FARM AND HOUSEHOLD ITEMS

We receive communications from all persons who are interested in matters properly belonging to this department.

Cider and Pickles for Fever.

Some two months ago a resident of Detroit named Broef was taken ill by some sort of a fever, and for two weeks there was little hope of saving his life. He continued to sink in spite of all the physicians could do, and they finally gave him up. All through his sickness the man had continually asked for pickles and cider, and when he got so low that his death was only considered a question of a few hours, Mrs. Broef decided to gratify his wishes. A glass of sweet cider was given him, and he declared himself much better for it. More was given him through the night, in place of medicine, and the next morning the doctor declared a most favorable change had taken place. Some strong pickles were procured and given him, and he began to call for gruel and broth. To be brief he is now able to move around the house, and everybody in the neighborhood, as well as the physician, gives the cider and the pickles the credit of performing the cure.

What is Expected of American Boys.

American boys are expected to become manly men. The mother of every boy is expected to teach him to be obedient to parental authority, to the civil law; and to acquire an education, a trade, a business, or an art, something for which he may be best adapted, and by which he may obtain an honest living. This is a privilege, more—it is a duty—a duty to self, to family, to friends, to the State, and to the Nation; when this is done, society has a guarantee for good conduct and usefulness of each of her sons. When it is neglected, the boys grow up in ignorance and idleness, society is taxed for their support, either in her reformatories, her jails, her hospitals, or asylums. How much cheaper it would be to have everybody properly educated, trained and disciplined, so that he could be a blessing instead of a curse to the world. He is sure to become one or the other.

Paste that will Keep a Year.

Dissolve a teaspoonful of alum in a quart of warm water. When cold stir in as much flour as will give it the consistency of thick cream, being particular to beat up all the lumps; stir in as much powdered resin as will lay on a dime, and throw in a half dozen cloves to give a pleasant odor. Have on the fire a tea cup of boiling water, pour the flour mixture into it, stirring well all the time. In a very short time it will be the consistency of mush. Pour it into an earthen or china vessel; let it cool; lay a cover on, and put in a cool place. When needed for use, take out a portion and soften it with warm water. Paste thus made will last twelve months. It is better than gum as it does not gloss the paper, and can be written upon.

How to Make a Side Walk.

The following is a good recipe which may come into use handy some day when the cold weather ruins your sidewalk. When you make a sidewalk you want to make it very narrow and very high, something like the shape of an egg. Then when any one slips on it, a leg will go off at each side, and he will be split through to the chin, and die without a struggle, and his wife can get the insurance, and marry a man who will go into business and make an assignment. On any other walk a man will fall and cripple himself, and live on for four years after his wife is dead, and then die and leave his insurance money to his mother.

Cure for Felon.

As soon as discovered take some spirits of turpentine in a cup, dip the finger in it then hold the hand near a hot fire till dry, then dip it in again and repeat for fifteen minutes, or till the pain ceases. The next day, with a sharp knife, pare off the thick skin and you will find something like a honey comb filled with clear water, open the cells and the felon is gone.

Another.—If the felon is too far advanced for the turpentine, Oil of Origanum, treated in the same way, will cure. If too far advanced for either to cure, the felon will be benefited, as it will be less painful. Never draw it.

How to Use a Grind Stone.

First—Don't waste the stone by running it in water; but, if you do, don't allow it to stand in water when not in use, as this will cause a soft place. Second—Wet the stone by dropping water on it from a pot suspended above the stone, and stop off the water when not in use. Third—Don't allow the stone to get out of order, but keep it perfectly round by the use of a gas pipe on a hacker.

There is no approbation in Nature. She has no eye out for spectators, and no sense of the effect she produces on beholders.

R. R. R. RADWAY'S READY RELIEF

INSURE IN THE Perry County Mutual Benefit Association, or NEW BLOOMFIELD, PERRY CO., PA. [Chartered by the Legislature March 9, 1872.]

THE CHEAPEST AND SAFEST LIFE INSURANCE ever offered to the people.—It is a Mutual enterprise for the protection of Widows and Orphans in the county. Members pay FIVE DOLLARS for a certificate of membership, and annual dues on ages between 25 and 35, \$1.00; between 35 and 50, \$1.50; between 50 and 65, \$2.00; for the term of three years, commencing January, 1873; and the sum of \$1.10 on the death of a member. The membership not to exceed one thousand. A member dying, to receive as many dollars as there are paying certificate-holders. This plan is adopted in order that persons who have been excluded from benefits in other Life Insurance Companies by reason of their expensive LIFE-RATES may obtain some benefit on a small investment. It commends itself to the public for the reason that it prevents the country from being drained of our money by foreign companies. JOHN A. BAKER, President. CONRAD ROTH, Treasurer. LEWIS POTTER, Secretary. WILLIAM MCKEE, General Agent. 6 15
