Rail Roads and Canals.

The constitutional convention have given the subject of .R. R. monopolies considerable attention. The committee to which the subject was referred, make two reports. Hon. J. Baily, makes a minority report which deals with the question in a very able manner and closes his report with a proposal to incorporate the following sections in the Constitution :

SECTION.—No railroad or canal corpora-tion shall have the right to invest in, or purchase or hold shares in the capital stock, bonds or other indebtedness of any other bonds or other indectedness of any other railroad, canal or other corporation, either in its corporate name, or the name of its officers, or through the intervention of trus-tees or other agents holding the same for its use.

SECTION .- No railroad or canal corporation shall have the right to invest in, pur-chase, hold or lease the franchise and prop-erty, or other estate of any other railroad, canal or other corporation, either in its corporate name, the name of its officers, or

corporate name, the name of its oncers, of through the intervention of trustees or other agents holding the same for its use. SECTION.—Railroad or canal corporations shall have the right to intersect their lines of improvement, by proper connections, with the works of any other accessible rail-road or canal company, and shall have the with the works of any other accession rain-road or canal company, and shall have the right to pass cars or boats, loaded or emp-ty, or passengers and freight not loaded, over each other's railroads or canals, free from discriminations in rates of passenger and freight tariffs, and without delay or hindrance in their movements. Individ-ual transportors shall have the same rights

of passage. SECTION.— A system of tolls and charges for passengers and freight, as near uniform as possible throughout the State, shall be established from time to time; and the Legislature shall enact general laws for the regulation of railroad, canal and other transportation companies, under the provision of this Constitution, and enforce the same by adequate penalties; and shall con-fer on the Secretary of Internal Affairs such supervisory powers over said corpo-rations as may be necessary for the public good.

Brigham Young Retires.

Salt Lake, April S .- Brigham Young formally resigned the position of trustee of the Mormon church before an immense audience in the tabernacle to-day, stating that he proposed to go to Arizona beyond the reach of mails and telegraph. He has recently resigned the office of president of the Deseret national bank, Zion co-operative mercantile institution, and Utah Central and Southern railroad. In retiring thus from all business, surrendering the vast possessions of the church and leaving the territory, he practically abdicates the throne which he has so long occupied, and admits that his power is ended. He has made a will dividing his immense property equally among his sixteen wives and sixty children, and carefully stipulating the method of the division. It is believed that all the Mormons will follow the changed fortunes of their self-deposed leader, and that, so far as Utah is concerned, the Mormon problem may be considered solved.

Burlington, Iowa, April 5 .- The most terrible rain, hail and wind storm ever known came up at a minutes notice this afternoon, creating fearful havoc and causing loss of life. The storm struck the city on West Hill, tearing the roof from a school-house and descending through the business portion of the city. Buildings were unroofed and a great deal of damage done. The worst of the catastrophe was the destruction of T. N. Pond's butter and gg depot on Jefferson street, and the death of seven persons. The house was blown down and twenty-five persons buried in the ruins. Mr. Pond and three others were taken out dead, and nineteen others were rescued more less injured.

A Serious Fire from Natural Causes.

An unusual accident occurred at Pleas anthill township, Pike county, Ill., a few days ago. John Bailey was threshing wheat on the farm of Henry Brisco with a ten-horse machine. The ground being soft a large quantity of straw had been thrown on the track to make solid walking for the horses. A journal in the machine became so hot as to set the straw on fire and the flames spread so rapidly that in a few minutes the machine, a large quantity of threshed grain, and several ricks were consumed. Five horses were burned to death. One man had most of his clothing burned off, but was not fatally injured.

Serious Accident at McKeesport.

The bridge trestle supporting seventy feet of the roof of the National Tube Works, situated at McKeesport, Pennsylvania, gave way at 5 o'clock on Thursday last, breaking the gas conductor leading from the gas producer to the furnaces. The gas took fire, and the mill building was immediately enveloped in flames and totally destroyed. Two hundred men were working under the roof when it fell, but miraculously, only one man was killed. Several working men sustained injuries, none of which are likely to prove fatal. Loss, \$200,000 ; insurance.

Not Worth Holding.

L. M. Hitchock, who lives a few miles south of Monticello, Minn., was on a road when a deer run by a dog came so near him that he caught it around the neck and held it fast. The animal at once raised upon its hind feet, and commenced hammering Mr. H. with its sharp fore feet. He says he held the deer long enough to ascertain it was as poor as a crow and then let go of it.

A Colored Justice.

Thomas Hazzard is the name of the colored gentleman who was elected Justice of the Peace in Thornburg, Delaware county, at the last election. The new 'squire is a shoemaker by occupation.

A Careless Man.

At Boston on the 9th inst., the pocketbook of Nelson Curtis, the well-known builder, was stolen from a pile of lumber on Devonshire street, where he had momentarily laid it, while examining papers. It contained \$3,700 in bank bills, and \$20-000 in notes.

Miscellaneous News Items.

GEO. W. M. CURTIS, closes his connection with the civil service reform, by the following letter to the President. This shows how the promises of reform have been carried out.

28,186

936

My Dear Sir :- As the circumstances under which several important appointments have recently been made seem to show an abandonment both of the spirit and the letter of the civil service regulations, I re-spectfully resign my position as a member of the Advisory Board of the Civil Service. In so doing I beg to assure you of my warmest wishes and of the continuance of my most earnest efforts for the success of your administration your administration.

Very respectfully and truly yours, GEO: W. M.CURTIS. His Excellency the President.

GEN. HAWLEY undoubtedly owes the increased majority by which he was re-elected to Congress, to the attempts he made to defeat the "Salary Steal." When that bill was before the House he made a speech against it in which he used the following strong language. "One party already has its grave dug, and the other wants to be side by side with it. Back of these two political parties are the American people, who will have some-thing still further to say about the ques-tion. I care so little about parties and elections that, if this is to be the style of backstein. I can willing to assist at the legislation, I am willing to assist at the digging and the funeral, and I don't care what party comes after it. We can't have anything worse, in my opinion, than the party which begirs, six months after the most ardent professions of &conomy, to raise our own salaries, so that we may put in our pockets \$6,000 not dreamed of until two or three weeks ago." two or three weeks ago.'

Rain, Hall and Wind Storm in Iowa.

Gen. Hawley, also consistently refuses to take the increased salary.

Connecticut Election.

The returns from every town in the State give Haven Rep., 39,200; Ingersoll, Dem., 44,900 ; Smith, Tem., 2,091. Ingersoll's majority 3,609.

In the First Congressional district, Gen. Hawley, Rep., is re-elected by 1, 521 majority; in the Second district, Kellogg Rep., is m-elected by 5,875 majority; in the Third district. Starkweather, Rep., is re-elected by 1,521 majority; in the Fourth district. Barnum Dem., is re-elected by 1,440 majority.

The Republicans have a majority of one in the State Senate, and the Democrats have a majority of from 12 to 18 in the House.

Wife Murder at Easton.

A woman named Crouse, residing in Snufftown, in the suburbs of Easton, was brutally murdered by her husband on the 8th inst. The man was arrested and is lodged in jail. Crouse, who had been in town drinking hard, came home, and, being displeased, attacked his wife and beat her unmercifully. Crouse's father interfered to save his daughter-in-law, and was killed the supposed cause of her domestic severely cut and badly beaten.

Great Flood.

A dispatch from Thornesville, Ont., says :--

The greatest flood known here for fifty years is now devastating property, and causing excitement and anxiety. Threefourths of this village is submerged. Many families have been compelled to move, and others have taken refuge in the upper stories of their dwellings. Many farm houses are inundated, and horses and cattle are struggling to reach places of safety. In the principal streets of this place, the water is four feet deep. The post-office and some stores can only be reached by boats. Four bridges on Grant river, be-tween Brantford and Onondago, have been carried away.

Off the Track.

A St. Louis dispatch of the 10th inst., says : As a small train on the St. Louis and Kansas Northern railroad was passing a point two miles dast of Wellsville yesterday morning,"at a high rate of speed, it jumped the track. The whole train except the engine tumbled down an embankment, the cars turning bottom upward. Henry P. Darlington, Philadelphia, was cut about

the head, but not dangerously hurt. W.A. Barrow, of Boston, had a leg broken, and several others, names unknown, were more or less injured. The cause was a loose rail.

A Woman Murdered by a Woman. A private dispatch says, that Mrs. Workman, the wife of the Methodist minister,

has confessed the murder of Mrs Hedges at Euroka, Ill. She says she did it in self-defense. The general feeling is that Mrs. Workman, driven frantic by the discovery of her husband's too intimate relations with widow Hedges, in a fit of desperation misery.

13" Elizabeth J. Holter has brought suit against three liquor sellers of Mt. Pulaski, Logan County, Ill., for damages sustained by the breaking of her husband's leg while he was intoxicated.

137 At the Borden mines, near Frostburg, Allegheny county, John Langly, an employee, while being lowered down with a horse and cart, the horse becoming restless, kicked the coupling loose, and were precipitated to the bottom, one hundred and sixty-five feet. Langley was instantly killed and horribly crushed.

EF Geary Sherburne who eloped with Josephene Drew from Fisherville, N. H., last fall, was arraigned on a criminal charge in the Supreme Judicial Court at Concord, and pleaded guilty. He was sentenced to the full extent of the law, three years in the State Prison.

137 Every individual found in the streets of the cities and towns of Russia in a state of intoxication, is compelled to work at sweeping the streets during the whole of the following day. The rigor and impartiality as to nation, sex, or condition, with which this rule is carried out is worthy of imitation by many more civilized nations.

13" An individual who is described as "a graduate of the Normal School at Albany," about to be united to a young lady, at Malta, New York, entered a protest against the clause in the ceremony which makes it binding "till death to us part." He argued that he might find occasion to ask a divorce, at least, he wished not to bind his conscience with any pledge to the contrary. The minister retired in disgust, and the marriage did not take place.

Rome, April 11-The Pope is suffering from rheumatic fever and ulceration of the leg. His illness is extremely serious.

A manufactory in this city was destroyed by lightning yesterday, and forty persons were baried in the rains, five of whom were killed and seventeen wounded.
