Arrested on Suspicion.-There was small riot in Carlisle on Tuesday of last week, in which several persons participated who fled the town. Information of their departure was sent to this city, and late on Wednesday night officer Hipple arrested three suspicious characters in the yard of the Pennsylvania railroad company. One of them was provided with a black jack and another with a dangerous looking knife. The parties were committed to prison, and a telegram was transmitted to Carlisle informing the chief of police of the arrest. Yesterday he came to Harrisburg and identified one as John Stringfellow, a man charged with fornication by a female of Cumberland county. William Smith and Albert Judy, his associates, were discharged. Neither of the parties had been concerned in the riot. Stringfellow was taken to Carlisle to be tried for fornication. -Harrisburg Patriot.

Thieves at Duncannon.-The Record says : "On Sunday night last about twelve o'clock our friend Dr. Bleistein, who is ever on the alert, was roused from a light slumber by the incautious click of the front gate. Springing to the window, he hastily peered out, just in time to see the burly form of a burglar vanishing round the house ; to draw on his clothing, and seize an old shot gun was the work of an instant, and in a second more our good friend was noislessly stealing after the midnight intruder. Bang ! bang ! sud-denly roared the fierce old gun, to the affright and consternation of all the Doctor's neighbors, who reached their windows only to hear ring out on the dewy air, the triumphant exclamation, "I've shot a man in the legs." However, the would-be burglar, not being badly disabled, escaped, but we hope he has been effectually taught, that danger and possibly death will inevitably result from midnight tresspassing within private boundaries.

On Friday night last, a grain and straw stack belonging to Wm. Adams, esq., near Upton, Franklin county, was discovered to be on fire. Mr. Adams had been thrashing out his grain with a steam thresher on the day before, and the fire was first discovered about 11 or 12 o'clock—and before the fiames had reached the barn and its con-tents, which together with the separator, was saved from the fiames. Some circum-stances connected with the fire lead to the suspicion that it was the work of an incensuspicion that it was the work of an incen-diary. Mr. Adams, loss is about \$300.

Prof. Wickersham, superintendent of common schools, has reappointed Hon. A. L. Hayes a trustee, on the part of the state, for the state normal school at Millersburg.

Most of our readers will remember of seeing notices in the different papers stating that John Morrison, of Dickinson, twp. Camberland ec., had two horses taken from his stable in May last, one of which found his way back home sometime during the next day. The other had not been heard from since that time, until found recently under the following curious cir-cumstances. The papers of the valley have a wild horse was frequently seen roaming over the mountains in the neighborhood of Grane's Gap. The wild horse turns out to be one of the horses taken from the stable of M. Morrison, in the month of May. It would be seen, from a bridle found near have been tied in this place, when left by the thief, for some days, before getting loose. A certain place under a large tree seems to have been the place selected by the unimal during its long stay in the mountains as there were evidences here int would indicate that this was its lodg-ing glace during that time. What is more singular, is that this horse should remain within ten or twelve miles of home when its is nown that horses brought here from Virginia and other points treble the dis-Family Flour, Superfine Flour, Superfine Bye Flour, Rye....
