The Bloomfield Gimes.

Tuesday, July 1, 1873. LOCAL DEPARTMENT.

"Notices of Marriages and Deaths not exceeding un lines, will be inserted free, and friends throughout a county are requested to send such notices in. 18" Tributes of Respect, Poetry, he., will invariably be charged for at the rate of Five cents per line.

Duncannon, Bloomfield & Loysville R. R.

THIS Company now being duly organized is prepared to receive subscriptions to the Cap-tal Stock. Subscription blanks can be had at the Perry County Bank, or of either of the officers of the Company at Bioomfield, or of W. R. Swartz, at Duncannon. Mr. James Mellhenny has also been appointed an Agent for receiving Subscrip-tions. The Directors of the Company urge upon the ottom so that the work of grading the road can be commenced this season. The Construct, WM. A. SponsLER, Necretary, Treasurer, Bioomfield, May 27, 1873.

Bloomfield, May 27, 1873.

Wanted .- Local agents are wanted to sell the Singer Sewing Machine, in each of the following places. Buncannon, New-Buffalo, Liverpool, Millerstown & Marys-ville. To good men who will give the work proper attention, liberal inducements will be given. Apply to F. Mortimer, New Bloomfield, who is general agent for Perry county.

Will be Closed .- The stores in Bloomfield and Newport, will be closed on the 4th of July. No back door business is to be done either, so do your shopping on Thursday.

Stay Away Then .-- An Exchange says "Pocket-picking was carried on briskly at Westminster on the recent visit of Howe's Circus to that place. Upwards of fifty gentlemen (says a Westminster paper) were relieved of their watches, some of them valuable gold ones, whilst pocketbooks innumerable were abstracted from the pockets of their owners." The best way to prevent any such trouble, is to stay away and spend your money for something that has some value to it. A circus is a curse to any community which it visits, and takes from every county hundreds of dollars, for which it leaves no equivalent.

Fell Dead .-- An unknown man, supposed to be from Butler county or Philadelphia, aged about sixty-nine years, fell dead while eating at the Empire House, Harrisburg, Pa., on the morning of the 23rd ult. On his person was found over \$112. The following dispatch was the only paper found on him:

West Philadelphia, June 23, 1873.—Al-ice Graham, Poplar street, Allegheny City, Pa.:—Be sure to meet father at the depot; will leave to-night on 7:80 train—in bad condition. "NANCY."

Later-The name of the deceased was John Graham and his residence about fifteen miles from the town of Butler, Butler county, Pa.

A Singular Accident.-- A son of Mr. Wolf, residing near Annville, Lebanon co., Pa., aged about 20 years, came to his death on the 22d ult., under the following circumstances: He had been away during the early part of the day, and upon returning home found there was no hay in the barn for the horses. Some being cut in a field near by, he concluded to bring some in on a wheelbarrow. While young Wolf was coming out of the field a comrade of his came driving along. The young man started on a run after him, with the barrow, which struck some obstacle, causing

Cut this out and Keep it .- Franklin Dyre, a highly respectable and intelligent farmer, of Galena, Kent county, Maryland, gives the following as a sure cure for the bite of a mad dog. As will be seen he has tested it, with the most gratifying results: Elecampane is a plant well known to most persons, and is to be found in many gardens. Immediately after being bitten take one and a half ounces of the root of the plant-the green roots are preferable,

but the dried will answer, and will be found in our drug stores, and was used by meslice or bruise, put into a pint of fresh milk, boil down to a half pint, strain and when cold drink it, fasting at least six hours afterward. The next morning repeat the dose, fasting, using two ounces of the root. On the 3rd morning, take a third dose, prepared as the last, and this will be sufficient. It is recommended that after each dose nothing be eaten for at least six hours.

I have a son who was bitten by a mad dog eighteen years ago, and four other children in the neighborhood were also bitten; they took the above dose. I have known a number of others who were bitten and applied the same remedy.

This is the season for the free use of disinfectants. A few pounds of copperas, that will cost but a trifle, dissolved in water and cast into a cesspool, will immediately remove a great portion of its offensiveness, while chloride of lime freely used in cellars and other places where there is a likelihood of decaying matter of any kind will do much to destroy the impure atmosphere resulting.

Driven to Death .- A man named John Strouse, was arrested and lodged in jail last week, charged with driving to death a horse belonging to John Ernest of Millerstown.

> For The Bloomfield Times. Jackson twp., June 24, 1874.

X Jackson twp., June 24, 1874. Mr. Editor — News is pretty scarce in this part of the county, and so I suppose you must abide with what we have. There have been some improvements during the past year in our town and the neighbor-hood round about. In town, Wm. Mum-per, one of our blacksmith's, has erected a large dwelling house. Henry Prooth has also erected a fine house. Calvin B. Hench intends to erect a house this summer, next to Mumper's and Prooth's. Near town, G. W. Garber has put up a very large barn.— Geo. W. Trostle has put a large end to his barn, and has made other improvements on on his farm. A. B. Grosh and Wm. Woods of this place have erected splendid barns on their farms in Madison township. We have very dry weather here at pres-

on their farms in Madison township. We have very dry weather here at pres-ent, (no wonder ! license has gone down, and the fellows get pretty dry.) The rain on Tuesday did bot do much good; there was not enough of it. The wheat crop in the upper end promises to be very good.— Oats are short. Corn is pretty good. JACKSON CORRESPONDENT.

Cumberland County .-- From the Cumberland County papers of last week, we copy the following :

On Monday night last about 12 o'clock, Charles Taylor, cabinet-maker, was serious-ly shot in the neck, at his shop, on East Pomfret street. It appears that a young man named Robert Harlan, and another named Alex. Wolf, had a quarrel some time ago, and Harlan determined to have time ago, and Harlan determined to have revenge. He accordingly visited Taylor's shop on the above night, where Wolf had been sleeping, and called for Wolf, when Taylor (who had also been sleeping,) got up and came out of the shop door, when Harlan drew a revolver and fired, the ball entering Taylor's neck, almost severing the wind-pipe. At this writing the ball has not been extracted, and the sufferer is in a very critical condition. Officers Lytle and Mathews arrested Harlan on Tuesday morning, and after a hearing before Justice Smith, he was committed to jail. Taylor recognizes Harlan as the man who shot him. It is generally believed that Taylor was shot through mistake. His physician did not consider the wound fatal on Wed-nesday morning, unless mortification should ig Taylo nesday morning, unless mortification should take place, in which event it would be im-possible for him to recover. While a Mr. Kissinger, of Milltown, Cumberland county, was driving through the Main street of Mechanicsburg Friday, his horse became frightened from some cause and ran against the iron-work in front of Messrs, Brindle & Neiswanger's store, pitching the driver out upon the curb-stone and severely injuring his head and arms. One of the broken shafts of the vehicle rau into the horse's shoulder, and to such a depth that when pulled out the blood followed in a perfect stream. The affair caused another horse near by to run away with a top-buggy, but without serious damage. The injured man was serious damage. The conveyed to his home. The Commencement exercises of Dickinson College opened with great interest and an unusual attendance of visitors. The an unusual attendance of visitors. The sermon by Dr. Hamilin on Sunday morning was one of great power, and was ably fol-lowed by the baccalsureate of President M'Cauley. The lecture before the scientific society, on Saturday evening, by Professor Himes, was brilliantly illustrated. Col. A. K. McClure delivered an address to the literary societies. literary societies.

Lykens Items .- A correspondent from Lykens sends the following:

On Wednesday of last week two men by the names of John Tomas, and Morris Davis, were burned at the Big Lick Col-liery, so badly that they both died on Fri-day. The funerals which took place on Sunday were attended by a large conceause of people.

of people. This, Friday morning as rather an efflerly man was in the act of jumping on the moving accommodation train, he lost his hold, and had his foot crushed, and leg

broken. His recovery is doubtful. The collieries of Wiconisco are still at a stand still. Quite a number of the men are leaving the place; to seek employment elsewhere. Times are dull on account of the works not going.

Burglarious Attempt. - On last Thursday night, about midnight, the residence of Mr. Jos. E. Jackson, in this place, was entered (evidently through an unfastened window) by some unknown person or persons, no doubt with the intention of of committing a robbery, but whose intentions were frustrated by the sudden appearance of a watch dog belonging to the premises, whose barking awakened the family and hastened the thief's retreat. Fragments of burnt paper found on the floor of the room the next morning showed the kind of light used in search of plunder .- Duncannon Record.

The Colorado Potato Bug.-The Altoona Tribune of the 24th ult., mays this pest has' made its appearance in nearly every section of this and surrounding counties, and is reported to be working incalculable damage to the growing potato crop. A correspondent suggests the following as a reliable cure for the evil complained of :

cure for the evil complained of : Take one-half bushel of land plaster and one-fourth pound Paris Green, mix thor-oughly and dust on with the hand lightly over the plants. It will clear them all off in a few hours, and it does not hurt the potatoes, nor is it hard to do. I think it is not dangerous, as I have applied it to all of mine and felt no inconvenience from it. Three bushels of plaster and one and a half pounds Paris Green will do one acre, and a man will apply it in half a day. The Paris Green must be good or it will not do—cast on a bug before mixing. If good it will kill him in less than a minute.
