**To Subscribers.**—Will subscribers oblige us by looking at the dates on the direction labels of their papers. If the subscription expires with this month, and they wish to continue to receive THE TIMES, a prompt renewal of their subscription will save us the trouble of removing the name from our mailing list, and will be a favor we shall duly appreciate.

**W. J. Campbell,** son of Mr. John Campbell formerly of this place died recently while on his way east. At the time of his death Mr. Campbell was local editor of the Tazewell Republican, at Pekin, Ill. The editor of the paper Mr. Sellers had died a few days previous.

**Burst.**—The cold in our press room during Christmas week, was too much for our engine. It caused the water to freeze so solid that it burst the copper pump and caused us considerable trouble and expense. We are, however, again in moving order, but hope we may see no more such cold weather this winter.

**Cut.**—The Harrisburg State Journal of Friday last, gives an account of a "tramp" who was cut in a fight in that city, the night previous. On Friday evening the fellow arrived in this town, and put up at one of the hotels. The next day it was found he had no money, and he was furnished quarters in the jail, until he recovers from the effects of the wound.

**Correspondents** should remember that a newspaper is not the medium through which to redress private grievances, and communications containing personalities will not be published. This will explain why one communication set in last week is not inserted.

**Removal.**—Our legal friend James H. Ferguson, will in a few days remove to Newport, where he will be prepared to dispense legal advice to all who may need his services. We don't wish any of our friends to get in a law suit, but if they should be so unfortunate, they could not put their case in better hands. His office will be on Market street, near the Square.

**Engine for Duncannon.**—We learn the citizens of Duncannon, who have, within the past year, suffered considerably from visitations of the firebrand, have been looking around for a serviceable engine of some kind with which to fight their enemy in future. They have purchased from the citizens of Carlisle, for the sum of \$500, the Good Will fire hand engine, formerly the "Diligent," of Philadelphia, which has been put in first class order.

**Dead Beats.**—Every community is cursed with a few "dead beats," who make it a point to pay no debt except "the debt of nature," and they would if possible evade that, and so cheat the devil out of his due. It would be a good idea if the store keepers in the different localities would publish a list of such chaps as a warning to each other. Such persons are a nuisance, and all nuisances ought to be abated. One store in this town has a list of the names of some of these "beats," hanging up for inspection.

**Local Option.**—On the third Friday of March next, those opposed to license will have a chance to express their opinion at the ballot box, and if a majority of the voters of the county are opposed to granting any license, none can be granted for three years. The temperance men are already at work, organizing their forces, and we hope when the time for a vote arrives no man will remain away from the poles. It is really one of the most important questions ever left to the decision of the ballot box. We know of some hotel keepers who will vote against any license being granted but who make application for license as they wish their hotels to be on the same footing with others in the county. At the same time they will be better pleased to have all refused. We have no doubt many of our best landlords have a dislike to selling liquor and only do so because it is customary. It now remains with the voters to say whether or not, this custom shall continue.

In another column will be found a call for a convention to which we invite attention.

**Rail Road Meeting.**—It is now proposed to hold a meeting at an early day to see what can be done towards securing subscriptions for making a rail road from this point to Bally's station. Very many who opposed the former railroad movements, or gave them feeble support, are warm supporters of a road to Bally's. There are several reasons given by those favoring this project, that are entitled to great weight. The main one is, that it reaches the canal and secures coal at a much less cost than if Duncannon was the terminus, while it gives citizens of the lower end, a railroad communication with the county seat, with only three miles more travel, and saves the building of several miles of road. In addition to these advantages, it is asserted by those well acquainted with the proposed route that it is an easy grade, over ground not likely to be troubled with spring freshets. A liberal proposal has been made by persons not residents of this place, and if those in this vicinity, interested in securing a railroad outlet take hold of the matter with the proper spirit the work can easily be accomplished.

The persons at this point who are anxious for the building of the road do not intend to leave the matter this time, in the hands of those who, if not opposed to the work are at least lukewarm supporters of it. This is a wise determination on their part and we trust that they will "push things." Let the farmers of this vicinity and those above here give the citizens of this borough the proper aid, and in a few years the rich ore that now lies dead in the hills of all around us, will bring thousands of dollars into our midst.

**Teacher's Institute.**—The teachers of Perry county, met in institute, on Monday Dec. 23d. Owing to the illness of the superintendent, Prof. Silas Wright, presided with Mr. Wm. E. Baker, as Vice President, and A. M. Markel, T. L. McKee and S. E. Buck, as Secretaries.

A number of subjects of interest to the teachers, were discussed. Prof. Woodruff, of Chester county, was present, and gave some practical suggestions, and instructions in music.

Miss Garfield, gave the institute some instruction in elocution, and Prof. Zimmerman, delivered a lecture on Moral Culture. On Thursday evening Rev. Dr. Smiley, of Pottsville, delivered a very interesting lecture, the subject being "The origin of the American Indians." His theory is that they are the remnants of the lost ten tribes of Israel.

The attendance at the institute was better than common, the number of teachers present, being 125 the total in the county being 170.

**Fire.**—On last Tuesday morning while the family of Mr. William Geiger, residing about two miles from Marysville, near the foot of Peter's mountain, were eating breakfast a strange noise was heard up stairs, and upon search being made the upper part of the house was discovered to be on fire. Some effort was made to subdue the flames, but having no one to assist them—the nearest neighbors being about half a mile away—they were compelled to desist, and having taken a few things from the lower story, of little consequence, everything was consumed, including the beds, bedding, a large quantity of dried fruit and apple butter prepared for the winter; also, their clothing, the entire family having each but one suit of clothes to wear.

**Mixed.**—A sleighing party that went from this borough to Landisburg, on Friday night got mixed up in a remarkable manner. We don't know to a certainty that any of the gentlemen brought home the wrong partner, but some of them did reach town with the wrong horse, some with the wrong sleigh and some with whips and robes that belonged elsewhere. The owners of the property had a lively time the next morning getting things to right, and now the friends of the young men want to know what is the matter with the water at Landisburg.

**A New Bank.**—Millerstown has determined to have a bank, and have consequently formed an organization to be called the "Farmer's Bank of Millerstown." The capital stock is to be \$50,000. The following named gentlemen, have, we learn, been selected as the officers: Perry Kremer, President; Mr. Richabach, Cashier; Jacob Yohn, Jonathan Weiser, Lewis Gillilin, Philip Kepner, James Patterson, Dr. J. L. Singer, Directors.

**Run Off.**—On Christmas day a horse attached to a sleigh and owned by Mr. Henry Groninger, of Millford township, ran away in the borough of Patterson, and completely demolished the sleigh, but the horse escaped uninjured. 'Twas the day after Christmas that he ran off again in the same borough breaking the sleigh to which he was hitched. An unprofitable quadruped, is he.—Independent.

**Accident.**—Tuesday December 24th, Alice, aged thirteen years, daughter of Abel Longaker, of Oliver township, while crossing the iron bridge at Overholser's mill, was run over by a two horse team driven by Jack Holmes, and seriously injured.—News.

The following described properties were disposed of at the Sheriff's Sale had at the Court House, on the 27th of December last:

A Tract of Land, situate in Madison township, Perry county, Pa., containing 133 acres, more or less, the property of Joseph Hockenbery. Purchased by Wm. A. Sponsler, Esq.,—price, \$100.

A Lot of Ground, situate in Tuscarora township, Perry county, Pa., containing 3 acres, more or less, having thereon erected a two-story store house, frame stable and other outbuildings; as the property of John Gutshall. Purchased by Thos. T. Weisman,—price \$195.

A Lot of Ground, situate in the borough of Duncannon, Perry county, Pa., being lot No. 11 in the general plan of said borough, having thereon erected a two story frame plastered dwelling house; as the property of Robert B. Valentine. Purchased by Wm. A. Sponsler, Esq.,—price \$350.

A Tract of Land, situate in Centre township, Perry county, Pa., containing 100 acres, more or less, having thereon erected a two-story log house, bank barn and other outbuildings; as the property of John Reeder. Purchased by Wm. A. Sponsler, Esq.,—price, \$265.

A Lot of Ground, situate in Liverpool township, Perry county, Pa., containing one acre, more or less, as the property of Morgan Hoover. Purchased by F. B. Clouser, Esq.,—price, \$1201.

**School Troubles in Madison Twp.**

**CONTINUED FROM LAST ISSUE.**  
How it went.—Now to be brief on this matter I would say that some of this moving party said that a certain lady, (they did not say lady), was there at the time their team ran off, and that she hallooed so that it scared the horses and made them run away. Now as for that it is untrue, the lady was not there at that time, this I know for a certainty. When they could not haul the House whole, they took the roof off, and floor and sleepers out. Now we come to the second days proceedings. On the 17th inst., the captain and his squad were on the ground in good spirit with their teams. When every thing was ready, the captain touched up the horses a little. Now all ready! He! and such a "Hepp-pling" and kicking you never saw, but it didn't "hep" that time; so they had another pull and still it did not go worth a cent. By this time I saw they were beginning to get pretty weak in the knees.—They had I think four pulls at it before it started, and then it put me in mind of a lot of dogs, after a fox. He! He! He! till they got to the top of the hill, where they stopped and took in some fresh wind.—There they felt good and you could see some little smile on their faces. Oh! but the Captain felt extra good, now you may know they felt good when some of the party wanted some one to hallo back to the other party.—(but what they said won't look well in print). That was nice for persons that want to be somebody. But they got the House along and limed the fields a little with the ceiling as they went. Mr. Editor, perhaps you don't understand the drift of this School House moving. As was said before an intelligent board of directors built the house in the proper place, and the present board, some of them to have revenge we think, took those measures, and to prove it some of the party said if they could not take it whole, they could take it away in ashes, while others said that they did not care any thing about the house, and so on. Now this Captain as he is called gave all the commands and don't you call such men Captain? Perhaps by the time he gets through moving school houses and some other things his hat will be a little to the other side of his head. Another of the movers called the other party rebels. Now the rebels took up arms, so did they; as they had arms to guard the House, the first night for fear some persons might run off with it. So we think they came nearer acting the rebel part.

**Cumberland County.**—From the Cumberland county papers we copy the following:

A valuable horse belonging to Mr. A. B. Ewing, of Carlisle, fell dead while being hitched in a harse, on Wednesday last.

George Metzgar, Esq., of Carlisle, is very ill from a fall received a few weeks since, causing internal injuries.

The residence of Wm. Windemaker, at Mount Holly, was entirely destroyed, with all its contents, by fire, on Thursday evening last. The fire originated by throwing hot coal ashes under the cellar stairs. No insurance.

The newly erected church of the Evangelical Association, known as the Letort Spring church, about two miles east of Carlisle, will be dedicated to the worship of God, January 26, 1873. Several ministers of note will be present.

On Christmas William Windemaker, of Mt. Holly Springs, was imprisoned in jail on a charge of disturbing a religious meeting, and assault and battery on oath of William Stickle. He was committed until the approaching Quarter Session.

A cow belonging to Mr. John Mellinger, of Penn township, recently gave birth to twin calves.

**Out in the Cold.**—The Carlisle Herald seems to appreciate the need of a railroad to Bloomfield, judging from the following: "New Bloomfield, Perry county, has a literary society, if she has no railroad communication. Keep up courage, there's a good time coming for you, and we trust it's almost here, for you have been left out in the cold for many years."

How long will our citizens consent to remain out in the cold? is the question which now requires an answer.
