Tuesday, June 16, 1874. LOCAL DEPARTMENT.

NO CUTS INSERTED. After the expiration of present contracts no more cuts or electrotypes will be inserted unless on metal base and not their unless outre that faced.

Our New "Eureka Jobber" which we run by steam, enables us to do work rapidly and well. Persons wanting printing of any kind done promptly and at low prices, will consult their own interests by calling at the TIMES OFFICE.

Bloomfield Academy.-Last week witnessed the close of the current year of this school with an attendance of 127 pupils. The new school year opens the last week in August, under its present principal, the Rev. John Edgar. The school year closes in June, as scholars then graduating pass on to their various colleges.

Bitten by a Snake .- Mrs. L. Hench, of Turbett twp., Juniata county, went to the cellar in her bare feet, on Sunday a week when she was bitten by a housesnake. The wound has caused so much inflamation, that it is feared Mrs. H. will die from its effects.

Why Is It?-Quite a number of our Shermansdale subscribers complain, that their copy of the TIMES does not reach that office until the latter part of the week. As all the packs for Shermansdale leave here on Monday evening, they should reach their destination on Tuesday morning, unless delayed by the carelessness of some post-master on the route. We hope, however, there will be no more cause of complaint, and that all the packs will come to hand hereafter at the proper time .-Our entire mail is made up from the Mailing Machine on Monday night, and we know the delay can be from no fault of

Among the missing fugitives from the Pennsylvania insane asylum near Harrisburg, is a woman fifty years of age and about five feet seven inches high. Her hair is cut very short and is quite grey .-She has a healthy appearance and a piercing eye. Any person leading of her whereabouts will relieve much distress concerning her by communicating with the superintendent of the asylum. A woman answering the above description, passed through this place, on Saturday a week.

The Potato Bugs, are quite troublesome in many parts of the county. A sure cure for them is Paris Green, mixed with say 1 part of green to 25 parts of dry plaster or dry ashes. Mix well and dust on the leaves, when samp in the morning. A correspondent also says he has successfully exterminated them by dissolving the green in water, and sprinkling the bugs. We tried the former method with success.

Terrifle Explosion .- Between ten and eleven o'clock yesterday morning an explosion occurred on Third street near Walnut which was remarkable for the great report it made and the small amount of damage it did. A man whose name has not been ascertained was walking past the Masonic building, and just as he got between Mr. Shaffer's and Mr. Frank's stores a champagne bottle containing nitric acid and turpentine, which he carried in his hand, exploded with great force, scattering fragments in different directions and making a number of indentions in the last one 6 months ago. She is ten year older an i and deceaved me by waring fals hair and teath, and a possetive fact her store. Some of the acid was thrown breth is so bad that it rots the fals teath.—izvent that cause enpoyed after a new coart that cause and new a champagne bottle containing nitric acid against a vest hanging on the outside of Mr. Frank's store. The individual who had charge of the bottle was slightly cut in the face by a piece of the glass and a portion of his clothing badly burned by the acid mixture. A girl who was passing at the time received a small gash in the hand from a fragment of the glass, and a lady sitting in the paper store narrowly escaped being hit, a piece of bottle striking within a few feet of her and rolling under her chair. One of the fragments of the glass took a diagonal direction and landed in front of Weaver & Hubley's store, about twenty yards distant. The report resembled that of a cannon and was heard for many accurate considerable exmany squares, causing considerable ex-citement. The great wonder is that the man with the bottle and others in the neighborhood were not seriously,injured.— Harrisburg Patriot of 10th inst.

A Sad Accident .- At Huntingdon on Friday evening a week, about seven o'clock a horse became frightened and dashed up an alley, leading from Moore to Oneida street, in which there were several boys, one of these a son, aged about four years, of Frank Clouse, who resides near the head of the alley. When the boys discovered the horse they ran for a pile of building logs on Oneida street. Young Clouse succeeded in reaching the cover and immediately afterwards the horse ran against the pile and threw it down, crushing the head of the little fellow beneath the logs .-He expired in a few moments. We deeply sympathize with the bereaved parents in their sore affliction.

A Brewer's Ruse.—By a recent decision of his honor Judge Dean, presiding judge of this judicial district, it is a violation of the provisions of the local option law for a brewer to manufacture beer and dispose of the same from his brewery in a local option city or county. Under this decision several breweries in Altoona were practically closed up, as their sales of the manufactured article by shipment into counties where the law is not in force would not justify them in carrying on even in a small kind of way. A few days ago a convention of Blair county brewers was held, and after some consultation they concluded to enter into a kind of general partnership among themselves, and establish a depot for the sale of beer at Gallitzin, in this county. By doing this they claim that they can manufacture beer within the limits of their own county individually, ship it to the joint firm at Gallitzin, and from thence it can be reshipped back to Altoona, Hollidaysburg, or any point in the local option county they may desire .- Cambria Herald.

Another Fool Burned.-The Selinsgrove Times says ; "A goal oil accident occurred at Captain Meeker's house on Sunday last. A hired girl whilst engaged at cooking concluded to hurry up the cakes by the use of coal oil, and the result was the explosion of a two gallon can of oil. The whole kitchen was in a blaze and the girl's clothes took fire. The fire on her clothes was extinguished by rolling her in the grass, and the fire in the kitchen was put out by means of a hose kept on hand for such occasions. The girl's name was Snyder. She was considerably burned, and returned to her home at Middleburg.

A Large Snapper.

An exceeding large snapper of the "Tortoise species" was recently captured at Sandy Hill, by Mr. Alexander McMillen, while in the act of destroying a crop of young ducks. Mr. McMillen is evidently well versed in the art of capturing snappers as this is the fourth or control by pers, as this is the fourth one caught by him this season, and in size it surpasses any exhibited in this vicinity perhaps for a number of years, its length being fifteen

The owner exhibited it in the presence of a number of persons, where Dr. S. Iokes suggested the idea of maintaining it, when it was gratuitously presented to him as a special present. After incessantly experimenting with the aggravated snapper to test its temper, Dr. Iokes finally succeeded in permanently enclosing the border of his coat-tail in its mouth, to the hearty amusement of all present. It required but a few moments, however, to separate a portion of his coat-tail, after which the "King of Beasts" was committed to the swill-tub, where, as may be supposed, it still clings to the coat-tail with neverfalling energy.

A. R. R. The owner exhibited it in the presence of A. R. R. failing energy.

Matrimonial.—A young gentleman who has been, and still is unwell, desires to correspond with a limited number of young ladies. Object-general improvement, both of health and mind. Intentions honorable. Address-" Hanvey St. John, New-port, Perry county, Pa."

BLAIN, Pa, June 12th, 1870.

Mr. Editor :- Mr. James F. McNeal, one of our most enterprising citizens is building a house, which, when completed, will ing a house, which, when completed, will rival any in our village, or even in the surrounding country. Mr. Jacob M. Miller has also the foundation dug for a house, which he intends erecting during the summer. In my communication in the Times of the 9th inst., you made me say something, that I did not intend to say. It says that "Dr. Bradfield set the fractured bones, and the lady is now doing well. It is not certainly known whether he had any of the fire water, etc." Now, the word he in that construction, would relate to the "Doctor," as its antecedent, while it should relate to the young man, who upset his sister. set his sister.

#### Brief Items.

Gallatin's Row is now being taken down. It is not probable any building will be erected there again, as this lot is to be fenced in as a yard to the bank building.

Benjamin Rice, of Spring twp., has sold his farm to John Kistler, of Elliottsburg. Price \$7500.

A little child of Wash Buchanan's of McVeytown, upset a pan of hot starch upon itself recently, and was so badly scalded that it died in a day or two.

A severe storm passed over portions of Tyrone and Spring townships, on Monday a week. Some damage was done to trees and fences by the wind in the vicinity of Blue Ball, and the buildings of Samuel Spotts, Esq., were somewhat damaged.

The Democratic County Committee of York county, at its meeting on the 4th inst., fixed upon Tuesday, August 11th, at 10 o'clock, A. M., as the time for holding the County Convention. The Delegate elections will be held on the Saturday presidents.

The following notice is posted at Osceola: "Al chikens found trespasin' on this premis, will be persecuted accordin' to law with a shatt gun." If we had put such a law into operation on some of our neighbor's chickens, we would have more early page for use than we have now. peas for use than we have now.

The thunder storm which passed over the lower end of Huntingdon county, on Saturday week, is said to have done great damage in Orbisonia. The streams rose rapidly, and part of town was submerged —the water flowing into the houses.

The hotel owned by Henry M'Kee, at Clark's Ferry dam, Dauphin county, was destroyed by fire on Tuesday afternoon.—Mr. M'Kee succeeded in saving his effects on the first floor, but the remainder of the contents were destroyed with the building. The fire is supposed to have been caused by a spark from a locomotive of the N. C. R. W. Loss nearly covered by insurance.

Cumberland County. - From the Cumberland county papers of last week, we copy the following:

A gentleman from Perry county was arrested on last Thursday, charged with fast driving through our streets. He was taken before Justice Shryock who imposed the

On Friday last, during the heavy thunder storm, the lightning struck a tree a few rods from the residence of Mr. Chas. Varner, one mile east of this place, shocking Mrs. Varner and her two children very severely, knocking hem down and rendering them propositions for some minutes. Cake them unconscious for some minutes.—Oak-ville Enterprise.

A little daughter of Mr. Nathan Albright, aged about fourteen or fifteen months, reaged about fourteen or liteen months, residing on East st., met with a very serious accident on Sunday last. The child was standing on a chair at the window the sash of which was raised, and while looking out into the street, the sash suddenly fell, striking the child's hand and crushing her fingers in a very severe manner. It is feared that some of the bones are splintered.

Cyrus Toner, of Mount Holly borough, had quite a dangerous encounter with a wild cat in the South Mountain, on Saturday last. While hunting he came across the animal on the top of a large tree, which he attempted to capture, but he had no sooner made the attack than it sprang from the tree on him and showed fight. The dogs Mr. Touer had with him came to his rescue, and after an encounter of about two hours, they succeeded in dispatching the "critter.

A running match, for a purse of thirty cents, came off at the Fair Grounds, on Saturday evening, the contestants being four in number. At the appointed time the four started on a race around the ring. The best time made was 1:30; second best 1:33; third best 1:40, while the fourth "threw up the sponge" before he reached his destination. Taking the distance into consideration—which is about one-third of a mile—we would call that fast running. But the worst of all the victor was unable to find the stakeholder .- Volunteer.
