# ELECTIONS.

In this State the Republicans have elected the State Treasurer by about 35,000 majority, and the Judge of the Supreme Court by about 35,000. The result as to the local candidates throughout the whole state has developed the fact that voters have refused to be bound by caucus nominations in the choice of these offices. OHIO.

From Ohio the returns come in slowly and are as yet of a very unsatisfactory character, and it is impossible to state definitely who will be the next Governor. The Democratic State Committee, from their returns received from eighty-two counties official, and guesses as to the other counties, now claim Allen's election by 869 majority. There is considerable doubt as to the balance of the ticket, but the chairman of the Democratic Committee is of opinion that the Democrats have also elected the State ticket, with the exception of White for Supreme Judge and Wilson for Comptroller. They also claim sixteen on joint ballot in the General Assembly. The Republicans do not give up as yet, and claim that nothing but full official returns can definitely decide the question as to who is elected.

#### IOWA.

The Republican State Central Committee says that in sixty-six counties heard from Governor Carpenter has a net majority of 12,417. In the same counties last year Grant had a majority of 43,000. The counties yet to be heard from will undoubtedly increase Carpenter's majority not less than 6,000.

CALIFORNIA.

In California the tickets have bee scratched beyond all precedent and it probable that McKinstry, independent can didate for Supreme Judge, is elected h about 5,000 majority. These figures wi not be materially changed by the return to come in.

## A Kansas Elopement.

A few days ago the citizens of Brashear, were startled by the rumor that the wife of a well-known Baptist preacher had gone to Texas with her husband's hired man. She had previously bore a good reputation, had lived with her husband fifteen years, and was the mother of three children, aged, respectively thirteen, six and four years.

Her husband became aware that all was not right, and a few months ago paid off and dismissed the man who was the cause of his domestic unhappiness ; and he went, but only to a place near by, where he procured a new wagon. Then he bought a horse of his former employer, and with another horse, procured somewhere else, he rigged an outfit for Texas, as he said. When he was all ready the lady coolly informed her husband that she loved George better than himself or children, and that she was going with him.

The husband remonstrated, and told her that when the reaction came, which surely would come, she would be most miserable ; but nothing would induce her to be separated from George. She thrust away her little children who clung about her neck, and her husband with a heavy heart, divided his household goods with her, giving her and her paramour half of such things as they could carry with them.

He also told her that she could take some books from his library if she chose. She took only her Bible and hymn book. Her husband expressed the hope that she might read the Bible and profit thereby.

At 10 o'clock, or thereabouts, in the darkness of the night, the eloping pair started off, piously requesting the deserted husband to pray that they might have a safe and prosperous journey.

# Western Arithmetic.

#### A man from Illinois came over to Fort Madison the other day with sweet potatoes to sell. His early education had been somewhat defective in arithmetic, for he offered to sell his entire wagon load at 60 cents per half bushel, or \$2 per bushel. Baskets and sacks were begged or borrowed, and every one was buying potatoes at 60 cents per half bushel. The man did not see it until the last half bushel was sold. He persisted in selling at 60 cents per half bushel, thinking doubtless that there were four half bushels in a bushel. Another

He offered \$1.96 a bushel for the whole load, in order to sell again, but was refused. When the man saw his blunder, he held up both hands and exclaimed, "Oh ! thunder !"

## A Collision.

On Monday evening about twenty-two cars became detached from an empty coal train on its way to Camden, between Evaul's station, near the Fish House, and Palmyra, and were left standing on the track, unknown to the conductor and engineer, who continued on with the balance of the cars to the junction, where the train usually goes on a turnout to allow the 3:45 train from New York to pass. There being no light on the cars left standing on the track, and no one to give a signal of danger, when the New York train came up at its usual speed, it collided with them, causing a frightful crash. The fireman, Thomas F. Osler, was almost instantly killed, his thigh being crushed and broken, and he was so severely scalded that the skin and flesh on some portions of his body fell off. Deceased was about twenty-six years of age, and had been in the employ of the Camdeu and Amboy Company nine years.

## Bank Robbery.

The First National bank of Anthens, Pa., was robbed last Monday by five men who seized and bound the cashier. Twenty thousand dollars were taken, mostly special deposits. While the cashier was working at his desk about 10:30 p. m. five men came in and gagged and handcuffed him. The vault doors and inner safe being open, the robbers secured everything that was therein and escaped. The cashier was found on the floor of the back office at six o'clock next morning not hurt, but in a state of nervous exhaustion.

137" Last Tuesday afternoon, the residents on Tiffany place, Brooklyn, were startled by a loud crash, occasioned by the falling out of the wall of a large storehouse No. 43. The accident was attributed to the rotteness of a beam supporting the first floer, upon which was stored a quantity of soda in casks, owned by Moses & Taylor. The walls of the first and second floors came down, carrying the beams with them and also bringing down the Southern wall. The roof is now only supported by the end and northern wall. Damage, \$6,000.

137 Up in Monroe county there is a man seventy-four years old, who has never taken a paper in his life, because he was too stingy to pay for one. His hogs don't know enough to grunt when they are hungry; his dog jump ed into the river and was drowned because he did't know enough to swim out, and only week before last his horse got out of the barn, went to a saw mill close by, and, mistaking the sawdust for bran, ate two busheis.
