Kunaway .- On Tuesday afternoon last, a horse attached to a buggy containing Rev. A. H. Augh, and wife, of Newport, was scared by the cars, near Newport, and ran away. The occupants were thrown out and Mr. Augh, was considerably injured, but his wife was more fortunate. The horse ran nearly to this borough, before he stopped. The vehicle was but little injured.

Fire at Newport .- On Friday afternoon the house belonging to Mr. Josiah Fickes, located at the aqueduct about ? of a mile above Newport, took fire as is supposed from sparks from a locomotive, and was partly destroyed. The most of the contents of the building were removed. There was an insurance we are informed, of \$1100 on the premises, in the Ætna company.

Arm Brok en .- On Monday last a young lady from Perry county, got in the wrong train at York and did not find out her mistake until after it started. Without awaiting the stoppage of the train, she jumped from the car and fell, injuring her wrist badly. On her arrival at this place, an examination of her injuries was made and her arm was found to be fractured. The young lady, a guest of Mr. John Detwiler residing south of this place, is at present, doing well .- Wrightsville Star.

Terribly Injured .- On the 23d ult., a young man named Howard Cook, son of Thomas Cook, proprietor of a Steam Tannery, in Liberty Valley. was badly injured by being caught by a belt which was run-ning at a rapid rate. The young man was carried around the shaft, a number of times before the machinery could be stopped .-At each revolution of the shaft, the lad's legs struck the ceiling with great force, fracturing both thighs. One arms was so badly torn that amputation was necessary. At the time our informant left there, which was four days after the amputation, there was fair hopes that the boy would recover.

"A fashionable belle was promenading the streets, when she attracted the atten-tion of an old colored gentleman, who was at work when she passed him. The old darkey stopped his work, and gazed in-tently at her until she turned the corner, when, more in pity than in admiration, he soliloquized thusly: "Wonder what is dat she got on her back ? I speck she's gwine to de springs to get cured. It's a pity for her she's deformed dat way. She's a pur-ty gal !"

According to the Paducah News, the latest "dodge" in the market line is larded corn meal or corn meal larded. The new article of commerce is sold for lard, and is composed of about equal quantities of genuine lard and fine white meal. The process of manufacture is to melt the lard and then add the meal, stirring the mixture well together. The compound can be easily detected by its rough or grainy appearance.

As some beef cattle were being driven through south A street, Virginia City, Nev., the other day, a large ox just in advance of the driver disappeared, tail foremost, into the ground. An examination showed that there was an old mining shaft that had been abandoned years ago, and the month covered with planks, and these covered with dirt. The planks had become rotten, and under the weight of the ox had given way, letting him down to a depth of 500 feet.

Sudden Death .- On Thursday evening last, Mr. George Wagner, of Spring twp., died very suddenly. Mr. W. was passing Mr. Comp's shoe shop, and stopping a few moments to talk with him, remarked that he felt had and thought some water would make him feel better. He accordingly went into the shop and sat down and put some water on his head, but instead of feeling better, continued to grow worse and in a few moments died. Mr. Wagner, was up to the hour of his death, in apparently good health. He was a man aged about 65 years.

The Horse Disease .-- In speaking of this disease Mr. Berg gives the following opinion as to treatment: That the disease is influenza, in an aggravated form, seems to be self-evident, and the remedies usually employed in the treatment of the human patient are found to be the most serviceable in the case of the horse. Complete rest, warm blankets, non-exposure to draughts of all disinfectants, and total absence of bleeding and prostrating cathartics, as a rule, should be adopted. Twenty or thirty drops of tincture of iron in a gill of rum, diluted with water, and given every four hours, in order to preserve the strength of the horse, and the tincture of arnica will produce relief. A plaster bound around the the throat, composed of one portion of Cayenne pepper and two of flaxseed, mixed with vinegar, is excellent. | Frequently remove the fetid discharge from the nostrils, always using warm water. Another: Perfect rest, clean stable, tempting diet, and stimulating liniment applied to the throat. Another remedy is rest, comfortable, bedding, bandaging the extremities, fumiga-tions of boiling water to assist the discharge at the nose, with tonglamixtme of licerice root molasses. Administer sonics and stimulants if appelice fails and weakness ensues.

13 We always find something of more than ordinary interest within the bright pages of our ILLUSTRATED CHRISTIAN WEEKLY. Two weeks ago it gave us among other good things, the finest por-trait, on wood, of Henry Ward Beecher, ever published. This week it gives a touching picture illustrating a common phase of city life, entitled, "The Lost Child."-Another very important article is the report of Anthony Comstock, showing what one man has done to suppress the trade in licentious literature in New York city during one year.
