

The Bloomfield Times.

NEW BLOOMFIELD, PENN'A. Tuesday, October 13, 1874.

IN CONSEQUENCE of a change that is to take place in the Postal Laws, which will compel us to PRE-PAY all postage, we make a change in the Subscription price upon papers mailed to subscribers residing out of the County, and on subscriptions received after this date will pre-pay the postage.

THE U. S. Grand Jury, last week, indicted several election officers in Petersburg, Va., for preventing certain persons from voting.

HON. S. S. BLAIR has finally received the nomination for Congress in the district composed of the counties of Blair, Cambria, Somerset and Bedford. The nomination was made on the 27th ballot.

Fraudulent Voters.

The Philadelphia Ledger, which is a paper very careful in its statements, says that preparations have been made for polling a large number of fraudulent votes, by a system of false registering in many of the voting districts of that city.

An average of twenty-seven fictitious names on all assessors' lists in one-half of the voting districts is not an unreasonable estimate, and "will go a long way toward accounting for the recent increase of twelve thousand to our voting population between two elections. That the average of twenty-seven presented in the case of the seventh division of the Sixth ward is not too great, will be seen by reference to the petitions filed yesterday from ten divisions in which the alleged fictitious names range from fifteen in the lowest division to one hundred and ninety-seven in the highest. The aggregate of the alleged 'myths' in these ten divisions is seven hundred and three, or an average of more than seventy to each division.

Moulton's Business.

A N. Y. Cor. Says: The firm of which Moulton is the most active member, are among the largest importers in this country of railroad iron, salt and fish. They are the heaviest warehousing firm in this nation, if not in the world. They own and lease a line of warehouses and docks fronting the upper bay, on the East river side, for at least a mile and a half, valued at not less than fifty millions of dollars.

Moulton is in charge of all freights received from the Mediterranean, South America, and those from New England and the British Provinces. In addition to this he has a large interest in the importation of salt and fish, all of which pass under his direction. It is claimed that this firm has done a business during five years past of over \$250,000,000. Be that as it may, Moulton may well wish not to be any other man's "mutual friend."

Sudden Death of a Physician.

Yesterday afternoon about half past three o'clock Dr. H. W. Kauffman, whose residence was on the corner of Broadstreet and Ridge avenues, dropped dead on the street in the vicinity of the public school house building, corner of Ridge road and Hamilton street. A lady who was working opposite noticed the Dr. falling and gave the alarm. The body was conveyed to the house of Mr. Revere Butts nearby, and Drs. VanCleaf and S. H. Coover were instantly summoned to attend the case. The physicians pronounced it a case of heart disease. Coroner Porter was notified of the occurrence and proceeded to the residence of Mr. Butts to hold an inquest. A jury rendered a verdict that the said Dr. H. W. Kauffman came to his death from causes unknown to the jury.—Harrisburg Patriot of 7th inst.

Costly Liquor.

Judge Bond of the U. S. Circuit Court, at Richmond, Va., last week sentenced Bridget McDevitt and Fayette Macklin for violating internal revenue laws. The former was fined one thousand dollars and sent to the Petersburg jail for six months, and the latter fined in the same amount and sent to the Albany penitentiary for one year.

A New Feature in Surgery.

A Baltimore paper of 1st inst., says: "Yesterday at noon, at Professor Thomas R. Brown's clinic, at the College of Physicians and Surgeons, he performed an entirely bloodless operation on H. D. Webster, of this city. Mr. Webster was a member of the old 'bucktail regiment' during the war, and when in front of Richmond in 1863, under General McClellan, was wounded by a minnie bullet in the lower third of the thigh, causing him to be sent to the hospital. Prominent surgeons, thinking the injury to be of a very serious nature, advised him to have the leg amputated, but to this proposition he objected, and continued under treatment for some time, until he got around on crutches.

He then left the hospital and came to Baltimore, and has been suffering very severely ever since, nearly twelve years. A few weeks ago he presented himself to Dr. Brown and desired him to operate on his limb, and if it was actually necessary asked that it be amputated. After a thorough examination of the limb by probes, etc., a further examination was determined upon, and yesterday, Dr. Brown, assisted by Drs. Bevan, Lynch, Penrod and Friedenwald, laid the limb open above the knee joint and examined the leg while he was under the influence of chloroform.

The beauty about the operation was that there was no loss of blood, requiring the use of sponges, etc., which always materially interfere with the surgeon. Esmarch's apparatus was used on the limb. The leg was wrapped with a gum-elastic bandage commencing at the big toe and continued up the leg until the injured part was passed. The gum, by its equal pressure on the limb, forced the blood out of the lowest extremity. Immediately above the rubber bandage, a gum tubing was wrapped several times around the limb and the lower bandage taken off.

The leg then presented a pale and shrunken appearance, the blood being all forced out of the veins. The professor then proceeded to operate, then made his incisions through the flesh down to the bone and around it, and not a drop of blood was to be seen on the knife. He examined the injured part at leisure, found the exact injury, extracted several pieces of bone, bullet, wadding, etc., without the interference in the least with blood by this simple contrivance. This is the first time the instrument has been used in Baltimore.

Terrible Earthquake.

Recent accounts from Guatemala, give the particulars of an earthquake, which occurred there on the 3rd ult., at 8:30 A. M.: "Without previous warning a strong earthquake shook the ground violently in the direction from west to east. The wavelike undulations on the surface rose and fell at least one foot at first. The shock lasted from twenty-five to thirty seconds. When the contents of the large water tank in the court-yard of the hotel were thrown out wild screeches and screams continued, even after the early terror had somewhat subsided, and long after there was noise of falling walls, more or less distant, and mingled with the sounds of hundreds of voices chanting hymns for mercy. Many shocks followed during the night, every one of which gave rise to new alarms and new impositions. It was intensely dark during the continuance of the shocks.

An inspection in the morning showed that about two dozen inhabited houses were destroyed, causing a loss of thirty-two lives. The number of houses damaged and which will have to be taken down, is considerable. Many of the old ruins of 1773 have suffered seriously. During the confusion incident to the earthquake, several men appeared with long knives for the purpose of stealing and murdering, but the Political Chief of Antigua soon repressed them. All the squares and open places are covered with tents for shelter, and even carriages and carts serve as temporary abodes.

It will take some time before the people of Antigua, Guatemala, recover serenity of mind enough to go to sleep in their tottering houses. At Guatemala, the Capital, slight shocks were felt. The Indians say that three villages, at the foot of the volcano Delfengo, have been destroyed.

Religion that Paid.

The late Bishop Whitehouse of Illinois, left an estate worth \$400,000. It consists of real estate in Chicago worth \$30,000, a library and pictures worth \$10,000 other personal property \$10,000, and lands in West Virginia \$350,000. He gave it all to his children, Henry B. Whitehouse, Edward N. Whitehouse, William F. Whitehouse, Frederic C. Whitehouse, Louisa Whitehouse, Frances Meredith Whitehouse, and Harriet Bruns Whitehouse, share and share alike. His sons, Henry, Edward, and William, are executors of the will, and his brother, Mr. Edward Whitehouse, of New York City, is the guardian of the two minor children, Frances and Harriet. Mr. E. N. Whitehouse, being a paymaster in the navy and necessarily absent from Chicago, has declined to act as an executor.

Sharpshooting by a Lady.

Mrs. Abigail Starr, of New Castle, Ind., blazed away at some young fellows who were devastating her chicken-coop, and killed a chicken under the arm of one of them.

A Bride Suffocated in a Closet.

Hartlepool, England, has also been the scene of a sad event. A gentleman by the name of Kelk, cashier to a building firm there, had recently got married. He gave a party at his house. "His young wife," says the paper, "in her anxiety to get out of the hot air, ventured up stairs, and seeing a small closet with a ventilator, she entered to fasten it, when the current of air closed the door.

"In vain she called to the servants, although she could hear the door bell ring and the visitors enter, and as none suspected that the imprisoned lady was in the closet, the roof of the house all other parts of the dwelling and grounds were searched. When at last found Mrs. Kelk was seriously ill and hysterical. Violent epileptic fits followed, and the shock being more than the nervous system could sustain death shortly put an end to her sufferings."

Extraordinary Verdict.

In the Supreme Court at Newcastle, N. B., at the term which closed on Wednesday of last week, a case was tried where suit was brought to recover the value of about 20,000 burnt bricks and some lumber, about 7,000 feet. The judge in charging the jury directed them to find for the plaintiff the value of good bricks at \$15 per thousand, and lumber usual price. The jury retired to their room, and after prolonged and serious discussion returned, and by their Foreman, William F. Cother, rendered a verdict for the plaintiff for \$294,000. The judge and spectators were amazed. When Mr. Cother was asked how the verdict was made up he showed his calculation, and it was discovered they had calculated the bricks at \$15 each instead of per thousand. The jury were ordered back to their room, and after some time returned with a verdict of \$350. The judge stated he had great pleasure in dismissing them.

The Wheat Crop in Europe.

The London papers of the 8th inst. make the following report of the crops in that country: "The week closed with a considerable fall of rain, which has been long wanted to lessen the effect of the protracted drouth. Wheat is still declining, though no carefully prepared statement has shown that the crop is much above the average as to quantity or quality. All advices from the continent report a decline in price. The arrivals at Odessa have been light and unsatisfactory. It seems that no wheat is expected from Egypt."

Robbing a Grave.

Quite an excitement was raised at Buffalo, N. Y., last week, by the action of some medical students. The grave of Mrs. Richard J. Carey, recently deceased, at Holy Cross cemetery, was robbed on Tuesday night. The casket outside the coffin and the shroud were left lying on the ground. Officers next day visited the medical college with a search warrant, and found the body with four others. The students were surprised while at work dissecting them. Thirty-nine students were arrested and taken in procession to the police court. Justice Nash released them on parole to appear when wanted.

Important Arrest of Counterfeiters.

Buffalo, N. Y., October 9.—This afternoon the United States detectives arrested Thomas Ballard, alias John Davis, one of the most expert counterfeiters and engravers in this country; also, Elizabeth Ballard and Ann Adams, accomplices, in this city. In their possession were found \$10,000 in counterfeit money, of various denominations, together with the press, dies, plates, etc. The prisoners were committed to jail, for examination, by United States Commissioner Scroggs.

A Farmer Shoots two Boys.

A party of boys were last week chestnutting on the farm of Aaron K. Woodward, near Wilmington, Del., when the owner ordered them away. They not starting as promptly as he thought they should, he became excited and fired twice at them, wounding Wm. Lukins and John Kelly.—The former boy died that afternoon, but Kelly is in a fair way to recover. Woodward was arrested and committed to the New Castle Jail.

The second-best and the most striking building in Louisville, Ky., is that occupied by the Public Library. It was paid for by three Gift Concerts, managed by a board headed by ex-Governor Thomas E. Bramlette. The Board is authorized by the Legislature of the State to give five of these Concerts. The fifth takes place in November next, and the profits, after distribution \$2,500,000 to the ticket-holders, are to be used in perfecting the Library, and furnishing the blind of the State with books in raised letters. This is rather a large thing for Kentucky. Governor Bramlette has given three years to this Library, and he is making it the best in the country. Books are bought for this Library in orders of \$20,000 at a time, and an enormous amount of money has been paid for paintings, statuary, and other works of art. The next drawing in aid of the Library, in which the capital prize is \$250,000, takes place, as we stated, in November next, positively.

The Glendenning case came to a trial last week before the authorities of the church of which Glendenning is a minister. The session was secret.

Miscellaneous News Items.

A New York lady got a hat that turned up on one side, and her husband criticised it so severely that she wore her old bonnet when she went to see the "Sphinx," and lo! it was the only one there. Everybody had on a new hat, and every one had it turned up high on the side. Said her husband, "Good heavens! have all the women gone crazy?" "Yes," replied she, meekly, "and why can't I go crazy too?" "My dear," said he "you may; it would be ridiculous to be the only sensible woman in the word." So hereafter she is going to wear her grey felt, turned up on one side, in peace.

Horace Greeley once wrote a note to a brother editor in New York whose writing was equally illegible with his own.—The recipient of the note not being able to read it, sent it back by the same messenger to Mr. Greeley for elucidation. Supposing it to be the answer to his own note, Mr. Greeley looked over it but likewise was unable to read it, and said to the boy: "Go take it back. What does the d—d fool mean?" "Yes sir," said the boy, "that's just what he says."

A seedy looking Irishman, who lived over a grocery store on Court and Schermerhorn Sts., Brooklyn, who his neighbors considered very poor, is dead, leaving \$50,000 in different savings banks, and an equal amount in real estate. His name was Neil Doughty. His relatives are unknown. If he had any they did not cultivate his acquaintance.

The Charlotte, N. C., "Observer" of Sunday last says: We learn that Rev. Henry Asbury, of Lincoln county, was burned to death one day last week. He was rubbing his body with kerosene oil, when, being near the fire, the oil ignited and burned him in a frightful manner.

A married gentleman from Toledo walked into the ball-room at Put-In-Bay the other night in full dress, after sitting for some minutes on his wife's powder box, carelessly left on a chair. The effect was striking.

New York, October 6.—A Wilkesbarre dispatch states that a difficulty occurred among the miners at Moosic yesterday, originating in a demand by some of the Irishmen that the boss, a Welshman, should be discharged. The company declined to accede to the demand of the men, when eighty of the latter struck, and were at once discharged and paid off. The strikers then endeavored to prevent others from going to work in their places, and in a fight that followed one man was fatally beaten.

Berlin, October 6.—The residence of the son of Count Von Arnim was searched last evening by the police, under belief that the letters to his father from Prince Bismarck might be concealed there, but the documents were not found. The son of the count is lieutenant in the Drayon guards.

Holly Springs, October 8.—Last night a mob of negroes numbering about forty took James Perkins and William Ravenswood (colored) from jail and shot them dead, thereby avenging the death of Mack Hill. It was done so quietly that few persons knew of it until this morning. All is quiet now.

London, October 8.—The fine residence of Hepworth Dixon was entirely wrecked by the recent powder explosion in Regent's park canal.

A SUBSTITUTE FOR QUININE.

For years, Quinine was regarded as the only specific for malarious diseases, and immense quantities of the drug were annually consumed throughout our western country, more particularly along the river bottoms and adjoining low lands. With the fall months malaria, in all its varied forms, stalks like an epidemic through the land, and whole districts are prostrated with chills and fever, the entire population shaking with ague. Heretofore, quinine was regularly resorted to; but, while it frequently failed to effect a cure, it invariably deranged the stomach, producing nausea, vertigo and fugitive pains in the head to such an extent that months elapsed ere the system recovered from its effects. These objections to its use were so marked, that the introduction of Mischler's Herb Bitters was hailed as a triumph in medicine. Infinitely more certain in its beneficial effects than quinine, it possessed none of the demerits of that drug. Instead of nauseating, it tones and invigorates the stomach, and while speedily expelling the noxious humors, increases the appetite and facilitates digestion, thus rendering the system stronger, and better fitted to resist the attacks of disease. In fact, a judicious use of Mischler's Herb Bitters in this season of the year, will prevent the recurrence of this disease, even in those who have never passed an autumn without it. An experience of twenty years proves it to be the greatest ANTI-PERIODIC known to medical science. There are, perhaps, no diseases so subject to climatic changes as affections of the kidneys.—Hundreds of our farmers, mechanics, and laboring men, strong and hardy in all other respects, suffer continual inconvenience, and occasionally excruciating pains in the back and across the loins; experience a frequent desire to pass water, pain in its passage, and frequent stoppages in its flow. These are manifestations resulting from some strain or heavy lift (perhaps years ago), and aggravated by every change in the weather. Every slight cold flies direct to this one weak spot, and unless promptly attended to the disease becomes chronic, and the once strong man a miserable wreck. Mischler's Herb Bitters is the only certain remedy for this class of diseases. It has a peculiar tendency to the kidneys, stimulates them to healthy action, and removing the cause, prevents the formation of brick-dust deposits, which, if permitted to continue, will by cohesion form gravel, necessitating a painful operation for its removal. Many of the ingredients entering into its composition, are universally recognized as specifics for all complaints of the urinary organs. In Liver Complaints, Dyspepsia, all disorders of the Bowels, and affections of the Throat and Lungs, it is equally certain and efficacious; while, as a remedy for the complaints peculiar to the female sex, it has no equal. LEUKÆ, old and young, married and single, in every condition of life, will find this GREAT FEMALE REMEDY prompt, safe, certain and reliable. The pale, sallow complexion is replaced by a blooming, healthful countenance, and it enables the debilitated female to perform her functions REGULARLY and WITHOUT INCONVENIENCE. Sold only in bottles by all Druggists and general dealers. August 11, 69 H.

SUNBURY FIRE INSURANCE COMPANY, OF SUNBURY, PENN'A.

THIS Company has upwards of \$150,000 of assets (without its premium notes) as the State Commissioners' report will show, and as a STOCK and MUTUAL COMPANY, has more assets than any other local company in this State. It insures country property, from \$2,500 to \$4,000 per thousand, for three years including injury sustained from lightning. It takes risks from one up to five years with or without a note, as applicants may desire, and insures up to three-fourths the full value of the property. This Company has never had a single assessment and is one of the cheapest, safest and most reliable companies in the State. JAMES ORR, Agent. New Bloomfield, Perry co., Pa. Also, Agent for the North American Fire Insurance Company, of Philadelphia, and the Farmers and Mechanics Insurance Company of Dauphin Co., Pa., and also, Agent of some of the most reliable Life Insurance Companies in the United States. August 25, 1874. H
