T.—Proof-Sheets cannot be sent. Any article we accept for publication, will be properly corrected before it is published. Your other request will be granted.

Correspondents who sent us accounts of the fire at Liverpool, will please accept our thanks, and though several of their letters were received too late to be of service, their kindness was none the less appreciated.

It won't cost you a cent to look at the samples and hear prices.

"The Undeveloped West," is the title of a book shortly to be issued by the National Publishing Company, of Philadelphia. This book gives a description of the West, interspersed with many interesting anecdotes, the whole being splendidly illustrated. From the advanced sheets which we have received, it promises to be a rich treat to the reader, and a book which will meet with ready sale.

Killed.—On Monday evening of last week, Mr. Harry Graham, a freight conductor on the Pennsylvania R. R., was injured so badly while making up his train, at Harrisburg, that he shortly after died. Mr. Graham, though a Perry county man, had his family at Tyrone, but was intending to take possession of a farm in Penn twp., about two miles from Duncannon, the coming fall. The deceased leaves a wife and one child, and was an industrious and worthy young man.

Protection of the Cemetery.—David Clouser, of Bloomfield, has been appointed by the Corporation of the Bloomfield Cemetery, Sexton, Superintendent and Overseer of said Cemetery, and has also taken the oath as prescribed by the Act of Assembly of the Commonwealth, passed the 9th day of April, A. D., 1873. Thereby giving to said Sexton, &c., all the power and authority of a police officer to arrest any person or persons violating the laws, &c., in said Cemetery, and to have him, her, or them dealt with according to law. This is a notice of which persons visiting said Cemetery, will do well to regard.

Postage.—Congress at its last session passed a law which took away the privilege of sending papers free in the County in which they are printed. Consequently after the 1st of July, postage must be paid on this paper by all subscribers who receive their news through the post-office.

The "back-pay steal" and the increase of salaries made it necessary to bleed the people in every possible manner. Seven Thousand Dollar Congressmen and a Fifty Thousand Dollar President, are expensive luxuries, and the people must pay for them.

The general dissatisfaction with which this law is received however, renders it probable that it will soon be repealed, and consequently we would advise subscribers to pay for only six months, which will cost TEN CENTS.

Persons heretofore getting the paper at the Post-Office in this place, can receive it after July 1st., at such other place in town as they may designate.

Junata Valley Camp Meeting.—The time fixed for the commencement of this Camp Meeting is Tuesday, August 26, 1873, and will continue ten days.—The Junata Valley Camp Meeting Association have permanently improved and beautifully located grounds on the main line of the Pennsylvania Central Railroad, near Newton Hamilton Station. The grounds are ample, and admirably adapted to Camp Meeting purposes. There is an abundant supply of pure water, the shade is excellent and the situation healthful. For further particulars, address J. K. Rhodes, Newton Hamilton, Mifflin county, Pa.

Accident.—Monday last, as M. Jacob Tibbins was driving across the railroad track, at the crossing near Overholser's Mill, with his wife and child in the buggy, a train of cars came along, frightening a horse led by another man. The man (who was a stranger) let his horse go, when he reared up and plunged between the wheel and box of Mr. Tibbins' buggy, crushing it to the earth, and throwing its occupants out. When picked up, Mr. Tibbins was insensible, but soon came to. He complains of being bruised all over, and that a place on his back, supposed to have been struck by the horse's foot, will break open. Mrs. Tibbins and child were also hurt, but not seriously. The local freight men came to their assistance as soon as possible.—News.

Shad For Michigan.—Mr. N. W. Clark, of Charleston, Mich., a shad hatcher, came to Newport, early on Tuesday morning, with an ample supply of cans with which to transport young shad to Michigan, with which to stock some of the waters of that State. He had been to the Potomac and secured a supply, but before reaching this place, he had his cans filled with dead shad, and stopped off here to receive a new supply.—Id.

Found Dead.—On Tuesday morning last, a Mr. J. A. Mowart, of N. Y., had intended to stop at Harrisburg, but having falling asleep, it not being daylight, he was taken to Rockville, from where he returned on foot. As he was leaving the track and making preparations to descend an embankment to get on the public road he stumbled against a man whose head was laying across the rail. Further examination proved that the man was badly mutilated and life extinct. The wheels of a train of cars had evidently passed over his neck, almost severing the head from the body. The name of the deceased was W. C. Davis, an inmate of the State Lunatic hospital who had escaped from the institution a few days before. The lunatic hospital authorities had been searching for his whereabouts, had telegraphed to numerous points for tidings of him and had informed his friends of his escape. The coroner's jury rendered a verdict that the man had been killed by the last fast freight west.

Watkins Glen.—The famous Watkins Glen, located at Watkins, Schuylers Co., N. Y., which has become one of the most popular Summer Resorts in the United States, and is annually visited by tens of thousands of people from all sections of the country, will—with its two Mountain Houses—be open this season, for visitors, on or before the 1st of June. The entire Glen property has recently been purchased by John J. Lytle & Co., of Philadelphia, who have made many important improvements—nearly all the staircases, bridges and railings having been renewed—and the Glen is in a much better and safer condition than ever before. These gentlemen will personally supervise and manage the Glen, and its Summer Hotels, during the season of 1873, and spare no time or expense in endeavoring to make it an attractive and pleasant place of resort for the public.

The Watkins Glen—manifold as are its scenic charms—is by no means the only feature of interest pertaining to the romantic surroundings of the village from which it takes the name. Seneca Lake, one of the most beautiful sheets of water in the world, with magnificent views which the highlands around it afford, Hector Falls, two and a half miles north of Watkins on the east shore of the Lake, and the Havana Glen, which has been visited for several years past by great numbers of people, are well worthy the attention of tourists, and will be hailed with delight by all students and admirers of nature.

A Mixed up Case.—The Junata Republican says, some two weeks ago we noticed the fact that Gen. John Winn, of Winn's Gap, had sworn out a warrant before Barclay of Tuscarora twp., against J. English West, Sheriff Muthersbaugh and a man named Fry, of Mifflin county, charging them with arson. West and Fry were arrested, but discharged by a Mifflin county Justice, the building burned by them being in Mifflin county, consequently the Junata Justice had no jurisdiction. Since then West has had the General and two of his friends, named respectively, Washington Watts and George Hoffman, of Bratton township, arrested on a charge of conspiracy to procure an illegal arrest, and the General is further charged with perjury. The information in the latter case was made before Justice Barclay, and the persons arrested in Mifflin county were brought to Patterson. Where they entered bail for their appearance at Court, before Esquire Middagh.

Sequel.—We understand that on information made, Justice Middagh, issued a warrant for the arrest of J. E. West, Muthersbaugh and Fry for arson. It is proposed to test by this means the question, whether the line between Mifflin and Junata was run according to the Act of Assembly or not. If it was, this proceeding is wrong, but if it was not, then Winn's house was in Junata and West and party are amenable for destroying the same.

Reaper Files, Hakes, Scythes, Forks, &c., for sale by F. Mortimer.

Now is the Time.—Persons who wish to have the Duncannon, Bloomfield and Loyalville Rail Road built, should send in their subscriptions. The Directors can take no further steps until a sufficient amount has been subscribed, to guarantee the completion of the grading. Those who have subscribed, should urge their neighbors who have not yet done so, to send in their subscriptions at once. The sooner that is done, the sooner the work will be commenced. See advertisement regarding subscription blanks in another column.

Sad.—Several days since we published an account of Mr. Samuel Coffin of this place, having lost three children within ten days, and that the remaining one, was lying in a precarious condition. Since that time the last one has died with the same disease (the rash) and was buried yesterday. The entire community sympathize with the afflicted parents.—Sunbury Express.

Cumberland County.—From the Cumberland County papers of last week, we copy the following:

A gentleman named Means, from Middle-spring, was severely hurt by being kicked on the head by a horse, at the conclusion of the decoration ceremonies in Shippensburg, on the 31st ult. His injuries are not serious.

The Carlisle District M. E. campmeeting for this year will be held on the grounds of the Cumberland Valley Camp Meeting Association, near Oakville, commencing on Wednesday, August 13th, and closing on Friday, August 22d.

Hon. Lemuel Todd, a Congressman-at-large for this State, having the privilege of appointing a Cadet to the Naval Academy at Annapolis, named his youngest son, W. L. Todd, for the position. Young Todd is an intelligent lad, and we doubt not will pass the necessary examination.

Near Lykens, a few days ago, a small child was bitten in the hand by a copper-head snake four times. The reptile clung to its victim until forcibly compelled to let go its hold. The virus of the snake ran up the child's arm, across the breast and to the pit of the other arm, where an ugly wound was created, from which the poison was discharged.
