Nice Plants .- We sent to Peter Henderson & Co., of New York, last week for a lot plants. They have arrived, and were received in such nice order, that every body who saw them was delighted. Many of them were nearly ready to bloom, and from the whole lot of near fifty plants, not one but what is now growing nicely. We can recommend our friends to send their orders to Messrs, Henderson & Co. Their advertisement will be found in another part of

A Surgical Operation. - For some months past George, a son of Mr. Geo. S. Barnett, of this borough, bas had a Cis Tumor growing on his cheek. Week before last, Mr. Barnett took his son to Philadelphia, to see if it could not be removed. It was an operation that required great care, necessitating the removal of a portion of the upper jaw, but was successfully performed by Dr. Agnew, and the lad is now rapidly recovering from the effects of the opera-

Fatal Surgical Operation.-Last Thursday Dr. John L. Atlee, of Lancaster, assisted by some fifteen physicians, including Dr. S. H. Brehm, of this place, attempted to remove an ovarian tumor from a lady residing in Mercersburg, but unfortunately found that the tumor had grown fast not only to the walls of the abdomen but also to the intestines, and after removing about two buckets of fluid it was found impracticable to do anything further, and the wound was sewed up. We understand that the patient died some few hours after the operation. She was unmarried .- New-

A Great Curiosity.-Last week, Mr. Henry Kline, of Juniata township, brought to this office one of the most remarkable curiosities we ever saw. This consisted of a hen's egg having a well developed snake inside the shell. The egg was one that was fresh laid, and full size. When broken, Mr. Kline noticed something mixed in the white which he thought he would take out. He therefore lifted it up, when he noticed it move, and closer examination showed a tongue dart out in the most approved snake fashion, while the eyes could be plainly seen. So singular a freak of nature was worth particular notice, and so he placed the egg and snake in a glass and brought it to this office, where it was examined by a great number of persons, all of whom expressed their astonishment. The snake was about two inches long and about as thick as a turkey quill, and was almost colorless. The questions which naturally arise are, how did it come there, and what would have been the result had the egg been hatched?

A Fearful Slide .- A flagman named Philip McGoe, employed on the local freight train running west from this city, met with an accident yesterday which will probably result in his death. In the vicinty of Kittanning Point, while he was standing on the bumper of a car, his dinner bucket fell to the ground and in making an effort to recover the same Mr. McGoe missed his footing and fell from the car with great violence. At the point where he came in contact with the hard frozen surface is a steep declivity for a distance of about fifty feet, down which the unfortunate man commenced to slide and was unable to help himself. On, on he continued to go with fearful rapidity, now coming in contact with some brush and anon being terribly jostled by striking a worn-out railway tie, until at last he is dashed against the ominous looking rocks in the channel below where he was picked up bruised, battered and bleeding and in an insensible condition. He was conveyed to Gallitzin for medical treatment.-Altoona Tribuns of the 11th inst.

The origin of the fire is not known. We understand there was between three and four thousand bushels of grain in the mill. The property was jointly owned by Maj. H. Snyder and Myers, the miller.

The family of Mr. Chas. H. Mullin, residing in Mt. Holly, made a narrow escape from death by suffocation from coal gas, on Thursday night last. After retiring for the night, they left a coal fire burning in the room below their bed room, from which the gas escaped filling the room they occupied with its poisonous fumes.

During the night Mr. Mullin awoke, and found, bits wife, and children in an almost

Ballou's Monthly Magazine for April.—
The April number of this popular journal of literature is issued, and is fully equal to any that has appeared. Perhaps it may have a little more variety in this number, and the stories may be a little better, but it is hard to improve on any one number of Ballou's, for it is edited with such care that all tastes are sulted. The boys find a sea story in each number, the men a tale of adventure, and the ladies poetry and delightful love stories. In addition to all of this there are illustrations of popular subjects, and yet the price is only \$1.50 per year, or 15 cents a single number, and each subscriber who sends a year's subscription receives a pretty little Chromo of considerable value as an ornament. The April number contains a ornament. The April number contains a splendid list of contents.
Published by Thomes & Talbot, 36 Bromfield

Street, Boston, and for sale at every periodical depot in the country.

The Illustrated Annual of Phrenology The lilustrated Annual of Phrenology and Physiognomy for 1874,, contains eighty large octavo pages, with more than fifty engravings, representing Heads, Faces, Mouths, Noses, good and bad; "Signs of Character;" also, My Schoolmates, and What Become of Them; A Good Memory; The "Leak; or, a Hole in a Pocket through Bad Habits; and How to Save Money! One Thousand Boys Wanted; Bad Breath, Its cause and Cure; A Fascinating Face; What the Savans are Doing for Mental Science, etc. The best Annual ever issued. Agents wanted. Newsmen have it. The public are hereby assured, through the columns of the Times, that Parsons' Purgative Pills contain no injurious principle, but that they may be administered to children and the most weak and shattered constitutions in small doses, with great certainty of success.

Dr. A Johnson, one of the most successful practioners of his time, invented what is now called Johnson's Anodyne Liniment. The great success of this article in the cure of Bronchitis and all diseases of the throat and lungs, will make the name of Johnson not less favorably, if less widely known, than that of Lonia Napoleon.

Public Sales .- Bills for the following sales have been printed at this office :
