sabbath morning a week about 2 o'clock, the dwelling house of Mr. Jas. Davidson, near Kersville, took fire and was entirely consumed with all the houshold goods, except some of the parlor furniture. The fire originated in an outouilding used as a summer kitchen and was communicated to the dwelling through an open window. One of the family was disturbed by a cracking noise and awoke to find her bed on the point of taking fire, and barely in time to awake two boys and a man who would soon have been cut off from escape. The family saved none of their clothing except that which they seized for immediate use, not even their shoes. All the articles in the cellar were lost which included a large quantity of canned fruit and two apple-butter boilings. It is a mystery to the family how the fire originated, as there had been no fire in the cookstove since 4 o'clock the previous evening, and at 9 o'clock when the door was closed the stove was cold. A young man who chanced to be passing in the first stages of the fire noticed the door open which led to the conclusion that the fire was kindled by unknown parties either by accident or design. An insurance on the property had just run out and Mr. Davidson's loss will be severe, as it was brick and
