Sudden Death .- The citizens of Landisburg were surprised on Friday morning to learn of the sudden death of Mr. George Simons, who resided with his son in that borough. Mr. Simons had not been very well, but was not supposed to be in any, danger and, on Tuesday night the family retired with the understanding that if he needed anything he should call. About 2 or 3 o'clock his grand-daughter awoke and went in to see how he was or if he needed any thing, and was shocked to find him dead. The deceased was a soldier of the war of 1812, and was aged about 78 years.

Another.-On Friday morning a week, John Ensloe, an aged citizen of Granville twp., Mifflin county, on G. W. Soult's farm, remarked to his daughter that he would go out and feed the pigs. Staying rather longer than usual, the daughter went to look for him, and found him lying dead. He had been subject to heart disease, and it is supposed it was that disease that caused his death.

Found Dead .- On Monday morning the 6th inst., Mr. John Warren, of Memallen township, Adams county, a respectable farmer, aged 73 years, went to chop wood on a clearing for the Pine Grove Iron Works. Not returning at night, the family became uneasy, and next morning, his son went in search of the father, and was horrified to find that he had been killed by a falling tree. The body was found lying over a stump, face downwards, with a tree lying across his neck and pressing the face on the ground. There was also a deep gash on the forehead. The accident must have occurred early on Monday morning, as Mr. Warren had cut but little timber.

Badly Hurt .- On Monday a week, Mr. Chas. G. Seifert, formerly a resident of Sterretts Gap, this county, met with a severe accident. He was employed on the N. C. R. R., as brakeman, and when the train he was on, was near Bentley Springs, it collided with a coal train wrecking many of the cars, and breaking one rib for Mr. S., and spraining his left leg and hip, and dislocating his wrist. He also received several cuts and bruises, but is now recovering as rapidly as could be expected.

Fell Through a Bridge.-An old man, who works in the rolling mill, fell through the railroad bridge that spans the Little Juniata at the foot of Main street, Duncannon, on Sunday evening last. He was picked up and carried to his boarding-place ensible condition We un that he was pretty badly hurt, but did not learn either his name or the full extent of of his injuries .- Duncannon Record.

Strange Accident.—The Harrisburg Patriot of the 15th inst., says : "Yesterday afternoon Jacob Fleck, who resides on Third and Foster streets, was found lying near the wheels of a buggy in Montgomery's stable yard, Elder street, in an insensible condition. Attached to the vehicle was a horse with which Mr. Fleck had returned from the Harrisburg driving park, where he had been a short time before. Last evening he complained of a severe pain in the head and breast, as if bruised, but could not tell how he received the hurt. He remembered nothing from the time he left the driving park until he arrived at the place where he was found and thinks he was unconscious all the time. Neither did he recollect having fallen off his buggy, but it was evident that he had done so. Mr. Fleck was injured in the head on the railroad a few days ago and he is under the impression that through the effects of the accident he was seized with a fit yesterday.

Important Decision.-We understand that the County Court last week decided a point that particularly interests the auctioneer, the bidder, and the person making public sale. The case was this: A farm was "knocked down" to a bidder, who afterwards refused to comply with the terms because no one but the auctioneer bid against him. The case was taken into Court ; the auctioneer being a witness, textified that the purchaser's statement was correct, and the court declared the sale a frandulent one and not valid. The substance of this decision is, in plain words, that an auctioneer has no right to "run up" on a bidder simply to make a good sale. Let all take warning.-Banner of

County Election. The returns as they are given in another column, show an amount of "scratching" and "bolting" that surprises the old party hacks, and makes them tremble as they see they are losing control of the people. The day has gone by when voters will be forced blindly to the support of men for office regardless of their qualifications, merely because it is a party nomination. They are beginning to claim the rights which belongs to Freemen-the right to vote as they see fit even if the party politicians, who like to style themselves party leaders, do threaten them with excommunication. Not only in this county, but all through the State, the candidates for local offices, have been subjected to an unprecented "scratching," which will have the tendency to allay the itching for office, which effects politicians. In this county those who did not like to "bolt" the regular nominattions signified their disapproval of the ticket by staying away, as will be seen by compairing the vote for governor in 1872, with the vote cast this year.

The effect of the recent election will be, we hope to show nominating conventions the importance of selecting good men for all the offices and not to weigh down a ticket with one poor candidate with the expectation that the rest of the ticket will carry him through.

Conventions will see from the action of the people that a nomination even in a strong partizian district will not always insure an election of their candidate, as is proven by the probable election of Hon. A. H. Dill, as Senator, while his political opponents have a majority of over 1300 in this district. This fact is still further shown by the election of a Democratic Sheriff and Treasurer in the strong Republican county of Lebanon, and the election of a Democratic Sheriff in Lawrence county, while the Republican candidates on the state and judicial tickets have about 1000

Don't Do It .- A circular is largely distributed through the country advising merchants to send currency in payment of bills instead of checks. This is a very poor advice and we trust our merchants will send checks and make their deposits at home as usual. Our bank is perfectly sound, and pays their checks promptly on presentation and has done it all the time. The city banks are the ones who are holding currency while the country banks are trying to keep it in circulation. By your action you can help them do itnd break up the combination which has been entered into by the city banks to deplete the country of money. In order to carry out this design some of the city banks refuse to receive country cheeks for collection, and hope by this means to force the shipment of currency. Instead of doing as they desire, a much better way will be to cease dealing with any house who refuses to take a check on any sound country bank, as there are plenty of good houses who will take them. But by all means don't take the advice given or the circular referred to given on the circular referred to.

A Rumpus.- In the barnyard of Rev. R. M'Cachran a rather curious scene was witnessed one day last week. A full grown pheasanthen suddenly made its appearance alighting among the chickens. Thinking it was a visit from their ever-watchful enemy, the hawk, a general squawking and seeking places of safety took place among the fowls. This applied to all except one old hen with chickens, who immediately charged on the innocent pheasant, clutching it and pulling feathers out of it in the most hen-like manner, the pheasant all the time endeavoring to seek safety among the now thoroughly affrighted chickens includ-ing the rooster. The bird after several vain attempts to excite a more hospitable recep-tion, only increased the sensation, and re-tired in disgust. Mr. Oliver, who saw the performance, said an active boy could have caught the pheasant, such an indisposition to leave did it show. Where it came from or what caused it to seek such an acquaintance is a mystery .- Newville Star.

Cumberland County.-From the Cumberland county papers of last week we copy the following :

Sometime during Wednesday night, the dwelling house belonging to Mr. Joseph-Wingert, about one mile west of Middle spring, was completely destroyed by fire together with the greater portion of the furniture. From what we learn the family was not aware that the house was on fire until aroused by some of the neighbors, at which time the fire had reached the bed-room where some of the occupants were askeep. The escape from a horrible death was very narrow.

A large barn, belonging to Mr. John Spotts, situated in South Middleton town-ship, near where the Letort Spring rises, was discovered to be on fire on Thursday was discovered to be on the on Thursday, night last, and before assistance could be rendered the building was consumed. Mr. S. succeeded in removing his stock and most of the farming utensils in safety. His loss is partly covered by insurance.

A large barn belonging to Mr. Samuel Hoover, of Orrstown, was burned on Friday night last. A quantity of wheat and some farming implements were consumed with the building. The fire originated from a small boy with matches.

The employees of Gardner & Co's Ma-chine Works and also of the Shoe Factory in this place, have been put on the eight hour time.

TO THE PUBLIC!

THE PAIN - KILLER manufactured by PERRY DAVIS & SON has won for itself a reputation unsurpassed in medical preparations. The universality of the demand for the Pain-Killer is a novel, interesting, and surprising feature in the history of this medicine .-The Pain-Killer is now regularly sold in large and steadily increasing quantities, not only to general agents in every State and Territory of the Union, and every Province in British America, but to Buenos Ayres, Brazil, Uraguay, Peru, Chili, and other South American States, to the Sandwhich Islands; to England and Continental Europe; to Mozambique, Madagascar, Zanzibar and other African lands; to Australia and Calcuttta, Rangoon and other places in India. It has also been sent to China, and we doubt if there is any foreign port or any city In Africa or Asia, which is frequented by American and European missionaries, travelers or traders, into which the Pain-Killer has not been

The extent of its usefulness is another great feature of this remarkable medicine. It is not only the best thing ever known, as everybody will confess, for bruises, cuts, burns, &c., but for dysentery or cholera, or any sort of bowel complaint, it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of British India and the West India Islands and other hot climates, it has become the standard medicine for all such complaints, as well as dyspepsia, liver complaints, and other kindred disorders. For coughs and colds, canker, asthma, and rheumatic difficulties it has been proved by the most abundant and convincing trials and testimouy, to be an invaluable medicine. The proprietors are in possession of letters from persons of the highest charac ter and responsibility, testifying in unequivoes terms to the cures effected and the satisfactor results produced, in an endless variety of case by the use of this great medicine.
