The Directors of the Company urge upon the ctizens of the County, the importance of prompt action so that the work of grading the road can be commenced this season.

F. Monrian, President.

J. T. McIstine, WM. A. Sponsier, Secretary.

Secretary. Bloomfield, May 27, 1873.

Bass .- A seven pound black bass was caught in the Susquehauna, near Harrisburg, on Thursday last. Messrs. Cromleigh and Mutzabaugh, of Duncannon, also caught several fine ones last week, near the Junction, some of which weighed over four pounds each, and Mr. John Hood caught some weighing over three pounds.

An Accident,-On Saturday last as Rev. Mr. Crawford was driving along in Juniata twp., accompanied by his wife, his horse stumbled and fell, throwing out both occupants and breaking the shaft and dasher of the buggy. Mr. Crawford escaped all injuries, but his wife was not quite so fortunate though her injuries were slight.

Arm Broken .- On Tuesday morning, while a son of Mrs. L. Shearer, a lad of about eight years, residing in Duncannon was playing with some companions in front of the new school building, he attempted to jump from the top of the lime house, but his foot caught in a shingle, and he fell to the ground, breaking one of his arms above the wrist. Dr. Swartz adjusted the fracture and the lad is doing well.

Lots of Hats.-County merchats wanting a good assortment of Hats and Caps to select from, will do well to call on Messrs Barnes, Brother & Herron, 503 Market St,. Philadelphia. They will find Mr. D. Port Beale so well and favorably known to the merchants in this and Juniata county, prepared to show them through the stock and ready to give his personal attention to the filling of their orders.

Badly Injured.—On Tuesday, a little five-year old daughter of Mr. Wm. Mc-Murray, while on the veranda of the National House, by some means or other fell over the railing down upon the ground, striking her forehead on a sharp stone inflicting a severe wound and producing a slight concussion of the brain. Although the child's injury is dangerous, still it is not considered fatal, and the attending physician has hopes of her early recovery. -Duncannon Record.

A Foolish Brakeman .- Sometime during Monday afternoon a brakesman named Lindsey, in the employ of the Pennsylvania railroad company, jumped upon an engine standing on the track in the yards of the above company, and began to "fool" with the throttle valve. The engine got away The crop is good. with him, running up the track and col liding with another engine, at or near the stock yards, doing great damage to both machines. The stupid fellow after the mischief was done, leaped off the engine and hid in a corn field.

The company will probably dispense with

his services in future.

About School Teaching .- One of our city contemporaries has an item about school teaching, and mentions that an irate father, in its locality does not approve of the system in vogue. He declares that it is making candidates for the insane asylum, and piling up a heap of misery in many forms. He desires that there should be reasonable flogging in schools, beginning with the teachers. One thing which especially rouses his wrath is the way in which tired parents are forced to teach their sleepy children, during the evening, the lessons which they go to school the next day merely to recite. He demurs, and with reason, at doing the mental drudgery for which he liberally pays others who are purposely fitted for it. Parents are complaining bitterly of the studying at home to which their children are forced, on pain of falling below their classes. No father wants to teach school during his leisure hours, and no child should be compelled to spend so much of the day in brainwork. Fewer studies and strict discipline in the schools would make sufficient time for memorizing of lessons at the desk. It is the great fault of our school system that it demands that children should occupy themselves with more studies at one time than they are able intellectually to master. They are crowded ahead too fast. They should have a reasonable amount of time for recreation. This subject is worthy of serious thought by parents and teachers

If you want a neat Card, Bill-head, Letter-head, or Job Printing of any description, call at the "TIMES" office.

Railway Wreck,—The Cincinnati express train westward bound yesterday morning was detained several hours, and was running on the time of the Southern express train. In the vicinity of the Tyrone Forges the engine liauling the latter train ran into the rear end of the former and demolished several sleeping coaches. The engine of the Southern express train was also disabled. Previous to the ruin a fireman named Stonebraker, and a brakeman named Bowers, jumped from the engine and sustained several severe bruises. But one of the passengers on board the Cincinnati express train was slightly injured. The wreck caused a detention of several hours to both trains .- Altoona Tribune of Thursday.

Cumberland County .- From the Cumperland county papers of last week, we copy the following :-

The Day Express train west on Monday evening killed a valuable young horse be-longing to Mr. Wm. Heberlig, about a mile east of Oakville.

On Saturday last, while Mr. R. H. Middleton, of Newtown, was taking a drive up the Spring road in a sulky, he came in contact with a furnace team, by which his sulky was broken, he thrown out, his collar bone broken, and otherwise badly bruised.

A son of Mr. George Strohm, blacksmith while fishing under the water-wheel, at the town mill, on Monday last, was struck on one of his feet by a crow-bar falling down, which had been standing near the water wheel. The lad had one of his toes cut entirely off, and one or two of the others mashed.

Street services were held on last Sabbath at the corner of West and South streets, Carlisle. Quite a large audience was present, who took an interesting part in the services. Addresses were delivered by Rev. J. W. Smiley, Rev. J. B. Soule and John Miller. Services will be held next Sabbath on the corner of Louther and Bedford streets, commencing at 6 o'clock.

A horse attached to a new spring wagon belonging to Joseph Schraudenbach, baker, frightened while standing in front of his residence on Friday morning last, and dashed off up Bedford street at a furious rate of speed. When about mid-way between North and Louther streets the wagon struck a large tree and was demolished. At this point the horse freed himself from the wagon and continued his flight up Bedford to Main, and up Main to a small alley which leads to the stable of Lewis Zitzer, where he was caught.

That Favorite Home Remedy,

# AIN-KILLER

Has been before the public over Thirty Years, and probably has a wider and better reputation than any other proprietary medicine of the present day. At this period there are but few unacquainted with the merits of the PAIN-KILLER; but, while some extol it as a liniment, they know but little of its power in easing pain when taken internally; while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all, that it is equally successful, whether used internally or externally. It is sufficient evidence of its virtues as a standard medicine to know that it is now used in all parts of the world, and that its sale is constantly increasing. No curative agent has had such a wide spread sale or given such universal satisfac-

DAVIS' PAIN-KILLER is a purely vegeta-ble compound, prepared from the best and purest materials, and with a care that insures the most perfect uniformity in the medicine; and while it is a most effective remedy for pain, it is a perfectly safe medicine, even in the most unskilful hands.

It is a perfectly sate medicine, even in the most unskilfal hands.

It is eminently a FAMILY MEDICINE; and by being kept ready for immediate resort, will save many an hour of suffering, and many a dollar in time and doctor's bills.

After over thirty years' trial, it is still receiving the most unqualified testimonials to its virtues, from persons of the highest character and responsibility. Eminent Physicians commend it as a most effectual preparation for the extuction of pain. It is not only the best remedy ever known for Bruises, Cuts, Burns, &c., but for the Dysentery, or Cholera, or any sort of bowel complaint, it is a remedy unsurpassed for efficiency, and rapidity of action. In the great cities of India, and other hot climates, it has become the standard medicine for all such complaints, and other kindred disorders. For complaints, and other kindred disorders. For Coughs and Colds, Canker, Asthma, and Rheu-matic difficulties, it has been proved by the most abundant and convincing testimony to be

an invaluable medicine.

We would caution the public against all imitations of our preparation, either in name, or style of putting up. September 16, 1873—1m
