Tuesday, April 7, 1874. LOCAL DEPARTMENT.

To You.- If you wish to change the post office address on your paper this Spring, don't forget to state the place where you have been receiving it, as well as the place where you wish to have it sent in future.

The Fourth Annual Convention of the Perry County Sabbath School Association will be held in New Bloomfield, May 12th. The first session will be held in the Reformed church, on Tuesday morning, at 10 o'clock. Each Sunday School in the county is requested to send delegates. It is expected that this will be one of the largest and most interesting Conventions ever held in the county. Entertainment will be provided for the delegates by a committee of Arrangements, whose names will soon be published.

JAMES CRAWPORD, President.

Locals.-An exchange says Some people are so queer. We scarcely know whether they deserve pity or blame. They want local news, and demand it from the local reporter even though nothing occurs worthy of note. If he gossips he is condemned, and should he pry into the privacy of these critics his head is in danger, and if he fails to do it his brains are arraigned. Should be write a history of the Devil be would stir up the biggest "muss," and if he don't do it the imps that escape censure starve for "locals." Every mean man wants a "local" making his neighbor as mean or meaner than himself. After that he is happy and his paper is a good local

The Black Bass Law.-The following is the text of the fish law concerning when black bass, pike or pickerel may be caught and how and when the violators have a chance to pay over \$25 for not feeling disposed to yield obedience to it. For further information about the laws regulating fisheries, etc., consult the Pennsylvania Pamphlet Laws of 1873, pages 91, 92 and 93 :

Section 2. No person shall, at any time, catch or kill in any of the waters of this State, save only with a hook and line or scroll, and no person shall catch or expose for sale, or have in his or her possession, after the same has been killed, any black bass, pike or pickerel, between the first day of March and the first day of June, except alive for stocking other waters, under penalty of (25) twenty-five dollars for each offence.

A Little Walf .- At Harrisburg, yesterday, a man and woman approached conductor Moore, of the Mail train, just previous to his departure westward bound, and requested him to take charge of a little girl and land her at Altoona, supplementing the request with the statement that the little girl's grandmother, named Wolf, or "one of the boys" would be at the depot here to meet the child. The conductor affirmatively responded, and the child was placed on board the train. Upon its arrival in this city, last evening, there was no one in waiting to receive the child, consequently she was left at the railroad company's ticket-office. The matter coming to the ears of Mr. John A. McClintock, that gentleman interested himself to ascertain the residence of the child's grandmother, yet without avail. The little waif says that her name is Nellie Vogle, and that she is five years old. She was taken in charge by Mrs. J. D. McClellen, of the Logan House. The thing looks like a set-up job. -Altoona Tribune of the 31st uit.

Explosion of a Locomotive Boller-Horri-ble Deaths.

The Baltimore Union of the 4th inst., says: Last Saturday afternoon about 3 o'clock, whilst freight engine No. 79, on the Northern Central Railroad, was standing on the track just beneath a bridge near Mount Wolf, some two or three miles above York, Pa., the boiler exploded with terrific force and shockingly fatal effect .-The boiler or a great portion of it was blown to a distance of some 300 yards, completely demolishing the bridge under which the engine had been standing. Joe. Platz, the brakeman, who was on the engine at the time, was blown up to a great height, and his mangled body descended with such force upon the roof of a freight car, as to crush completely through it in an almost undistinguishable mass of quivering flesh. At the moment of the explosion, Nicholas Treadway, the engineer of the locomotive, who was standing upon the track engaged in olling the machinery, was struck and scalded and so terribly injured that he lived but a short time. A fireman, whose pame was not ascertained. who was also standing near the engine, was very seriously scalded. All these poor men lived in York.

Cumberland County. - From the Carlisle Volunteer of last week, we copy the following:

A valuable horse, belonging to our townsman, Mr. A. H. Blair, broke his neck, in the stable, on Saturday morning last. We learn the horse was valued at \$250.

Mr. Edward N. Harkness, of this place, was severely bitten in the wrist and knee, by a dog, while passing the corner of West and South streets, a few evenings since.— The dog was shot by the above gentleman he same evening.

The sum of one hundred dollars was sto-len from the residence of Mr. William A. Reed, in New Kingston, a few days sgo.

Mr. Jacob Swartz, of Plainfield, was somewhat injured, one day last week, by being thrown from a sulky, in the vicinity

Caught in a Trap.—A correspondent writing from Hampden township, Cumberland county, relates the following thrilling incident: A resident in this township, a quiet and peaceable citizen, found that his chop and corn was being carried off by his chop and corn was being carried off by some person or persons. He was much grieved in consequence; and, at a last resort, determined to set a large wolf trap for the thief, though aware it would be certain to cripple for life any one caught in its meshes, if not to cause death. The trap was set. A few mornings after, our farmer friend visited the barn about daybreak; and, on opening the door, was horror-stricken at seeing a man fast in the trap. So completely did the sudden discovery terrify him, that he scarcely knew what course to take, and the thought of the terrible deed he had been the means of perpetrating tended to increase his terror. the terrible deed he had been the means of perpetrating tended to increase his terror. The quiet attitude of the imprisoned helped to confirm the belief that the victim was dead, and the clothing resembling somewhat worn by a neighbor, added sickening horror to the scene. The poor farmer was growing excessively nervous, when the farm hand came in, and noticing the victim in the trap, ejaculated, "Ha, have you got him once?—Do you know his name?—I believe he's dead!" and they both stood silently gazing upon the cornse. both stood silently gazing upon the corpse. They finally determined that it would be They finally determined that it would be best to know whether death had really been meted out to the thief, before making arrangements for an inquest. So the hired man, gathering courage, cautiously approached the motionless man, shook him violently and called out "Hello, here!"—No answer, but a silence ensued strangely suggestive of death. Another shake, more violent than the first, and the discovery was made that the men was no more and no less than a man's clothing causfully was made that the men was no more and no less than a man's clothing carefully stuffed with straw. The hired man didn't exactly swear, but his anathemas hurled upon a near neighbor were more emphatic than polite. The farmer, on the other hand, inwardly groaned; but his grief was somewhat assuaged by the thought that he had not taken the blood of a fellow creature and that he was a crimes of the sale. ture, and that he was a gainer of the value of a Centennial coat, and a questionable

At the recent session of the Iowa Grand Lodge of Masons, decided grounds were taken against members of the order keep-ing saloons, as it was considered as being "at variance with the very elementary principles on which the whole fabric of the Masonic institution is based."

"Let your moderation be known unto all men," was the text of a sermon preach-od recently by Rev. H. Crosby, D. D., and moderator of the Presbyterian church, in which he maintained that we might drink wine moderately, but he did not say how much a person may drink, and be a moderate drinker. That was an oversight.

Perhaps the moderator took a moderate drink before delivering his sermon, who

Bloemfield Academy.—New term opens Monday, April 6th. The school now offers 1st, a Normal course, with special training for teachers during the two summer terms; for teachers during the two summer terms; 2nd, a general educational course for those designing to complete their education at the Academy; 3rd, a classical course for those intending to enter College; 4th, a commercial course for those fitting at once for business, with special attention to Book-keeping and Penmanship, with Phonography, if desired and an effort will be made to add Telegraphy to this course.

To Young Men.—Mining, Metallurgy, Civil Engineering and Chemical Analysis is now receiving more attention in our own and surrounding counties, and they will increase in importance as Railroad facilities increase. Why should not our young men prepare for good positions in this work. To prepare for a classical course in College, takes from two to there years but I fit any takes from two to three years, but I fit any one, with a common education, for a scienti fic course in one year. I will guarantee any such student, entering Bloomfield Academy this spring, that he shall be ready by next year for such a course.

UNIVERSAL REMEDY! "Wishart's Pine Tree Tar Cordial," for coughs, colds and bronchial affections stands first in publie confidence and favor.

More than 50 years have elapsed since Johnson's Anodyne Liniment was first invented, during which time hundreds of thousands have been benefitted by its use. Probably no article ever became so universally popular with all classes as Johnson's Anodyne Liniment.

Pills which contain antimony, quining and calomel, should be avoided, as severe griping pains would be their only result. The safest, surest, and best pills are Parsons' Purgative or Anti-Billious Pills.

Don't be Discouraged. Suppose you have "tried fifty remedies?" and received no benefit, is there therefore 'no balm in Glicad?' Verliy there is. Your liver may be congested, your stomach half paralyzed, your nerves quivering, your muscles knotted with torture, your bowels constricted, your lungs diseased, your blood fall of impurities—yet in one week after commencing a course of Dr. Walker's Vinegar Bitters you will feel like a new creature.

The Gem Microscope.

The Gem Microscope is truly an optical wonder. It reveals thousands of unseen wonders and curiosities of God's minute creation; the small world teeming with animal life, the little things of nature with which we are surrounded, but which are invisible to the naked eye, the thousand and one curiosities and minute objects with many of which we are familiar, because we have road or heard of them, but which to the unaided vision have remained a sealed book, are brought within the realizing reach of our sight and understanding by the use of the Gem, and many wonders entirely new to us are also brought to sight by its use. No article for the same price has ever been offered to the public which combines the essential points of valuable instruction and entertaining refined amusement to so great an extent as this instrument; every family has only to appreciate its merits to become its possessor. It is so low-priced that everybody can have one, and so simple a child can use it. Parents should provide their children with this valuable instructor. This Microscope possesses the great advantage of being used by lamplight as well as by daylight, and thus affords entertainment after the occupations of the day are laid aside. It is really of great value to any family if only because it shows the adulterations in food, as sugars, teas, etc., and the qualities of cloths. It also plainly shows Trichina Spiralis or Pork Worm whenever it exists in pork. It is safely malled, post-paid, on receipt of price (\$1-50) to any address by The Bayrani, Company, 978 Wabash Aven se, Chicago. See their advertisement elsewhere. It. The Gem Microscope.

THE PAIN - KILLER

THE PAIN - KILLER
derives much of its popularity from the sim
plicity attending its use, which gives it a peculiar value in a family. The various diseases
which may be reached by it, and in their inciplent stages eradicated, are among those
which are peculiarly fatal if suffered to run;
but the curative magic of this preparation at
once disarms them of their terrors. In all respects it fulfils the conditions of a popular
medicine.

Be sure you call for and get the genuine Pain-Riller, as many worthless nostrums are attempted to be sold on the great reputation or this valuable medicine.

THE GEM MICROSCOPE is the most wonder.

It is scientific production of the inheteenth tentury. It furnishes the power of a high-priced instrument for a mere trifle, and exceeds in usefulness any microscope over invented. It reveals the hidden wonders of minute creation—as Ecis in Vinegar, Animals in Water, Butterfiles Frothers, the Golden Marrow of a Hair, Insect's Eves, the Pads, Claws, Joints and Hairs of a Fly's Foot, makes Ropes of Fibers of Cloth, a Crowbar of a Needle's Point, and so on indefinitely. It furnishes hours of instruction, entertainment and amisement for the young and oid, and overy family should possess it. It is invaluable to students, professors, teachers, physicians, in fact EVERY, BODY, and especially in the HOME CIRCLE is it a GHM.
