"The great demand for the services of railroad employes in the various depart-ments of this and other railroad companies having, during several years past, gradual-ly caused an increas of the various salaries and wages of those engaged by them, to an extent which the present condition of the business of the company does not war-rant, and a reduction appearing to be necessary to meet the altered financial condition of the country, the Board of Directors have ordered that a uniform reduction of ten per cent, be made in the payment for serper cent, be made in the payment, by survives of all officers and employes of every grade, to take effect on and after the 1st of January, 1874. Christmas was as fine a winter day as one would wish to see. In this borough everything passed off pleasantly. Some of the young men made a parade, as "fan-tastics," amusing the lookers on, and pleas-ing themselves. The places of business were closed in the afternoon, and the day were closed in the afternoon, and the day ended without the happening of any inci-dent worthy of note.

BOOK NOTICES.

"Old and New" begins its ninth volume with a strong and spirited number, well illustrat-ing the double field, which is the peculiarity of this magazine,-Literature and Sociological Improvement. By some mysterious power, Mr. Burnand's serial. "My Time," is cut off in the midst of its usefulness, and a new story, called "The Way we Live Now," by a more popular author, Anthony Trollope, is begun instead. "Scrope," the other serial, continues, and will have, apparently, two or three numbers more. A sprightly three-part story of Washington so-clety is also begun. But better than any of these is Mr. Hale's very humorous short story of "A Civil Servant,"—a ludicrous picture of the life and experience of Mr. John Sapp, a professional office-holder. Several important public topics are sensibly handled. Mr. Hale, in his introduction, has stated very ably what the American diplomatic precedents prove about the "Virgindiplomatic precedents prove about the "Virgin-ius" case. An anonymous writer gives a clear and most interesting history of the Panic. Then, there is a good history of the Boston Tea Party of 1773, a hundred years ago; the second of Mr. Tyrwitt's charming art-papers; one of Miss Hinckley's graphic-sketches of "Country Sights and Sounds"; a careful and instructive notice of John Stuart Mill, and his Autobiography; the poems and some curious rhymod maxims from the Elder Edda, versined by Myron B. Benton ; and some sweet and thoughtful reminiscences by T.G. A.; and a string of Joliy verses in Mr. Tyrwitt's papers, indicative of a love-story ele-ment, mingled with his art-wisdom.

For Every cultivated American should feel proud of such a superb national publication as The Aldine. The first number for the new year, January, 1874, opens with such brilliant promise, we shall be astonished at no achieve-ment which may be accomplished hereafter. The full page illustration consists first promise, we shall be astonished at no achieve-ment which may be accomplished hereafter. The full page illustration consists first of an exquisite tint, a snow scene, by Thomas Moran, of New Year's Morning in England, with the parishibhers saluting the pastor in front of the porch of the church. The drawing of the trees is excellent, while the snow effects are true to nature. The second full page pic-ture is a grand and magnificent view of Moore's Lake in the Rocky Mountains of Utah, the highest lake in America. This was sketched on the spot by Thomas Moran, and as a rare view of American scenery is alone worth the price of the magazine. The third of these great pictures is "The Irish Schoolmaster," after Micol, by John S. Davis, a very clever and characteristic drawing of a race of peda-gognes which once flouriahed in Ireland. The fourth whole page picture is a view of Fair-field, Conn., by Krussman Van Elten—a quiet New England landscape, with hills, daies, a river, nestling village, etc. The other illustra-tions are also good. The literary contents of the January Aidine, equals that of the Atlantic Monthly, or Blackwood's—the best and most interesting which can be found, every para-graph being original. Subscription pice, \$5.00, including Chromos. "The White Mountains" and "The Cliffs of Green River." James Sutton & Co., publishers, 55 Maiden Lands and and and the states of the Atlantic

Narrow Escape .- One night last week, the family of Mr. Jno. McMurray, residing in "Boston," on the other side of Sherman Creek, made a narrow escape from suffocation by coal gas. The fire in the stove had been fixed for the night and part of the family had already retired, when upon the return of Mrs. McMurray, she found the house full of gas, and the whole family in a stupified condition from its effects. Dr. Warner was at ouce sent for, who administered proper restoratives, and brought them all to their feet again. The doctor gives it as his opinion, that had Mrs. M. arrived five minutes later, the family would all have been suffocated, and beyond the reach of medical aid .- Record
