

The Bloomfield Times.

NEW BLOOMFIELD, PENN'A.

Tuesday, November 11, 1873.

Notice to Subscribers.

Subscribers to THE TIMES who wish some other publication and chomo, can have either of the following at the price mentioned:

Peterson's Magazine for 1874 and The Times, for \$2.75.

The People's Journal, with an engraving 13 x 19 inches (see advertisement) and The Times, for \$2.00.

Wood's Household Magazine and the splendid chromo, YO SEMITE, and The Times, for \$2.25.

All the above Magazines are monthly publications.

At the recent election in Iowa nearly every county Treasurer was defeated for re-election, and many of them seem to be terribly alarmed at the general overhauling of books that must follow.

It seems to be the general impression that there will be no repeal of the congressional salary bill. As congress is now mostly composed of place hunters and politicians, instead of statesmen, their motto is, "hold on to all you get, and get hold of all you can."

Elections.

The following may be summed up as the result of the elections held last Tuesday.

In New York the Democrats had a majority in the State of about 20,000, and have elected enough members of the Legislature to make the Republican majority quite small.

Wisconsin has also been carried by the Democrats, who elected the governor and a working majority in the legislature.

Massachusetts elects the Republican governor by about 13,000 majority. General Banks who run as independent candidate for the Senate, beat his opponent and is elected.

In Virginia, the Conservative ticket is generally elected.

In New Jersey, the Legislature on joint ballot will be Republican by a majority of 11.

In Minnesota, the Republican ticket is elected with the exception of State Treasurer, for which office the Farmers' ticket was probably successful.

In Kansas, returns from 87 districts give the Republicans 26 members and the opposition 61. In the Senate the Republicans have a majority of 20, but on a joint ballot the opponents have a majority of 20 or 23 votes.

In Maryland, the Democrats were generally successful and have a majority in the State of about 20,000, and in the Legislature will have a majority on joint ballot of over 50.

The New Constitution.

The Convention after a year's labor offer to the citizens of the State the result of their deliberations. While not what we had a right to expect from the time spent there are some exceedingly good points. The whole however has to be voted on, either for or against, and consequently voters must decide whether they think the good outweighs the defects.

THE LEGISLATURE.

The House is to consist of not less than two hundred members, and the Senate of fifty members. The sessions are to be Biennial instead of Annual as at present. Members are to serve two years and Senators four, and are to receive a fixed salary not to be changed during the term for which they are elected, and shall receive no additional pay for serving on committees. Each county shall be entitled to at least one member, and additional members for each seventeen thousand of a population. Every bill passed must be read three times, one day to intervene between each reading, and the final vote must be taken by yeas and nays which must be recorded. Most special legislation is prohibited, and local or special bills not prohibited must be advertised in the locality affected, for thirty days, previous to the introduction of the bill. Another section prohibits investment of trust funds by executors, administrators and guardians in bonds and stocks of any private corporation.

THE EXECUTIVE.

The term for which the Governor shall serve is increased to 4 years, and he is inel-

igible to re-election for the succeeding term. A Lieutenant Governor is provided for, subject to the same provisions, who shall be president of the Senate. The Governor has the power to veto any bill and may veto any part of an appropriation bill, and approve the balance. This is a very good provision.

A Secretary of Internal affairs to serve four years, an Auditor General for three years, and a State Treasurer for two years is also provided for, the two latter not to be elected for two consecutive terms.

THE JUDICIARY.

The Supreme Court will be increased from five to seven judges, whose term of office will be twenty-one years instead of fifteen years. They are not eligible to re-election.

Provisions are made that all cases of felonious homicide and other criminal matters provided for by law may be removed to the Supreme Court for review.

Parties, by agreement filed, may in any civil case dispense with trial by jury, and submit the case for the decision of the court. Counties containing 40,000 inhabitants will constitute a separate judicial district. The judges are required to audit and settle administrators' and decedents' accounts free of cost to the parties.

Whenever two judges of the Supreme Court are to be chosen for the same term of service, each voter shall vote for one only; and when three are chosen, he shall vote for no more than two, and candidates highest in vote shall be declared elected.

SUFFRAGE AND ELECTION.

The general election is to be changed from the second Tuesday in October to the first Tuesday in November.

The local election is to be held on the third Tuesday of February, at which the city, ward, borough and township officers are to be elected. The article requires a residence of each voter of at least two months in the district to entitle him to a vote, and in the case of foreigners they must be citizens of the United States for one month to entitle them to the elective franchise. Every ballot shall be numbered and recorded on the list of voters opposite the name of the elector.

TAXATION AND FINANCE.

This article requires that all taxation shall be uniform upon the same class of subjects, and shall be levied and collected under general laws.

It provides that the legislature shall continue and maintain the sinking fund, pay the interest of the public debt, and annually reduce the principal not less than \$250,000. It prohibits the use of the sinking fund for any other purpose. It declares the making of capital out of the public moneys by any of the officers of the State or member of the general assembly a criminal offence.

EDUCATION.

The legislature is required to maintain a thorough and efficient system of public schools, and appropriate \$1,000,000 annually for that purpose. Women over twenty-one years of age are eligible for any office under the school laws.

COUNTY OFFICES.

County officers are to be salaried, and the fees which they are authorized to receive shall be paid into the state or county treasury. Provisions are made for the election of three county commissioners and three auditors on the limited vote system, giving the minority a representation in each board.

RAILROADS AND CANALS.

This article authorizes any association or corporation to organize for the purpose of constructing and operating a railroad or canal between any points in this state. It prohibits railroad and canal companies from making any undue or unreasonable discrimination in freight in the same direction to an amount not exceeding the charge to a more distant station.

It also prohibits the consolidations of railroads and canals with competing lines by lease or otherwise, and will not allow any company doing the business of a common carrier to engage in any other business, or hold or to acquire lands.

No officer of any railroad or canal company shall furnish materials or supplies for such company; and no company shall make any discrimination in charges or facilities between transportation companies and individuals. No free passes shall be granted except to officers and employees of such company, and no passenger railway in any city shall extend or construct their road without the consent of the local authorities.

Philip B. Harvard, of Jamaica, was shot and instantly killed last week, by one of two men who were gunning on his land. It is supposed that, seeing them trespassing on his property, he ordered them to leave, as his wife saw him from the house talking to them, when one raised his gun, took deliberate aim at Harvard, and fired twice. The men escaped in a wagon. Mrs. Harvard ran to her husband, but he was dead. James Lennon has been arrested for the murder.

The Hudson county, N. J., Grand Jury have presented the Police Commissioners of Jersey City and Hoboken for failure to close the liquor saloons on Sundays, and the newsmen who sell immoral sheets published in New York.

Wade, the Murderer.

Probably the hardest specimen of humanity, was Wade, the murderer of the McBride family, who was hung at Williamsport, on Thursday last. The Sheriff made a botch of the execution, the rope slipped the first time, dropping the criminal to the ground, necessitating the hanging of him the second time. Perhaps as he committed two murders, the Sheriff thought he ought to be hung twice. On the Monday night preceding the execution the officer on watch imagined that there was something peculiar in the appearance of the iron collar around Wade's neck, and he took occasion to engage Wade in conversation, and looked sharply, when he was confirmed in his impression by finding that the collar had been filed entirely through, being in such a condition that it could at any time be removed with ease. A new collar was procured and placed on the prisoner, and a search of the cell was instituted which resulted in finding a pocket knife secreted in the wall. It was also found that he had a roll of money in his mouth which he was vigorously chewing, with the apparent intention of swallowing it. Great efforts were necessary to force him to disgorge, and it was not until he had been choked vigorously that the money was extricated therefrom. The roll contained fifty dollars in greenbacks, a fifty dollar bill and several small bills. The impression is that Wade was saving the money to use in the event of his escape, and that with the knife he proposed taking his life before the day of execution, in case his efforts at escape should prove unsuccessful. He appeared quite crestfallen at being thwarted in his designs and indulged in many expressions of chagrin at the plight in which he found himself. It has since been learned the knife and file were supplied to Wade by the girl Lillie Mitchell, who was confined in the jail for throwing vitriol.

A New use for Wash-women.

A woman living in Patchogue, L. I., has charged her husband with instigating his servant-girl to poison her. The girl, however, repented, and informed her mistress before it was too late that her tea was poisoned. Unwilling to give entire credence to so terrible a story, the woman tested the properties of the tea by trying its effects on a casual washer-woman, whom she induced to drink some of it. The washer-woman, being made violently ill, all doubt was at an end, and the outraged wife immediately took measures to bring her husband to justice. The story certainly is a remarkable one, and the presence of mind of the woman in making her experiment to test the poisonous nature of the tea is quite unprecedented. She has undoubtedly added to the uses of washer-women.

Miscellaneous News Items.

Dr. G. W. Bernheisel, of Columbia, was pushed from the door of a hotel in that place, and fell upon his head, receiving probably fatal injuries.

Rats attacked a little child of Stephen M'Conick, of Butler, a few days ago, during the absence of its parents, and stripped the flesh from one of its hands.

The trouble between the employes and the East Tennessee, Virginia and Georgia Railroad is unadjusted. The men obstruct the running of freight trains, but there is no interference with mail trains.

J. Nicholas Doyle, of Oneida, New York, arrived at St. John's New Brunswick on the 1st with his wife. The next day he shot her dead in the street, and afterwards shot and killed himself. Jealousy was the supposed cause.

Considerable feeling exists among workmen in Jeffersonville, Indiana, in consequence of officers of the Penitentiary hiring convict labor cheaply outside of the State grounds, contrary to a decision of the Indiana Supreme Court.

Last week, Rose O'Neill, residing at Twenty-fourth and Kent streets Philadelphia, attempted to hasten a stove fire by pouring coal oil on it, and the result was that she was so badly burned that her life was despaired of.

The Steam Ship Bavarian from Liverpool to Montreal, took fire and was burned in the St. Lawrence River on the 6th inst. The crew and passengers took to the boats, but fourteen persons are missing and are supposed to be lost.

Several inspectors of elections are now on trial in the United States Circuit Court at Louisville, charged with having refused the votes of negroes. A demurrer was presented by Hon. Henry Stanberry that the Circuit Court had no jurisdiction over the case. The suit will occupy the Court for some time.

On the night of the 3rd the negroes created a disturbance in Petersburg, Virginia, during a political meeting. They smashed windows and threw stones at a number of persons. The military was called out, but the excitement subsided and they were not needed.

In Wilton, New Hampshire, Mr. William Stockell had occasion to attend to some important business in town, and was compelled to leave his family of little children by themselves. The little ones, in some manner or other, set fire to the house and one of them perished in the flames.

One of the things you read of recently occurred in Wilmington, Del. A man was detected hurrying away from a butcher's stall with a steak which he had stolen under his coat. A policeman followed him to his home, and peeping through the window, saw him give the steak to his children, who devoured it raw. Upon report of this being made to the butcher, his bosom so glowed with benevolent sympathy, that instead of prosecuting, he sent the starving family a large basket of meat and a little cash to buy wood to cook it.

C. M. Irwin, the conductor of the Freeport Accommodation on the West Pennsylvania Railroad, was found dead on his train near Ross station Friday morning a week. Some passengers who wanted to get off there noticed that the train did not stop, and went into the conductor's car to see what was the matter, when they found the deceased lying dead, he having expired from heart disease.

A student was expelled from Lafayette college, Easton, for stealing. He had a regular jury trial before his classmates, which lasted three hours.

ASIATIC CHOLERA IN CHINA.

Almost Every Case Cured With PAIN-KILLER!

DEAR SIR: During a residence of some ten years in Siam and China, as a missionary, I found your Pain-Killer a most valuable remedy for that fearful scourge the Cholera.

In administering the medicine I found it most effectual to give a tea-spoonful of Pain-Killer in a gill of hot water sweetened with sugar, then after about fifteen minutes, begin to give about a table-spoonful of the new mixture every few minutes until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain-Killer, clear, and rub the limbs briskly. Of those who had the Cholera, and took the medicine faithfully, in the way stated above, eight out of ten recovered.

REV. R. TELFORD, Missionary in China.

DEAR SIR: During a long residence in China I have used your valuable Pain-Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summers of 1862 and 1863, while residing in Shanghai, I found it an almost certain cure for cholera, if used in time. Indeed, using it in a great many instances, I do not remember falling in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them and opens a door of usefulness. In diarrhea, colic, vomiting, cholera, coughs, etc., your Pain-Killer has been my chief medicine. Yours, very truly, REV. T. P. CRAWFORD, Tungehow, China.

Those using Pain-Killer should strictly observe the following directions: At the commencement of the disease, take a tea-spoonful of Pain-Killer, in sugar and water, and then bathe freely across the stomach and bowels with the Pain-Killer clear. Should the diarrhea and cramp continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked and the patient relieved in the course of a few hours.

N. B.—Be sure and get the genuine article; and it is recommended by those who have used the Pain-Killer for the cholera, that in extreme cases the patient take two (or more) tea-spoonfuls instead of one.

The PAIN-KILLER is sold by all the Druggists and Dealers in Family Medicines.

Price, 25 and 50 cents and \$1.

PERRY DAVIS & SON, Maun's & Prop's, 136 High St., Prov., R. I.
