FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

Keep Ammonia in the House.

No housekeeper should be without a bottle of spirits of ammonia, for, besides its medicinal value, it is invaluable for household purposes. It is nearly as useful as soap, and its cheapness brings it within the reach of all. Put a teaspoonful of ammonia to a quart of warm soap-suds, dip in a flannel cloth, and wipe off the dust and fly specks, grime and smoke, and see for yourselves how much labor it will save. No scrubbing will be needful. It will cleanse and brighten silver wonderfully; to a pint of hot soap-suds mix a teaspoonful of the spirits, dip in your silver spoons, forks, etc., rub with a brush, and then polish on chamois skin.

For washing mirrors and windows it is very desirable, put a few drops of ammonia upon a piece of newspaper and you will readily take off every spot or finger mark on the glass. It will take out grease spots from every fabric; put on the ammonia nearly clear, lay blotting paper over the place and press a hot flat iron on it for a few moments. A few drops in water will clean laces and whiten them as well; also muslins. Then it is a most refreshing agent at the toilet table ; a few drops; in a basin of water will make a better bath than pure water, and if the skin is oily it will remove all glossiness and disagreeable odors. Added to a foot-bath it entirely absorbs all noxious smell so often arising from the feet in warm weather, and nothing is better for cleansing the hair from dandruff and dust. For cleaning hair and nail brushes it is equally good. Put a teaspoonful of ammonia into one pint of warm water, and shake the brushes through the water. When the brushes look white rinse them in cold water, and put them in the sunshine, or in a warm place to dry. The dirtiest brushes will come out of this bath white and clean. For medicinal purposes ammonia is almost unrivaled. For the headache it is a desirable stimulant, and frequent inhaling of its pungent odors will often entirely remove catarrhal cold. There is no better remedy for heartburn and dyspepsia, and the aromatic spirits of ammonia is especially prepared for these troubles. Ten drops of it in a wine glass of water are often a relief. The spirits of ammonia can be taken in the same way; but it is not as palatable.

In addition to all these uses, the effects of ammonia ou vegetation are beneficial. If you desire roses, geraniums, fuschias, &c., to become more flourishing, you can try it upon them by adding five or six drops of it to every pint of water that you give them, but don't repeat the dose oftener than once in ever five or six days, lest you stimulate them too highly. Rain water is impregnated with ammonia, and thus it refreshes and vivitles vegetable life. So be sure and keep a large bottle of it in the house, and have a glass stopper, for it is very evanescent and also injurious to

corks, eating them away.

Colors in Clothing. The color of clothing is by no means a matter of indifference. White and light colored clothes reflect the heat, while black and dark colored ones absorb it. White is the comfortable and fashionable color for clothing in Summer. It reflects heat well, and prevents the sun's rays from passing through and heating the body. If white is the best color for Summer, it does not follow that black is the best for Winter. It must be remembered that black radiates heat with great rapidity. Give a coat of white paint to a black steamradiator, which is capable of reudering a room comfortably warm at all times, and the temperature will fall at once, though the heat-producing agency remains the same as before. A black garment robs the body of a larger amount of heat than white, and, consequently, the latter color is the best for Winter garments. It is the best color for both Summer and Winter. Although this statement may seem like blowing hot and cold, it is nevertheless true. Let those who are troubled with cold feet, and who wear dark socks, change to white, and see if the difficulty is not in part or wholly removed. Utility in color is confined to the different shades merging from dark into light, but we find in connection with dress all the beautiful tints of the rainbow, and these are used for the ornamentation of the person. The rich and varied colors which are so extensively worn are by no means to be condemned. Adorument of the person to a reasonable extent is commendable. We all love the beautiful in nature; and what adds so much to the attractiveness of woman as the ribbons and scarfs stained with magenta, mauve, or solferino, which adorn her person?

Ten Cakes.

A quart of flour, one pint of sour cream, teaspoonful saleratus, two cups of molasses little einnamon and salt, make a stiff paste, and bake in a moderate oven.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bit-trenst" Our answer is, that they remove the cause of disease, and the patient re-covers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinkgaa Buttens in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Disease.

The properties of Dr. Walker's VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Altera-

Bilious, Remittent and Intermittent Fevers, which are so preva-lent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkan-sas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various or-gans, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpita-tation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertise-

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases. - Persons en-Acculantical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of Walker's Vinegar Bitterans occasionally.
