

The Bloomfield Times.

NEW BLOOMFIELD, PENN'A. Tuesday, August 18, 1874.

A DEMOCRATIC CONVENTION was held in the Court House in this place, on Monday, for the purpose of nominating a candidate for Congress, electing a Representative Delegate to the State Convention at Pittsburg, and to appoint Senatorial Conferees.

An organization was made by the election of SAMUEL NOES, of Dunannon, President.

Secretaries—Wilson Luffler, Esq., of Centre and Wm. Titzell, of Juniata twp.

The Convention nominated Hon. John A. Magee, for Congress, with power to select his own conferees. In addition to endorsing Hon. J. A. Magee, a resolution was passed denouncing the "Salary grab," of the former Congress, and those who supported or advocated it.

Chas. E. Brandt, Calvin Sheibley and Dr. McClellan Kerr, were selected as Senatorial Conferees, with instructions to support a Juniata county candidate.

A. M. Markle, Esq., of this borough was elected as Representative Delegate.

THE Temperance Party held a State Convention last Wednesday, and nominated the following ticket:

Lieutenant Governor—Benjamin Rush Bradford, of Beaver county.

Judge of Supreme Court—Simeon B. Chase, of Susquehanna county.

Auditor General—Calvin Parsons, of Luzerne county.

Secretary of Internal Affairs—W. P. Cuthbertson, of Montgomery county.

A SERIOUS CONFLICT has at last begun between the white and colored population in the north western portion of Mississippi. Both parties are armed and organized, and already several lives have been lost on both sides. A number of volunteers from Memphis have gone to Austin, Miss., at which place the most serious consequences are imminent. The population at that town, vacated the place, which was ransacked by the darkeys, but was subsequently captured by the whites.

THE nominations for President Judge in Cumberland county, do not seem to meet with favor from either party. A few such nominations would be a strong argument in favor of placing the appointment of Judges in the hands of the Governor. One of the Democratic papers, the Sentinel, in an article on the nominations, expressed its disgust at the whole ticket in the following strong terms:

"We shall reserve a more extended notice of the ticket for some future time. Suffice it to say that we wipe our hands of it. We will never consent to prostitute time and everything that belongs to manhood in the support of such a mass of corruption and imbecility. We hope that the people of this county, without distinction of party, will meet in convention, and, in justice to themselves, to their own self respect, and to their reputation abroad, place in nomination a ticket at least for President Judge, Congressman, Senator and Assembly, that will receive the support of honest and temperate men. The day has come when the friends of virtue, temperance and morality must take a stand.—There is no use in the advocates of virtue and the advocates of vice trying to mix.—One or the other must triumph."

Excitement in France—Bazaine's Escape.

Paris, August, 11.—Intense dismay has been created among the French government officials here and the city is wild with excitement, over news received here this morning of the escape of Marshal Bazaine from the military prison on the island of Sainte Marguerite.

The following interesting particulars of the escape of Bazaine from his prison on the island of St. Marguerite, have been received: The apartment occupied by Bazaine opened on a terrace, which was built on a lofty cliff overlooking the sea. A sentry was posted on the terrace, with orders to watch the prisoner's every movement. On Sunday evening Bazaine walked upon the terrace with Colonel Villette, his aid-camp. At ten o'clock he retired, as usual, apparently to sleep, but before daybreak he had effected his escape. He must have crossed the terrace in the dead of night, and eluding the sentinel gained the edge of the precipice, and thence, by means of a knotted rope, descended to the sea.

He evidently slipped during the descent and tore his hands, as the rope was found stained with blood in several places. Under the cliff, in a hired boat, were Bazaine's wife and cousin. They received him as he reached the water, and the wife, taking the oars herself, rowed directly to a strange steamer which had been lying off the island since the previous evening. They reached the steamer in safety, were taken on board, and the vessel put to sea. It is thought they have landed at Genoa, as the steamer proceeded in that direction. The first news of the affair came to Grassano, the nearest place on the coast, and the magistrates of the town sent officers in ev-

ery direction to search for the fugitives. There was great commotion in Marseilles when the fact became known.

An investigation was ordered. Colonel Villette, who was walking with Bazaine on the evening of his escape was discovered there and imprisoned. The commandant of St. Marguerite was placed under arrest, and General Leroal has gone to the island to investigate the affair.

Another Murder.

On the 8th inst., a body was taken from Drawer's Creek, near Wilmington, Del., which was recognized as that of Robert A. Mackey, driver, of Lewisville, Chester county, Pa. On Wednesday, the 20th, he drove to Newark, N. J., and fell in with Joseph Taylor, living near Jennersville.—After drinking together Mackey and Taylor went to St. George's and drank more, Mackey paying the bills and showing considerable money, while Taylor seemed to have none. This, according to present information, was the last seen of Mackey alive, and subsequently Taylor appeared at Odessa, alone with Mackey's horse and buggy, and at the hotel displayed a large sum of money. Driving away he returned on Thursday to Middletown, near Odessa, sold the horse and buggy for half their value and disappeared. On Friday the body was found, and it is said that marks of violence were on it, though none were referred to in the verdict of the Coroner's jury. Last evening a brother of Mackey arrived at Middletown to have the body exhumed. In various particulars this affair resembles the Udderzook case. Taylor is represented to be a person of bad reputation, who had forged his father's name and committed other criminal acts.

Terrible Accident to a Bridal Party.

A terrible accident happened, a few days ago, to a party of young people near Stanhope, N. J., which will cost two of the party their lives, and maim another. A young couple had just got married at Dover, and, with four friends, started in a carriage to Budd's Lake.

While they were climbing the Stanhope mountain, near the railroad bridge, the pole of the carriage broke and the vehicle rolled rapidly down the steep grade. It struck against the side of the bridge, tore off the railing and went over the abyss, a distance of fifty feet, landing on the railroad track a shapeless mass.

The bride and one of the gentlemen had both their arms and legs and several ribs broken. The other two ladies were fearfully bruised, and the bridegroom fractured an arm, besides receiving a number of cuts about the person. A number of men at work in the furnace near by ran to the rescue, and did all they could for the sufferers, who were subsequently taken to Dover.

What Gin Did.

There was considerable excitement in East New York last week, in consequence of a report that another little girl named Augusta Gildiner had been kidnapped.—She had been missing for several hours.—A thorough search was made for her in the neighborhood of her residence, and she was at length discovered lying behind a door in the house. She was stupefied by gin, which her mother had given her as a cure for chills and fever, from which she was suffering.

The Blood Remedy.

The Jersey City Journal says: The blood remedy is constantly being tried by new patients at the Abattoir. One of the worst cases was that of a young lady who is connected with one of the most respectable families in this city, whose case was pronounced hopeless. She informed Dr. Fowler that she should not trouble him again as she was entirely cured. There are now about ten patients visiting the Abattoir regularly, all of whom are doing well.

Here is the wail and the warning of an unhappy Nebraskan: "Don't come to Nebraska? Don't allow any one to come here, because it is hell here in the shape of 1,234,578,900,000,000,000,000,000 hoppers! There has been a light wheat harvest, and now every piece of corn and potatoes is ruined. Dave Hill lost his entire crop of corn—about fifty acres in all.—Smith has lost all but two acres of corn.—The fact is, desolation reigns supreme in the fields. There is a fair prospect of want for the homesteaders, and, likely, starvation for some. Should like to borrow of some one \$100 that we might escape the impending doom."

Eels, it has been proved, have both sexes in one, and spawn somewhat after the manner of other fish. Like the turtle they can travel out of the water for some distance, from stream to stream, so that in almost every rivulet, however small, they can be found. The gills or breathing organs are covered up by a most delicate curtain which acts like a valve and a reservoir for water, thus enabling the fish to take in a gillful of water, so to speak; to keep its gills moist during the time it is out of the water. It has a heart in the tail, the same as is known to exist in the salmon, with pulsations at about ninety-four to the minute.

A Lynn dog goes about the street, with his muzzle attached to his tail, and a blanket, the superscription on which gives out that the dog law, which requires the wearing of the ornament, does not designate the place of wearing it. The police court is looking into the books.

Church Notices.

American Homes for August is out, with the other first-class magazines. This magazine is only \$2.00 a year, including a beautiful chromo, and the larger magazines is in its size and price. Its table of contents this month includes "From Hod to Mine," by Charles Barnard, an illustrated description of a trip to the Reading coal mines; "Achsah," which gains in interest every month, one will be sure to make a reputation for the author, Rev. Peter Pennot, whoever he may be. The publishers have added a "Fashion Department," which will add to its value in the eyes of the ladies. The short stories and poems of the number are fully up to the standard, and all together make a really first-class two-dollar magazine. The publishers want agents for this in every place in the country.

Camp Meeting.—There will be a camp meeting held by the U. B. Church, commencing August 28, on the farm owned by Lewis Giegerich, one and a half miles North-east of Ickesburg and eight miles South of Millerstown, in Racecon Valley. The committee wish it promptly understood that there will positively be no huckstering allowed on or within three miles of the ground. All men thus intruding, will not only offend the better thinking class of people, but will incur the divine displeasure of God upon them, and will be severely dealt with. All the ground laying convenient, will be so secured that men thus coming will be trespassers.

LEWIS GIEGERICH, PETER WAX, SOLOMON ROTH, Com.

The Bar-Room Remedy for all ailments is Rum Bitters, sarghured with Fasel Oil, a deadly element, rendered more active by the pungent astringents with which it is combined. A Medicine Chest in Miniature.

Mishler's Herb Bitters is not a beverage, but a strictly medicinal preparation, more thoroughly adapted to the wants of the general public than any other in the market. Unlike all other so-called Remedies, it is prepared under the direct personal supervision of an eminent Physician, S. B. Hartman, M. D., the senior proprietor, is a regular graduate of the Jefferson Medical College of Philadelphia, and a physician of extensive and large experience and extensive practice. In such hands the public may rest assured that Mishler's Herb Bitters is compounded in strict accordance with correct Pharmaceutical principles, and that none but the choicest ingredients enter into its composition.

Its immense sale alone is conclusive proof that it possesses merit of a high order. Merchants, bankers, clergymen, lawyers, clerks and others engaged in sedentary occupations, experience its wonderful effects in relieving the depression caused by severe mental labor; while the mechanic, farmer and laborer, find their bodily vigor restored like magic by its use.

At the close of the year, when Diarrhoea, Cholera, and kindred disorders, caused by eating unripe fruits, imprudent indulgence in cold drinks, etc., are prevalent, a certain, speedy and efficient remedy will be found in Mishler's Herb Bitters. The depressing feeling of Languor or Debility, incident to the "heated term," is at once removed, the energies restored, and new life and vigor imparted to the entire system, by its use. An Dyspepsia, Liver Complaint, and Affections of the Kidneys, it invariably works like a charm. It is not a drastic purge nor heady stimulant, violent in its operations; but it is simply a natural remedy, thoroughly adapted to assist nature. It supplies tone to the stomach; reinvigorates the digestive organs, stimulates the secretions, and promoting a regular action of the bowels, enables every organ of the body to perform its allotted work regularly, and without interruption. If the astounding certainty of desired results attendant on its use, coupled with the fact that it is prepared by a physician of eminence in his profession, that has rendered Mishler's Herb Bitters so popular, and as familiar as a household word, THOUSANDS OF MOTHERS all over the land have found it to be the safest and best remedy for use in their families; they not only give it with perfect safety to even the youngest child, but recommend it with caution and the safest means of ensuring their own health and freedom from the weary aches and pains incident to their sex. Perfectly harmless, it is just the remedy needed by them to enable Nature to perform her functions in the most perfect manner. No lady should be without it if she would possess the clear, blooming complexion and cheerful spirits inseparable from sound health. It is sold by all Druggists and General Dealers in bottles per tin in square Glass Bottles, enclosed in a yellow wrapper. It is not sold on Draught, being strictly a medicinal preparation, and as such is endorsed by many of the most eminent physicians of the country.

Edward Bayer, Esq., Horton, Kings Co., N. Y., writes that an astonishing cure has been effected on his daughter by the use of Johnson's Anodyne Liniment. The whole spine became diseased, she lost the use of her limbs, and her back was rounded up like a bow, in consequence of taking cold after having been innoculated for the knee pock. She is now well.

We pledge our reputation on the assertion that any educated physician, after a careful examination of the recipe, will say that Parson's Purgative Pills possess more merit than any other pill now offered for sale.
