

The Bloomfield Times.

NEW BLOOMFIELD, PENN'A. Tuesday, November 10, 1874.

IN CONSEQUENCE of a change that is to take place in the Postal Laws, which will compel us to PRE-PAY all postage, we make a change in the Subscription price upon papers mailed to subscribers residing out of the County, and on subscriptions received after this date will pre-pay the postage.

THE London Times is happy, after a brief inspection of a map of this country, to think that England was released from the American colonies when that event occurred; else by this time the colonies would have been the English government and England a mere dependency.

ONE of the most singular changes in the political situation, is the election of a Democratic Governor in Massachusetts. It is 38 or 39 years since such an event has occurred in that State. The Governor elected at that time was Marcus Morton, whose majority was only one vote, his competitor being Edward Everett. General Butler has also been defeated by several thousand majority, in a district heretofore largely Republican.

Recent Elections.

On Tuesday last, elections were held in twenty-three States and Territories. Below will be found a condensed report of the result.

PENNSYLVANIA

elects the Democratic state ticket by a majority ranging from 1000 to 5000. There were also 27 Congressmen elected, of which 17 are Democrats. The State Senate will have a Republican, and the House a Democratic majority, but the Democrats will have a majority of 5 or 6 on joint ballot, which will secure a Democratic Senator to succeed Mr. Scott.

NEW YORK

elects a Democratic Governor by nearly 30,000 majority, and a Democratic Legislature, which also secures the Democrats the next U. S. Senator.

WISCONSIN

elects six Republican and two Democratic Congressmen, and a Republican Legislature.

MASSACHUSETTS

elects a Democratic Governor, but a Republican Legislature. The Congressional delegation stands, 4 Democrats, 2 Independents and 5 Republicans.

LOUISIANA

astonishes everybody by electing four Democratic Congressmen and a Democratic Legislature.

SOUTH CAROLINA

elects Chamberlain, Republican for Governor, and five Republican members of Congress.

ILLINOIS

has gone Republican on the State ticket, but elects four Democrats to Congress.

KANSAS

sends one Democrat and two Republicans to Congress, and elects a Republican Governor.

FLORIDA

from present appearances the Republicans elect two Congressmen by a small majority, but a democratic legislature.

ALABAMA

elects a Democratic Governor, by 6,000 or 7,000 majority and the Congressional delegation will probably stand four Democrats and three Republicans. The legislature is also largely democratic.

TENNESSEE

elects a Legislature largely Democratic, and 1 Republican and 9 Democratic Congressmen.

MICHIGAN

Late returns make it certain that Bagley, Republican, for Governor, has at least 3,000 majority. The legislature on the joint ballot will be republican, conceding all doubtful districts to the democrats.

VIRGINIA

has elected six Democratic and three Republican Congressmen.

MINNESOTA

The returns from this State come in slowly, but indications are that the Republicans have carried the State by a small majority.

NEVADA

elects a Democratic Governor by a small majority. The Republicans claim the Congressmen, but the vote is so close that only official returns can decide it.

Georgia, New Jersey, Delaware, Kentucky Maryland, Missouri and Texas, are Democratic throughout.

Washington Territory elects a Republican Delegate to Congress and Idaho a Democrat.

The result of Tuesday's elections gives the next House of Representatives to the Democrats by a good working majority.

The leaders and papers of that party have told so much about the good that will come to the nation from Democratic rule, that people will begin to feel in their pockets, expecting to find them full of silver and gold, and we hope they will not be disappointed. We are still willing, however, to receive greenbacks for subscriptions.

Post Office Statistics.

An official statement, prepared for the forthcoming report of the postmaster general, shows that the free delivery system was extended to thirty-nine additional offices during the last fiscal year, and is now in operation in eighty-seven cities. Two thousand and forty-nine carriers were employed, who, during the year delivered 211,199,665 letters, together with about 20,000,000 postal cards, and 65,500,000 newspapers. The total number of pieces handled, including collections, exceeded 500,000,000, at an average cost of about three and one half mills per piece. The average cost last year was three and four-fifths mills per piece. The per centage of increase in the total cost of service as compared with the previous year is twenty-four and one-half but the receipts from legal postage have, during the same period, increased forty-five per cent. This branch of the postal service therefore continues to be more than self sustaining.

Novel Pistol Shooting Challenge.

John Phoenix issues this burlesque challenge: I will suspend two dollars by a ring from a second person's nose, so as to bring the coins within three-fourths of an inch from his face, and with a double-barreled shot gun at a distance of thirty feet will blow dollars, nose and man at least thirty feet further, four times out of five. I will add, in explanation, that in San Diego, containing a rather intelligent community, I can find at present no one here willing or ready to have his nose blown in this way; but I have no manner of doubt that I could obtain such a person from St. Louis, by Adams & Co.'s Express in one season.

Mystery on the Cars.

Mrs. Anna Snow was just getting up to leave a train of cars at Newburyport, Mass., some two weeks ago, coming from Boston, when she found a roll of bills of large amount in her lap, but how they came there she could not tell. She advertised them, and on Friday a week a man proved them to be his, though he was not on the train the day they were found, and had never been at Newburyport.

A Discouraged Man.

There is a man in East Lyme, Conn., who has kept his bed for six years, because he was once disappointed in love. He isn't sick, but simply chronically sorry that he didn't get that girl. His mother waits upon him constantly. The man once had a brother who lay abed for five years.

Miscellaneous News Items.

Two masked men entered the house of Mrs. Sarah A. Bradley, in North Adams last week, and after tying her to a chair, ransacked the house and stole \$300.

At Manaque, Passaic county, New Jersey, on Saturday night, Sarah Cronk, aged 25, shot and killed James Luke, aged 65, who was annoying her with his attentions. Mrs. Cronk was near her confinement.

In the house of Laban Strickland, the deaf and dumb hermit who recently starved to death at Colchester, Ct., have been found some \$1,500 in bank bills and specie, while the rest of his estate consists of 100 acres of good land.

A couple who were married in 1827 and have 13 children, nearly all of whom are married, were divorced at Portsmouth, N. H., last week, on the ground of cruelty on the part of the husband. The man is 64 years old.

Two truckmen moved the traps of a physician in Lowell, and drank heartily from what looked like a bottle of claret. The fluid was paregoric, however, and the drinkers stretched themselves out on their wagon and slept a sleep that for ten hours knew no waking.

One day last week, as the carriage of J. F. Hazen was coming to Cincinnati, from Clifton, the horses became frightened at a drove of hogs, and precipitated the vehicle and occupants down an embankment, a distance of fifty feet. Mrs. Hazen is thought to be fatally injured. The other occupants escaped unhurt.

A German, from Cincinnati, name unknown, robbed the grave of the body of a young girl at Seymour, Ind., the other night, and left on the train. He was overtaken at Hardenburg and taken back, where it is feared he may be dealt with without process of law. The corpse was found in the trunk.

At St. Paul's, last week, James Lick and his wife were attacked on the street by George Lichtenschlager and George Rapp, and wife, who evidently had been lying in wait for them. Mrs. Lick was brutally murdered on the spot. Mrs. Rapp and her husband then attacked Mr. Lick, the former being armed with a knife and the latter with tinners' soldering irons, and after knocking him prostrate they placed him face downwards in a small creek, and Rapp stood on him to hold his face in the water until he was strangled. They were frightened off by approaching footsteps, and Lick was picked up insensible, and may yet die from his wounds. All the assassins were captured.

Indisputable Evidence.

St. Elmo, Ill., July 8, 1874. R. V. PIERCE, M. D., Buffalo, N. Y. - I wish to add my testimony to the wonderful curative properties of your Alt. Ext., or Golden Medical Discovery. I have taken great interest in this medicine since I first used it. I was badly afflicted with dyspepsia, liver deranged and an almost perfect prostration of the nervous system. So rapid and complete did the Discovery effect a perfect cure that it seemed more like magic and a perfect wonder to myself, and since that time we never been without a bottle of the discovery and Purgative Pellets in the house. They are a solid, sound family physician in the house and ready at all times to fly to the relief of sickness—without charge. We have never had a doctor in the house since we first began the use of your Pellets and Discovery. I have recommended the use of these medicines in several severe and complicated cases arising from, as I thought, an impure state of the blood, and in no one case have they failed to more than accomplish all they are claimable, (though I could give you dozens). Henry Koster, furniture dealer, of this place, who was one of the most pitiful objects ever seen, his face swollen out of shape, scales and eruptions without end, extending to his body, which was completely covered with blotches and scales. Nothing that he took seemed to effect it a particle. I finally induced him to try a few bottles of the Golden Medical Discovery, with daily use of the Pellets, assuring him it would surely cure him. He commenced its use some six weeks since, taking two Pellets each night for a week, then one each night and the Discovery as directed. The result is, to-day his skin is perfectly smooth, and the scaly eruptions are gone. He has taken some seven or eight bottles in all, and considers himself cured. This case has baffled the skill of our best physicians. Messrs. Dunsford & Co., druggists, of this place, are selling largely of your medicines and the demand steadily increases, and they give perfect satisfaction in every case. Respectfully, W. H. CHAMPLIN, Agt. Am. Exp. Co.

Dr. Sweeney, of New Bloomfield, Pa., can be consulted as usual on all Chronic diseases, requiring skillful medical treatment, or delicate and difficult Surgical operation for their cure.

A SUBSTITUTE FOR QUININE.

For years, Quinine was regarded as the only specific for malarial diseases, and immense quantities of the drug were annually consumed throughout our western country, more particularly along the river bottoms and adjoining low lands.

With the fall months malaria, in all its varied forms, stalks like an epidemic through the land, and whole districts are prostrated with chills and fever, the entire population shivering with ague. Heretofore, quinine was regularly resorted to; but while it frequently failed to effect a cure, it invariably deranged the stomach, producing nausea, vertigo and fugitive pains in the head to such an extent that months elapsed ere the system recovered from its effects. These objections to its use were so marked, that the introduction of Misher's Herb Bitters was hailed as a triumph in medicine. Infinitely more certain in its beneficial effects than quinine, it possessed none of the demerits of that drug. Instead of nauseating, it tones and invigorates the stomach, and while speedily expelling the malarial humor, increases the appetite and facilitates digestion, thus rendering the system stronger, and better fitted to resist the attacks of disease. In fact, a judicious use of Misher's Herb Bitters at this season of the year will prevent the recurrence of this disease, even in those who have never passed an autumn with out it. An experience of twenty years proves it to be the greatest ANTI-FEBRILE known to medical science.

There are, perhaps, no diseases so subject to climatic changes as affections of the Kidneys. Hundreds of our farmers, mechanics, and laboring men, strong and hardy in all other respects, suffer occasional inconvenience, and occasionally excruciating pains in the back and across the loins; experience a frequent desire to pass water, pain in its passage, and frequent stoppages in its flow. These are manifestations resulting from some strain or heavy lift (perhaps years ago), and aggravated by every change in the weather. Every slight cold flies direct to this one weak spot, and unless promptly attended to the disease becomes chronic, and the once strong man a miserable wreck. Misher's Herb Bitters is the only certain remedy for this class of diseases. It has a peculiar tendency to the kidneys, stimulates them to healthy action, and removing the cause, prevents the formation of brick-dust deposits, which, if permitted to continue, will by cohesion form gravel stones, necessitating a painful operation for its removal. Many of the ingredients entering into its composition, are universally recognized as specifics for all complaints of the urinary organs. In Liver Complaint, Dyspepsia, all disorders of the Bowels, and affections of the Throat and Lungs, it is equally certain and efficacious; while, as a remedy for the pale, watery complexion, resulting from a blooming, beautiful countenance, and its occasional use enables Nature to perform her functions REGULARLY and WITHOUT INCONVENIENCE. Sold only in bottles by all Druggists and general dealers. August 11, 4m R.

An Irishman called at a drug store to get a bottle of Johnson's Anodyne Liniment for the Rheumatism; the druggist asked him in what part of the body it troubled him most, "Be me soul," said he, "I have it in every houl and corner er me."

A MAN IN RUINS.—One of the saddest spectacles in the world is a human being shattered and broken down by the use of ardent spirits. But the damage may be repaired, the ruin restored to perfect soundness, by a course of that most powerful of all invigorants, Dr. Walker's Vinegar Bitters. Beware of those "tonics" of which rum is an element. They aggravate disease and promote decay. 44 4w
