ACCORDING to the Freeman's Journal Gen. Sherman is not a Catholic, but when he courted Miss Ewing he was required, before Father Ryder could marry them, to promise as an officer and a gentleman that he would never interfere with his wife in the practice of her religion, and that her children should be brought up Catholics.

If the above is true, it shows that Gen. Sherman has not got as much spunk as we gave him credit for, or he would have got some other man to perform the marriage ceremony, before making so foolish a promiso.

MAINE last year elected some women as Justices of the Peace, and the legality of the action is now a question. The Supreme Court, it is said, are about to give an opinion adverse to the eligibility of women to the offices of Justice of the Peace, on the ground that the constitution contemplates that all offices named therein can be held by men only. If the acts of women hitherto appointed as justices are vold, some interesting questions may arise, especially if the court goes to the extent of holding them incapable, by reason of their sex, of solemnizing marriages.

Damage to Shipping and Loss of Life. London, October 21 .- The gale in the north last night was very destructive on the coast and in the interior. Reports of damage to shipping and other property have come to hand, and several dispatches announcing loss of life have also been received.

Additional dispatches have come to hand showing that the gale in the north last night was far more severe and destructive than was indicated by the first reports. The storm also extended to Scotland. The ship Chusen, from Glasgow for Shanghai, was driven ashore near Ardrossan and is going to pieces. Fourteen of the crew were washed overboard and drowned. The persons left on board, some fifty in number, took to the rigging, where they yet remain in full sight from shore. Efforts are being made to save them. Several lives were also lost in England. Reports from Hartlepool, Shield's Hill and other ports, and from inland towns, bring intelligence of great damage to shipping, factories and other property.

A Bold Robbery.

A Belligerent Elder.

B. Chadwick and Rev. Talbert reside in Tipton township. They are close neighbors. As the Scotch say, their land "marches" on each other. Chadwick is a lusty young granger. The granger's

hogs foraged through the preacher's field ; they were eating and destroying corn. Temper is hard to control under aggravation. Chadwick's hogs grew fat, and Chadwick smiled approvingly on their efforts at self-subsistence. One auspicious Sunday the preacher's forbearance gave out. He "gobbled" a ravaging hog ; and made it prisoner in a pen. Chadwick come over to " chin" the elder on his capture. That able divine was irate. Chadwick accused him of something improper. The elder denied, and countercharged .-

Ye powerful granger pronouned the divine "a liar," with a profano prefix. This was too much. Smitten on one cheek, the preacher had not the nerve to turn the other, but he gave his tormentor a lefthander in the face that rattled his kitchen furniture ; then with the right he lifted a stick of stove wood and battered the son of Belial over the supposed repository of his brain.

Chadwick had the elder arrested. He appeared before Squire McDonald. The elder Chadwick appeared as counsel for his son, and Lowden for the preacher. There was "lots and gobs" of fun. Rev. Eli Mossman was principal witness for the de-fendant, and there was a rattling contro-versy between him and the elder Chad-Five dollars was the amount of the wick. tine imposed on the divine.

A Nice Detective.

During a recent trial at Mobile, Ala., of prisoners arrested by the U. S. Marshall, a detective, chief prosecutor and witness for Government, was instantly recognized by Admiral Raphael Semmes, who was present at the trial, as one of his crew of the rebel steamer Sumter. Hecler came forward and at once confirmed the Admiral's recognition by offering his hand. Hecler was appointed master's mate by the Admiral, and at Gibralter, while a midshipman, he was temporarily in charge of the steamer.

This man Hecler committed what the Admiral characterized a most foul and brutal murder. He shot and killed a messmate who lay in his bunk, it is supposed asleep. Heeler escaped. In the trial the fact was developed that the subpoenas for the witnesses were issued by Commissioner Gillette, of Mobile, September 30th, more than two weeks before the alleged offence was committed.

A Dry Time.

An honest old Kentucky farmer from the country gave his recollections of the late hot spell as follows : "It was so dry we couldn't spare water to put in our whiskey. The grass was so dry that every time the wind blew it flew around like so much ashes. There wasn't a tear shed at a funeral for a month. The sun dried up all the cattle, and burned off the hair till they looked like Mexican dogs, and the sheep all like poodle puppies, they shrank up so. We had to soak all our hogs to make 'em hold swill, and if any cattle were killed in the morning they'd be dried beef at dark. The woods dried up so that the farmers chopped seasoned timber all through August, and there ain't a match through all the country-in fact, no wedding since the widow Glenn married old Baker, three months ago. What few grasshoppers are Miltord, N. H., October 20.-This morn- left are all skin and legs, and I didn't hear a teakettle sing for six weeks."

A Remarkable Accident.

The Passaio Rolling Mill in Paterson was nearly destroyed last week by the bursting of the fly wheel, a mass of metal twentyfour feet in diameter, weighing twentyseven tons. The beam that was going through the rollers had dragged, and it got across the "collar," throwing a strain of 240 horse power on the spindle that connects the roller with the engine, breaking it and freeing the fly wheel, which increased its velocity from 65 to 800 revolutions a minute, bursting it at once. One of the segments weighing three tons went through the roof and smashed a large iron erane in its descent. Another piece about the same size went through the roof and fell into the mill about 800 feet away, making two large breaks in the roof .-Another piece fell on a cart in the yard, demolishing it without injuring the horse or the driver. Over one hundred men were at work in the mill, and their escape without injury was miraculous.

137 The change in the time of holding elections in this State will exercise, vast good, at least in one direction-that of preventing the colonization of voters upon the border counties of New York, New Jersoy and Pennsylvania. It has been the custom with both political parties to import and colonize voters from one State to the other, for the purpose of swelling the vote and increasing majorities in counties where the wires could be successfully manipulated to that end. The separate days upon which elections were formerly held afforded them an opportunity of doing this, without fear of detection, and gangs of these nomadic suffragists were regularly crossed over the lines in the interest of wire-pullers of one party or the other. The elections this year, occurring on the same day in each of these States, will confine the operations of repeaters to their own-or at least one-locality, and the chances for open fraud will be materially lessened .-Majorities in border counties will show to what extent the vote of Democrats and Republicans alike has been fraudulently swollen in the past.

Miscellaneous News Items.

IT A Greencastle, Ind., jeweler named H. A. Day, who every night deposits his watches and most valuable jewelry in the safe of one of the banks in that city, was taking his watches to the bank, which is just a square from his stere, a few nights since. The hour was about 7 o'clock.

When he arrived nearly opposite the bank a couple of men sprang upon him, and while one struck him in the car with a " billy," the other picked up the box in which were the watches, sixty-five in number, and made off to the west at a rapid pace, his confederate following. Marshal Alison chased them nearly two miles and then gave up the pursuit.

Detroit, October 23 .- By the explosion of the propeller Brooklyn, at two p. m. yesterday, thirteen persons were killed, of whom five were passengers and eleven wounded, including some four passengers. The wounded were brought here and placed in the hospital. The passengers, both on the Brooklyn and steamer Huron City, close by, assert that the Brooklyn was racing with the steamer Cuba when the explosion occurred. The Brooklyn had a miscellaneous cargo, the value of

Two insurance men of Lexington, Ky., thought they had discovered a new way to collect old debts, but didn't make out very well. The pariner of a bankrupt, who owed them \$140, was taken into a room and offered his choice between giving a check for the amount or being shot through the head. After much parloying and praying he gave his note, and was released on swearing that he would never divulge the affair. In less than five minutes those men had an officer's hand on their shoulders, and within an hour paid \$1,500 in fine and costs.

127 At a negro camp meeting in Hutchinson, Ky., an old and enthusiastic woman fell into what seemed to be a trance. Believers said it was an expression of Divine blessing. Disbelievers said it was a sham. The controversy was earnest, and finally bitter, the partisans coming to blows, and confusion reigning throughout the camp. For nearly two days the woman remained still and apparently unconscious, the only evidence of life being a faint pulse and fainter breathing, and the quarrelling went on. At the end of this time she died.

138" A Richmond man, who had been complained of for keeping a vicious dog. put the animal upon the stand as a witness. On being asked if he would bite any one, he uttered a peculiar noise, and shook his head. He was then asked if he would bite if his master set him on, and replied in the affirmative by nodding his head and barking. When asked if he would bite the Court he shook his head vigorously, and this secured for him an honorable acquittal

137" A man has convulsed the quiet neighborhood of Freeport, Ill., by attempting to palm himself off as a long-lost husband. He satisfied the widow Gaylord and her children of his identity, but a skeptic in the family brought the matter before the grand jury, and the result was that the fellow was found to be an impostor, and sentenced to three years' residence in the Penitentiary.

137" A. Harrisburg man who was suffering from hunger, turned to his mother's Bible for consolation-he had not opened the good book for years. He found a ten dollar bill between the leaves, and then for the first time in his remembrance prayed. He went to the bakers to buy some bread when he found the bill was counterfeit, and then he swore for the first time in half an hour.

13 On Thursday a week a little daughter of Martin Morgan, of Hollidaysburg, in crossing the railroad, caught her foot, between a plank and a rail, and was unable to release itself. Her mother, on seeing the train coming, ran to her assistance, and pulled her to one side, and thus her life was saved, but the flesh was torn from the knee to the ankle, rendering amputation necessary.

137" A lady correspondent of the Chicago Tribune, writing from England says : "Let me here parenthetically insert a mention of the fact that such is the marvelous fecundity of the British matron that the babywagons are built to carry two, and we seldom see one that has not its full complement-baby of 6 months pulling away at a bottle, while baby of 18 months sucks its thumbs."

A SUBSTITUTE FOR OUININE.

For years, Quinine was regarded as the only

ing the Saughegan National Bank was robbed of about \$70,000, \$4,000 being in bills and the rest in private property.

The cashier of the bank, H. T. Sawyer, was awakened about 1 o'clock at his house by a man, who shouted "you are wanted," and he immediately placed a gag in his mouth, handcuffed him, and then tied him to the bed post. Mrs. Sawyer was also handcuffed, and with her babe was fastened into a small closet.

The robbers, meanwhile, bound the other children and thrust them into the closet. and handcuffed and shut up the servant girl. This done they presented a pistol at Mr. Sawyer's head, demanding the keys of the bank.

He told them they were not there, and Mr. Sawyer having refused to tell where the keys were the robbers nearly strangled him with the gag and a twist of rope around the neck. Finally Mr. Sawyer told them that the keys were in the post office lock box.

The men then placed a rope around Mr. Sawyer's neck and took him to the post office. A hole was cut in the glass, the sash raised and the keys secured. Mr. Sawyer was forced to go and open the bank, and all the funds, notes and collaterals were taken out

Mr. Sawyer was then taken back and tied to the bed-post and left. About 3 o'clock his little son Fred. got loose and cut the ropes, letting his father free, and an alarm was given. The bank loses \$25,000.

Twenty dollars were taken from the cashler's pocket. The servant girl and Mrs. Sawyer received injuries about the face and neck. The robbers frequently threatened to kill the babe if it was not kept quiet.

A party of four boys went hunting near Boulder, Col., recently, when one named Jacobson accidentally discharged his pistol, shooting himself through the heart, causing instant death.

Murder Will Out.

During the time the burglass were engaged in robbing the bank at Wellsboro, Pa., their boots, which had been removed to facilitate their movement, were saturated by the rain and it seems could not be pulled on with the ease necessary to meet the demand of the occasion. To render the matter easier, the legs were cut off and left almost killed his friend, only in fun of behind. They were afterwards found and the name of George Fralic was found upon one of them. This served as a clue, and that worthy was arrested and has since been identified as one of the gang.

Fire in the West.

Accounts from Fort Wayne, say : "A fire which has been burning for five miles west and southeast of this city now assumes a serious aspect. It is estimated that nearly ten thousand acres of prairie and timber lands are burning on the line of the Toledo, Wabash and Western railway, which causes a dense smoke to settle over the city and surrounding county, making it nearly as dark as night in the middle of day, and rendering breathing difficult. It is feared the fire may reach the city if rain does not come.

A New Use for a Wife.

A letter from Fort Smith, Ark., says the United States marshal went to arrest the desperado Redmouth. The party came upon the ruffian in a deep ravine. The latter opened fire, which the posse returned. The next morning a woman, one of Redmonth's wives, was found completely riddled with bullets fired by the posse, the scoundrel having held her in front of him as a breastwork. The woman died and Redmouth escaped.

Exemplary damages have been given by a Baltimore jury, in a case in which a man shot another by accident. The defendant playfully took up a gun, entertaining the common idea that no gun can possibly be loaded, and playfully pointed it at his friend. As it always happens in such cases, the gun was loaded, and he shot and course. The jury showed their appreciation of such genial humor by giving a verdict for \$6000 damages. A few more such verdicts will have the effect of lessening the frequency of similar accidents.

13" A New York man recently met with whole "chapter of accidents" within the short space of five minutes. He was passing along in front of a large business house from the third story of which a clerk was throwing down small packages of goods. His glossy black silk hat was a mark for one of the descending bundles, and in a moment it was battered over his nose and eyes. In his confusion he relieved himself by dropping two valuable books and a set of artificial teeth, all of which articles were stolen by some adroit thieves who took advantage of his dazed condition.

137 A Baltimore paper says : Willie Gordon, a boy realding with his parents on Hillen street, stumbled at the corner of Hillen and Front streets and falling in the gutter, which was swollen by the heavy rain and running rapidly down towards the bridge, was carried along face downwards for the length of over half a square. A colored man who witnessed the occurrence seized his clothing just as he got to the mouth of the sewer and this saved him from a fearful fate.
