LOCAL DEPARTMENT.

To You.—If you wish to change the post office address on your paper this Spring, don't forget to state the place where you have been receiving it, as well as the place where you wish to have it sent in future.

Spring Township Schools.—Mrs. Willis, widow of Robt. Willis, will teach the summer school at Elliottsburg; Miss Susan F. Foose, will teach in Little Germany and Miss Laura Rhodes, will teach a subscription school at McAfee's school house.

Hurt.—One of the hands working on the railroad, near Landisburg on Thursday, was struck on the head with a sledge.—The accident was caused by a detached piece of rock falling, and causing the hold of the drill to lodge, bringing his head under a descending sledge. An ugly wound was made, which was dressed by Dr. Milliken.

Barn Burned.—The Shippensburg News says:—On Thursday morning, between the hours of seven and eight o'clock, a valuable barn belonging to the farm of Mrs. Catherine Culbertson, was destroyed by fire, and with its contents entirely consumed.—There were a number of horses, seven head of cattle together with other articles, no doubt, but of which fact we are without particulars. The stock belonged to Mr. Witherspoon, who, with his mother-in-law, Mrs. Culbertson, removed to the farm this spring. The property, as is well known, is located in Culbertson's Row, Franklin county. It is not known how the fire originated.

Sheriff's Sale.—The following properties were sold at public sale by the Sheriff on Friday last:

A tract of land situate in Buffalo twp., containing 11 acres having thereon a two story log house, seized as the property of Joseph Rattle. Sold to Joseph Seiler, of Liverpool, for \$100.

A tract of land situate in Toboyne twp., containing 108 acres, having thereon a house, barn and outbuildings; also a tract in same township, containing 100 acres, having thereon a log house and stable, seized as the property of Wm. Tritt, sold to ————, for \$800. Also a tract in same twp., containing 120 acres, having thereon, house, barn and outbuildings, seized as the property of Wm. Tritt, sold to Chas. Shields, for \$510.

A tract of land situate in Wheatfield twp., containing 75 acres, seized as the property of David Mutzbaugh; sold to W. A. Sponler, for \$240.

Other property advertised not sold.

Bloomfield Academy.—New term opens Monday, April 6th. The school now offers 1st, a Normal course, with special training for teachers during the two summer terms; 2nd, a general educational course for those designing to complete their education at the Academy; 3rd, a classical course for those intending to enter College; 4th, a commercial course for those fitting at once for business, with special attention to Book-keeping and Penmanship, with Phonography, if desired and an effort will be made to add Telegraphy to this course.

To Young Men.—Mining, Metallurgy, Civil Engineering and Chemical Analysis is now receiving more attention in our own and surrounding counties, and they will increase in importance as Railroad facilities increase. Why should not our young men prepare for good positions in this work. To prepare for a classical course in College, takes from two to three years, but I fit any one, with a common education, for a scientific course in one year. I will guarantee any such student, entering Bloomfield Academy this spring, that he shall be ready by next year for such a course.

Bitten by a Dog.—Last Friday a peddler named Smith attempted to enter a yard in Howe township, but was met at the gate by a dog, which seized him in the face, and before he could be called off, had lacerated his upper lip, crushed the few teeth he had out of his upper and lower jaws, besides inflicting other slight injuries to his cheek and ear.—The injuries were severe and the hemorrhage profuse, but at last accounts the man was doing well.—News.

A Book You Want.—A book of considerable interest just at this time, is now offered to the public. We refer to a work issued by the National Publishing Co., of Philadelphia, entitled, "History of the Grange Movement." The work contains a complete history of the rise and progress of the order of Husbandry, its objects, condition, prospects &c., also sketches of the leading men of the order. It is a work that every one would like to possess.

Mr. Editor:—When I consider the doings of the county Commissioners, I cannot conceive that they have acted the part of wisdom in financing for the interest of the people of Perry county. The whole amount assessed under the old assessment was something over three-and-a-half millions, the amount under the new assessment will probably reach six-and-a-half millions. The revenue derived from the old assessment at 10 mills, was near \$36,000, the amount derived from the new assessment at 4 mills, will probably reach a trifle over \$25,000. If then \$25,000 answers the purpose of county expenditures per annum, where did the necessity arise for higher rates of valuation seeing that 8 mills on the old assessment would have produced as much revenue as 4 mills will produce on the new. Then why not equalize the old valuation by bringing down valuations that were too high and raise others that were too low. If the valuations were so very unequal heretofore, as some persons would have them, the matter of inequality could have been easily remedied without material change in the sum total of the county valuations. Now the sum of the county valuation being raised from three-and-a-half to six-and-a-half millions does not benefit the county in the least, but makes it liable to increase of tax, provided the State tax should be levied on real estate which in the opinion of many is not doubted. Hence I cannot conceive how the county is to be benefited by the advance in valuation, or the necessity for the valuation for the state at present is not partner in the revenue derived from real estate. Time has yet to prove, that an increase of valuation for the purpose of taxation ever became a benefit to the tax-payers. Judge Editor makes himself very conspicuous in the matter of assessors; he commenced last fall to ridicule their former acts and has been constantly on their trail with a tenacity bordering on cruelty. He sees reckless faults in assessors, can even see their oaths stretch like gum elastic. It does seem as though he has not liberality enough to allow men their difference in opinion. It is not uncommon for different Judges and jurors to try the same case and render different verdicts. Shall the honesty of these men be called in question? I think not. Why then ridicule assessors for what may be considered their honest differences. The Commissioners say the law compels assessors to levy full rates of valuation. Pray what are full rates of valuation? Is it that rate of valuation derived from actual income of property—there is no better guide that I am acquainted with, or is it that after the assessors have gone through the farce, submitted the result to the Commissioners and received pay for their services, that the Commissioners get to work and make the valuation themselves? Common sense being applied to common interest demonstrated the present high rates of valuation unequalled for, except it be a preparatory arrangement to furnish means for the management of the New Constitution.

Communicated. Mr. Editor:—I saw a small paragraph in the Times in which the author informed the public that Rev. Sellhammer attempted to prove that immersion is baptism, from the fact of his being a Republican. I wonder that men of sense and veracity are not ashamed to circulate tales which persons of even ordinary minds will without any hesitancy pronounce false. But as far as the tale is concerned, I have very little to say, as Rev. Sellhammer is of age and can speak for himself. But if any person thinks immersionists have no better arguments in favor of immersion as "Christian Baptism," they have only to secure a column of "The Bloomfield Times" for a few weeks and they may perhaps at least see us as trees walking.

"People's Freight Railway." At the adjourned Court in March, an application was made on the part of the above Rail Road Company for the appointment of viewers, to view and assess damages to the county, by reason of the construction of their road through the Poot-House farm. The application having been objected to, a rule was granted, to show cause why the prayer of the petitioners should not be complied with, made returnable on Friday, the 27th inst., at which time the company produced the charters of the several companies forming a consolidation under the above name and title. The Court was fully satisfied that said Company existed in good faith and the viewers were appointed. The present company is formed by a consolidation of the "Sherman's Valley Railroad," incorporated 7th of March, 1873, commencing at a point near the borough of Marysville, by the way of Sherman's Dale and Landisburg, to or near Loysville, the "Bendersville Extension R. R., formed under articles of association agreeable to the act of 4th April, 1868, from a point in the "Bendersville R. R., near Bendersville, Adams co., to a point on the "Sherman's Valley R. R., near Landisburg, and the Bendersville R. R., incorporated 11th of March, 1871, from a point near Gettysburg, through the valley of the Conewago and Opossum creeks, to the village of Bendersville, Adams co., and the Iron mines in the vicinity thereof. This arrangement is made under the provisions of the act of assembly passed 1861-65 and 1868, allowing corporations to merge by agreement.

The following persons were appointed viewers:—Conrad Roth, John W. Charles, Wilson McKee, Daniel Zeigler, M. B. Holman, William Wright and George Spahr. The day appointed to meet upon the ground is the 17th of April next.

For the Bloomfield Times. Mr. Editor:—Dear Sir—Allow me through your paper to express the hope and confidence of many that the efforts made at Harrisburg this winter to abolish the Local Option Law have become useless for the present. Many have criticised the women's Temperance movement of the West forgetting that what might oppose their judgment here was possibly the very thing in the far West. And the East has been blessed by it in a way perhaps it least expected. The influence of that western movement is what has strengthened the Temperance cause at the East, and in our own State thwarted the Liquor interest at Harrisburg, notwithstanding the petitions sent from this and other counties for a return of the "open bar."

And now that this good may be permanent it needs the labor of temperance men in this county. Local Option is on its trial and if properly enforced will itself decide the matter. To this end citizens must aid the constables of their respective townships and also take measures to compel all officers of the law to do their duty in reporting violations of the law. Two methods of procedure are open. One of the methods taken at Bloomfield last court which is for any member of the grand jury having strong convictions of the law being violated to have his fellow jurymen request the attendance on summons of those who can be made to testify for the very reason that the matter does not personally criminate them. Secondly any citizen can bring prosecution ten days before court even if he only sees liquor poured out in a bar room in the old style, for the law then puts the burden of proof that it was not liquor on the offender as was decided in the late Philadelphia trials. Let temperance men in every twp., wake up to this matter.

Juniata County.—From the Millintown Sentinel of last week we copy the following: Jacob Will, Jr., and Erasmus Cameron went to the railroad, in a buggy last Sunday. They stopped the horse at the intersection of Railroad Avenue and Bridge street. Unexpectedly a locomotive blew off steam. The horse frightened, turned round toward the bridge upsetting the buggy and throwing both the young men out. Mr. Will was not hurt, and clung to the lines and stopped the horse. Mr. Cameron, however, was quite severely hurt about the head and shoulders. He has been confined to his bed ever since.

On last Monday a passing locomotive set fire to grass and stubble in a field belonging to a farm owned by G. W. Jacobs, Esq., of Perryville, and situated between the place just named and Patterson. A high wind prevailed at the time and drove the fire toward the house and barn, located between the railroad and the river. Jacobs, seeing the danger his property was in, hastened from town with assistance to save his buildings. The party immediately commenced to fire against the flames approaching from the railroad, and effectually succeeded in fighting fire with fire. The oppositely approaching flames met and subsided in their own track. The buildings were considered safe, out of danger, and congratulations were being exchanged over the rescue, when suddenly a whirl of wind caught up a whisp of grass all aglow with fire, and carried it to the straw stack in front of the barn. Instantly it was afire, and it was only a moment until the flames were in the barn, when, fanned by the high wind, they soon consumed that structure. Loss \$1,500 to \$1,800.

Cumberland County.—From the Carlisle Volunteer of last week, we copy the following: Mr. Geo. Sharight's farm in Dickinson township, has been leased to a company of capitalists from Reading, who are making arrangements for mining ore.

It is now settled, we believe, that our townsman, Wilbur F. Sadler, Esq., is to be appointed Judge from this District.—This information comes directly from Gov. Hartranft, and he ought to know. The appointed Judge will hold his position until his successor is duly qualified after the November election. On Tuesday of last week, Mr. Jacob Hollinger, of Dickinson township, came very near meeting with a serious accident. He was attending the "sitting" of Sam'l Hartzler, in South Middleton twp., when a dog jumped in front of his horse. The horse took fright, and turning short, upset the buggy, throwing Mr. H., his wife and his little daughter violently to the ground.

They all lit in the mud, which perhaps saved them from serious injury. With the exception of a few bruises, they were not injured. The horse ran for some distance, breaking the buggy to pieces, and was arrested after running a couple of miles.

Brief Items.

On Tuesday morning last Mr. John Kipp, of Newport, died quite suddenly.

More moving was done in this borough this spring, than has been done before in many years.

In digging a well at Mt. Holly, a few days since an excellent vein of iron ore was discovered.

The boys in Waynesboro who engage in calithumpian serenades are arrested and fined \$1.50 each for the fun.

A house belonging to John Briner, situated about 3 miles N. E. of Bain, was destroyed by fire on Monday of last week, with nearly all its contents. The loss is very severe on Mr. Briner as he is a poor man and there was no insurance.

Mr. Joseph Eckart, a school teacher of Franklin county, was drowned on Saturday a week in a mill race, near Chambersburg, whether by accident or otherwise it is not known.

One of the railroad contractors was somewhat bruised on Thursday last, by being thrown out of his buggy. The accident was caused by the spindle breaking. The horse then ran away, and the vehicle was sadly demoralized. The accident occurred near Landisburg.

A carpet bag peddler, has been traveling through Spring and Tyrone townships.—His stock consisted of a couple of bottles, filled with liquor and a tumbler. As he had no rent or licence to pay, drinks were cheap, five cents or three for a dime.

A correspondent says: "I wonder why the citizens of Landisburg, do not keep their burying-ground in better order. The fence around it is miserable, and cattle have been tramping over the graves and destroying what few flowers are there."
